

Publications for Janette Bobis

2019

Bobis, J., Khosronejadtoroghi, M., Way, J., Anderson, J. (2019). "Sage on the stage" or "meddler in the middle": Shifting mathematics teachers' identities to support student engagement. *Journal of Mathematics Teacher Education*, Online first. [More Information]

Bobis, J., Tregoning, M. (2019). "The task is not the challenge": Changing teachers' practices to support student struggle in mathematics. *Mathematics Education Research: Impacting Practice. 42nd annual conference of the Mathematics Education Research Group of Australasia (MERGA 2019)*, Perth: MERGA.

Bobis, J., Downton, A., Hughes, S., Livy, S., McCormick, M., Russo, J., Sullivan, P. (2019). Changing teacher practices while teaching with challenging tasks. *Conference of the International Group for the Psychology of Mathematics Education (PME43)*, Pretoria, South Africa: PME. [More Information]

Livy, S., Bobis, J., Downton, A., Hughes, S., McCormick, M., Russo, J., Sullivan, P. (2019). Exploring spatial reasoning in the early years: Effective pedagogical approaches. *Australian Primary Mathematics Classroom*, 24(2), 26-32.

Collie, R., Martin, A., Bobis, J., Way, J., Anderson, J. (2019). How students switch on and switch off in mathematics: Exploring patterns and predictors of (dis)engagement across middle school and high school. *Educational Psychology*, 39(4), 489-509. [More Information]

Russo, J., Bobis, J., Downton, A., Hughes, S., Livy, S., McCormick, M., Sullivan, P. (2019). Teaching with challenging tasks in the first years of school: What are the obstacles and how can teachers overcome them? *Australian Primary Mathematics Classroom*, 24(1), 11-18.

Zhang, D., Bobis, J., Wu, X., Cui, Y. (2019). The effects of an autonomy-supportive teaching intervention on Chinese physics students and their teacher. *Research in Science Education*, Online first. [More Information]

2018

Bobis, J., Way, J. (2018). Building connections between children's representations and their conceptual development in mathematics. In V. Kinnear, M. Y. Lai, T. Muir (Eds.), *Forging connections in early mathematics teaching and learning*, (pp. 55-72). Singapore: Springer. [More Information]

Bobis, J., Downton, A., Hughes, S., Livy, S., McCormick, M., Russo, J., Sullivan, P. (2018). Curriculum documentation and the development of effective sequences of learning experiences. *ICMI STUDY 24*, Tsukuba: International Commission on Mathematical Instruction. [More Information]

Smyrnis, E., Ginns, P., Bobis, J. (2018). Mirror mirror: A strategy to enhance mathematical learning. *iNK: the*

professional journal of International Grammar School, 1, 15-18.

McMaster, H., Way, J., Bobis, J., Beswick, K. (2018). Principals' perceptions and expectations of primary teachers with a specialisation in mathematics. *2018 Annual conference of the Mathematics Education Research Group of Australasia (MERGA 41)*, Adelaide: MERGA. [More Information]

2017

Durksen, T., Way, J., Bobis, J., Anderson, J., Skilling, K., Martin, A. (2017). Motivation and engagement in mathematics: A qualitative framework for teacher-student interactions. *Mathematics Education Research Journal*, 29(2), 163-181. [More Information]

Way, J., Bobis, J. (2017). The literacy of mathematics. *PETAA Paper*, 208. [More Information]

Bobis, J., Ewing, R. (2017). Transforming educational practice through action research: Three Australian examples. In L. L. Rowell, C. D. Bruce, J. M. Shosh, M. M. Riel (Eds.), *The Palgrave International Handbook of Action Research*, (pp. 345-361). New York: Palgrave Macmillan.

2016

Zhang, D., Skilling, K., Bobis, J. (2016). Autonomy supportive teaching practices: International perspectives. *4th International Science, Technology, Engineering and Mathematics in Education Conference (STEM 2016)*, Beijing: Beijing Normal University Publishing Group.

