Paper Title Blocks and Headings

The following is recommended for papers in the EBS research area – for submission to conferences and journals unless the conference or journal specifies otherwise:

**TITLE OF PAPER**
Alberta B. Author
Environment, Behaviour & Society Research Group
Faculty of Architecture, Design and Planning
University of Sydney, Australia

If four levels of headings are needed, eg, for a thesis, the following meets APA guidelines, and is clear and legible:

**CHAPTER 1: THEORY**

*Conceptualization, Organization and Development of CPERS*

*An Interactional-Constructivist Theory*

*Conceptualisation and reconceptualisations.* For the fourth level, the text continues run-in.

If only three levels of headings are needed, eg, for a paper, the following is sufficient:

*Conceptualization, Organization and Development of CPERS*

*An Interactional-Constructivist Theory*

*Conceptualization and reconceptualisations.* For the third level, the text continues run-in.

Alternatively, if only two levels are needed for a paper:

*Conceptualization, Organization and Development of CPERS*

*An Interactional-Constructivist Theory*
