

Master of Commerce with a specialisation in Quantitative Finance

In this illustrative program of study, core units are coloured **blue**, units of study required for the **Quantitative Finance specialisation** are coloured **green**, and *italics* indicate the foundational units in the Master of Commerce degree.

Year	Semester	Unit of study	Unit of study	Unit of study	Unit of study	Total credit points
1	1	<i>QBUS5001 Quantitative Methods for Business</i>	<i>FINC5001 Capital Markets and Corporate Finance</i>	<i>foundational / elective / 2nd specialisation</i>	BUSS5000 Critical Thinking in Business	24
	2	QBUS6830 Financial Time Series and Forecasting	Quantitative Finance elective for specialisation	<i>foundational / elective / 2nd specialisation</i>	<i>foundational / elective / 2nd specialisation</i>	24
2	1	FINC6000 Quantitative Finance	Quantitative Finance elective for specialisation	elective / 2nd specialisation	BUSS6000 Succeeding in Business	24

Due to the number of required foundational units, Quantitative Finance can only be taken as either a single specialisation or in combination with a second specialisation in Finance, Banking or Quantitative Business Analysis.

Please Note. This program of study is meant to be a guide only. Students may be able to undertake the required units of study for these specialisations in different sequences to that listed above. Students should also note that this example has been developed using 2012 offerings of units of study and there is no guarantee that the units of study listed above will be offered in the same semesters in the years after 2012. Units of study listed above may also be available in the Summer or Winter School sessions.

This information is correct as of the 9/09/2011. Students are advised to check the [University of Sydney Business School website](#) or [handbook](#) for the most up-to-date information regarding units of study availability and requirements.
