2008 Glenn Murcutt
International Masterclass Studio

5 – 18 July (2 students)
14 – 18 July (15 - 20 students)
Note: this studio will run during the vacation.

Approximately 30 students from around the world come to Australia to participate in this annual workshop. The first week of the Masterclass is spent in the Arthur Boyd Centre at Bundanon. The second week takes place in the Wilkinson Building. Two students will be selected to participate in both weeks. The other U.Syd participants will support the development of the work begun in the first week of the Masterclass, and - following the end of the Masterclass - will be required to present a re-assessed and re-developed design at a jury held approximately 21 days after the end of the Masterclass. Applicants must make clear on their applications whether they are applying for the two week program or for the second week only.

The electives are available to MArch students, with permission and subject to space being available. Closer to the start of the workshops, a limited number of Yr 3 students may be accepted. Yr 3 students who are interested in taking a workshop as an elective should register their interest with Kristine Sodersten and/or Sue Rice.

Enrolment:
Students wishing to apply for a workshop must hand to Kim Pagett, in Room 305, an A4 sheet of paper on which you must state (legibly!):

(1) Name
(2) Student Number
(3) e-mail address
(4) Degree
(5) Year
(6) First choice workshop
