2024 Admission *Guide*

FOR DOMESTIC STUDENTS

Discover our entry schemes to see if you're eligible for adjustment factors or a lower ATAR: sydney.edu.au/study/ admission-pathways

We offer Guaranteed Entry for most courses and list a guaranteed selection rank made up of ATAR + adjustment factors. Guaranteed Entry to a course is subject to meeting all the admission criteria and the availability of places. Selection ranks listed with an asterisk (*) are indicative and are not Guaranteed Entry ranks. These courses have additional admission criteria and/or limited places.

All published scores are correct at the time of printing, and are subject to change. The most up-to-date information on ATARs is available at:

Understanding entry and admission

ATAR, adjustment factors and selection ranks

Your selection rank is your ATAR plus any adjustment factors you may be eligible for. Adjustment factors increase your selection rank and are awarded based on criteria such as your performance in HSC subjects, the location of your school, and your eligibility for Educational Access Schemes. Adjustment factors don't change your ATAR; they change your selection rank for a particular course at a particular institution. If you are not eligible for adjustment factors, your selection rank is just your ATAR.

Guaranteed entry vs indicative entry

For each eligible course, we list a selection rank (ATAR + adjustment factors) for guaranteed entry in the specified year. Meeting this selection rank guarantees you a place in the course, subject to meeting other essential admission criteria and the availability of places in the course. If your selection rank is lower than the guaranteed entry selection rank, and there are places available, you still have a chance of admission, but your place is not guaranteed.

Selection ranks marked with an asterisk (*) in the course tables are indicative only. They do not guarantee entry, as these courses have additional admission criteria and/or a limited number of places.

Non-ATAR qualifications

The University of Sydney recognises a wide range of qualifications from across the world for entry into its undergraduate courses. These include secondary education, higher education, and vocational education and training (VET) qualifications, as well as successful completion of enabling courses and university preparation programs. For details, see the 'Admissions' section on the relevant course page at:

Prerequisites and assumed knowledge

The prerequisites and assumed knowledge listed in our course tables refer to subjects in the NSW Higher School Certificate (HSC) curriculum. For example, Mathematics Advanced refers to the two-unit HSC subject (or an equivalent subject for other qualifications). To understand the required subjects and standards, refer to the HSC syllabus:

Inherent course requirements

Some courses in areas such as education, health, medicine and veterinary medicine have inherent requirements that you need to consider when choosing your course. These are not admission criteria, but requirements that you will need to be able to meet in order to successfully complete your course, such as working with children, patients or animals, or completing fieldwork tasks.