Bobis, J., Way, J., Anderson, J., Martin, A. (2016). Challenging teacher beliefs about student engagement in mathematics. *Journal of Mathematics Teacher Education*, 19(1), 33-55. [More Information]

Ginns, P., Hu, F., Byrne, E., Bobis, J. (2016). Learning by tracing worked examples. *Applied Cognitive Psychology*, 30(2), 160-169. [More Information]

Way, J., Bobis, J., Lamb, J., Higgins, J. (2016). Researching curriculum, policy and leadership in mathematics education. In K. Makar, S. Dole, J. Visnovska, M. Goos, A. Bennison, K. Fry (Eds.), *Research in Mathematics Education in Australasia 2012-2015*, (pp. 49-71). Singapore: Springer. [More Information]

Skilling, K., Bobis, J., Martin, A., Anderson, J., Way, J. (2016). What secondary teachers think and do about student engagement in mathematics. *Mathematics Education Research Journal*, 28(4), 545-566. [More Information]

Moss, J., Bruce, C., Bobis, J. (2016). Young children's access to powerful mathematics ideas: A review of current challenges

and new developments in the early years. In L. D. English & D. Kirshner (Eds.), *Handbook of International Research in Mathematics Education (3rd ed.)*, (pp. 153-190). New York: Routledge. [More Information]

Abu Bakar, K., Way, J., Bobis, J. (2016). Young children's drawings in problem solving. *39th Annual Conference of the Mathematics Education Research Group of Australasia (MERGA 2016)*, Adelaide: MERGA.

2015

Martin, A., Way, J., Bobis, J., Anderson, J. (2015). Exploring the ups and downs of mathematics engagement in the middle years of school. *The Journal of Early Adolescence*, 35(2), 199-244. [More Information]

Hu, F., Ginns, P., Bobis, J. (2015). Getting the point: Tracing worked examples enhances learning. *Learning and Instruction*, 35, 85-93. [More Information]

Way, J., Reece, A., Bobis, J., Anderson, J., Martin, A. (2015). Improving student motivation and engagement in mathematics through one-to-one interactions. *38th annual conference of the Mathematics Education Research Group of Australasia (MERGA 2015)*, Sunshine Coast, Australia: MERGA. [More Information]

Way, J., Bobis, J., Anderson, J. (2015). Teacher representations of fractions as a key to developing their conceptual understanding. *39th Conference of the International Group for the Psychology of Mathematics Education (PME39)*, Hobart, Australia: Psychology of Mathematics Education (PME).

Skilling, K., Bobis, J., Martin, A. (2015). The engagement of students with high and low achievement levels in mathematics. *39th Conference of the International Group for the Psychology of Mathematics Education (PME39)*, Hobart, Australia: Psychology of Mathematics Education (PME).

Taing, M., Bobis, J., Way, J., Anderson, J. (2015). Using metaphors to assess student motivation and engagement in mathematics. *39th Conference of the International Group for the Psychology of Mathematics Education (PME39)*, Hobart, Australia: Psychology of Mathematics Education (PME).

2014

Dimarakis, N., Bobis, J., Way, J., Anderson, J. (2014). "I just need to believe in myself more": The mathematical self-belief of year 7 students. *Curriculum in Focus: Research guided practice. 37th annual conference of the Mathematics Education Research Group of Australasia*, Sydney: MERGA.

Hu, F., Ginns, P., Bobis, J. (2014). Does tracing worked examples enhance geometry learning? *Australian Journal of Educational and Developmental Psychology*, 14, 45-49.

Bobis, J., Bruce, C., McAteer, M. (2014). Professional learning through collaborative action research in mathematics: Three perspectives, three nations. *2014 Conference of the Action Research Network of the Americas (ARNA)*, Bethlehem, USA: ARNA. [More Information]

Maasepp, B., Bobis, J. (2014). Prospective primary teachers' beliefs about mathematics. *Mathematics Teacher Education and Development*, 16(2), 89-107.

2013

Hu, F., Ginns, P., Bobis, J. (2013). A helping hand in geometry learning: Does haptic tracing promote learning from worked examples? *EARLI Biennial Conference, 2013*, Munich.

