What’s going wrong?

As a group, or as individuals reflect on the following …

If a problem is detected then discuss as a group the root cause of the problem and consider strategies to overcome them.

❑ Do we listen to each other?
❑ Do we keep repeating arguments and not moving on?
❑ Do we constantly interrupt each other?
❑ Do we just push our own ideas instead of developing and encouraging other's ideas?
❑ Do we allow dominant members to dominate?
❑ Do some of us fail to contribute?
❑ Do we compromise enough?
❑ Do we concentrate on making impressions rather than getting the job done?
❑ Do we have a clear set of tasks or objectives?
❑ Do we make it clear to all members what has been decided?
❑ Do we make it clear who is to act on decisions?
❑ Do we put each other down?
❑ Do we bring irrelevant or unhelpful points?
❑ Do we recognise that others have feelings about what is happening in the team?
