Brief Synopsis of position

Trainee Accountant Position- 2 days per week

DON’T MISS THIS UNIQUE TRAINING OPPORTUNITY

Reporting to the senior company accountant you will be initial responsible for the processing of the financial information relating to accounts receivable and accounts payable. If you have current working experience with these accounting function, that we be an advantage but not essential. Thus, you will be given on the job training before assuming any responsibility. Over time you will be exposure to several other accounting functions such as: petty cash, account reconciliations, month end accounting process and revenue accounting, just to name a few.

This position is a rare opportunity to learn many of the main accounting functions that a company needs to deal with and be trained by highly experienced and qualified accounting staff.

So that we attract the right person with the basic skills, we are looking for a person who has completed 18 months of an undergraduate degree in accountant and is hoping to qualify as a CPA in the future.

The rate of pay will be $25.15 per hour