Harrison, N., Bennett, S., Bennett, D., Bobis, J., Chan, P., Seddon, T., Shore, S. (2013). Changing boundaries - Shifting identities: Strategic interventions to enhance the future of educational research in Australia. *Australian Educational Researcher*, 40(4), 493-507. [More Information]

Seddon, T., Bennett, D., Bennett, S., Bobis, J., Chan, P., Harrison, N., Shore, S. (2013). Education research Australia: a changing ecology of knowledge and practice. *Australian Educational Researcher*, 40(4), 433-451. [More Information]

Bobis, J., Shore, S., Bennett, D., Bennett, S., Chan, P., Harrison, N., Seddon, T. (2013). Education research in Australia: where is it conducted? *Australian Educational Researcher*, 40(4), 453-471. [More Information]

Hunting, R., Bobis, J., Doig, B., English, L., Mousley, J., Mulligan, J., Papic, M., Pearn, C., Perry, B., Robbins, J., et al (2013). *Mathematical Thinking of Preschool Children in Rural and Regional Australia: Research and Practice*. Camberwell, VIC: ACER Press.

Bobis, J., Mulligan, J., Lowrie, T. (2013). *Mathematics for children: challenging children to think mathematically (4th edition)*. NSW, Australia: Pearson Education Australia.

Way, J., Bobis, J., Anderson, J., Cameron, L. (2013). Representations of concepts as a catalyst for change in teacher pedagogical content knowledge. *Procedia: Social and Behavioral Sciences*, 106, 2248-2258. [More Information]

Bennett, D., Smith, E., Bennett, S., Chan, P., Bobis, J., Harrison, N., Seddon, T., Shore, S. (2013). Who is conducting educational research in Australia and how can their work be supported? *Australian Educational Researcher*, 40(4), 473-492. [More Information]

2012

Hu, F., Ginns, P., Bobis, J. (2012). Does tracing worked examples enhance geometry learning? *Australian Association for Research in Education (AARE) Annual Conference, 2012*, Sydney.

Seddon, T., Bennett, D., Bobis, J., Bennett, S., Harrison, N., Shore, S., Smith, E., Chan, P. (2012). *Living in a 2.2 world: ERA, capacity building and the topography of Australian educational research*, (pp. 1 - 39). Deakin, ACT, Australia: Australian Association for Research in Education (AARE). [More Information]

Bobis, J., Higgins, J., Cavanagh, M., Roche, A. (2012). Professional knowledge of practising teachers of mathematics. In B. Perry, T. Lowrie, T. Logan, A. MacDonald and J. Greenlees (Eds.), *Research in Mathematics Education in Australasia 2008-2011*, (pp. 313-341). Rotterdam: Sense Publishers. [More Information]

Martin, A., Anderson, J., Bobis, J., Way, J., Vellar, R. (2012).

Switching On and Switching Off in Mathematics: An Ecological Study of Future Intent and Disengagement Among Middle School Students. *Journal of Educational Psychology*, 104(1), 1-18. [More Information]

Way, J., Anderson, J., Bobis, J. (2012). Teaching Mathematics: The Long Journey for Teachers (Editorial). *Mathematics Teacher Education and Development*, 14(1), 1-1.

2011

Bobis, J., Anderson, J., Martin, A., Way, J. (2011). A Model for Mathematics Instruction to Enhance Student Motivation and Engagement. In Daniel J. Brahier (Eds.), *Motivation and Disposition: Pathways to Learning Mathematics - 73rd Yearbook*, (pp. 31-42). Reston, US: National Council of Teachers of Mathematics. [More Information]

Bobis, J. (2011). Fractions: Best evidence and its implications for practice. In Jenni Way & Janette Bobis (Eds.), *Fractions: teaching for understanding*, (pp. 11-20). Adelaide, SA: Australian Association of Mathematics Teachers.

Way, J., Bobis, J. (2011). *Fractions: teaching for understanding*. Adelaide, SA: Australian Association of Mathematics Teachers.

Bobis, J. (2011). Mechanisms affecting the sustainability and scale-up of a system-wide reform. *Mathematics Teacher Education and Development*, 13(1), 34-53.

Martin, A., Bobis, J., Anderson, J., Way, J., Vellar, R. (2011). Patterns of Multilevel Variance in Psycho-Educational Phenomena: Comparing Motivation, Engagement, Climate, Teaching, and Achievement Factors. *Zeitschrift für Pädagogische Psychologie (German Journal of Educational Psychology)*, 25(1), 49-61. [More Information]

Way, J., Anderson, J., Bobis, J. (2011). The Centrality of the Teacher in Mathematics Education (Editorial). *Mathematics Teacher Education and Development*, 13(2), 1-2.

