**Conference Scope and Themes**

IEIS’2016, which is co-organized by Beijing Jiaotong University, University of Reading and Business School, University of Sydney, is a prime international forum for both researchers and practitioners to exchange the latest fundamental advances in the state of the art and practice of strategic demands of industrial economy and of industrial security. Experts and scholars will discuss academic issues, seize future development opportunities, master the subject developing tendency and exchange the latest research and academic thinking.

Through this conference, participants will share the latest research results and practical experience and make profound exchange on their innovative ideas, meanwhile have a good grasp of the greatest challenges with the changing times as well as make a serious consideration of the future. The conference will inherit the current research of international academic community on the emerging field of strategic demands of industrial economy and of industrial security, which not only focuses on theory construction, but also pay more attention to practical applications.

**Conference Proceedings**
The proceeding will be published by Springer and sent to ISI-Knowledge for CPCI-S (former ISTP) indexing and Elsevier for EI Compendex indexing. The authors with excellent papers in conference proceedings will be invited to publish their academic thought and methods in some international academic journals indexed by SSCI/SCI or EI with high priority.