Kefaloukos, M., Bobis, J. (2011). Understanding conservation: A playful process. *Australian Primary Mathematics Classroom*, 16(4), 19-23.

2010

Papic, M., Mulligan, J., Bobis, J. (2010). Listening to Indigenous Early Childcare Practitioners: Mathematics Learning In Community Contexts. *Journal of Australian Research in Early Childhood Education*, 16(2), 49-62.

Bobis, J. (2010). The impact of a developmental framework in number on primary teachers' classroom practice. *33rd annual conference of the Mathematics Education Research Group of Australasia - MERGA33 2010 Shaping the future of mathematical education*, Fremantle: Mathematics Education Research Group of Australasia (MERGA).

Way, J., Anderson, J., Bobis, J. (2010). The Importance of Teacher Knowledge and Teacher Thinking (Editorial). *Mathematics Teacher Education and Development*, 12(1), 1-3.

Bobis, J., Papic, M., Mulligan, J. (2010). The Mathematical Knowledge of Preschool Practitioners: Evidence From The Field. *Journal of Australian Research in Early Childhood Education*, 16(2), 87-97.

2009

Bobis, J. (2009). *Count Me In Too: The Learning Framework In Number and its Impact on Teacher Knowledge and Pedagogy*, SCIS: 1415054, (pp. 1 - 57). Sydney, Australia: NSW Department of Education and Training. [More Information]

Papic, M., Mulligan, J., Bobis, J. (2009). Developing Mathematical Concepts in Australian Pre-school Settings: Children's Mathematical Thinking. *32nd Annual Conference of the Mathematics of Education Research Group of Australasia MERGA 2009*, New Zealand: Mathematics Education Research Group of Australasia (MERGA).

Bobis, J. (2009). Teachers as learners. In Higgs, Joy; Ewing, Robyn; Lowrie, Tom (Eds.), *Teaching & Communicating: Rethinking Professional Experiences*, (pp. 42-50). Melbourne, Australia: Oxford University Press.

Bobis, J. (2009). Teachers assessing children's number knowledge: how confident are they? *Third National Conference on Research in Mathematics Education - MEI 3 Mathematics for All: Extending Mathematical Capacity*, Dublin: Mathematics Education Ireland (MEI).

2008

Bobis, J. (2008). Early Spatial Thinking and the development of Number Sense. *Australian Primary Mathematics Classroom*, 13(3), 4-9.

Bobis, J., Mulligan, J., Lowrie, T. (2008). *Mathematics for children: Challenging children to think mathematically*. Sydney: Pearson Education.

Way, J., Bobis, J., Anderson, J., Martin, A. (2008). Middle years transition, engagement and achievement in mathematics: The MYTEAM project. *International Group for the Psychology of Mathematics Education. Joint Meeting of PME 32 and PME - NA XXX*, Mexico: Cinvestav-UMSNH.

O'Keefe, M., Bobis, J. (2008). Primary Teachers' perceptions of their knowledge and understanding of measurement. *31st Annual Conference of the Mathematics Education Research Group of Australasia (MERGA31)*, Brisbane: MERGA.

Anderson, J., Bobis, J., Way, J. (2008). Teachers as learners: Building knowledge in and through the practice of teaching mathematics. In Forgasz H, Barktasas A, Bishop A, Clarke B, Keast S, Seah WT, Sullivan, Willis (Eds.), *Research in Mathematics Education in Australasia 2004-2007*, (pp. 313-334). Rotterdam, Netherlands: Sense Publishers.

2007

Bobis, J. (2007). Empowered to Teach: A Practice-based Model of Teacher Education. *30th Annual Conference of the Mathematics Education Research Group of Australasia (2007)*, Adelaide, SA, Australia: MERGA.

Bobis, J. (2007). Facilitating Change As Part Of A Large-Scale Numeracy Program. *International Symposium Elementary Mathematics Teaching (2007)*, Prague, Czech Republic: Charles University.

Bobis, J. (2007). From here to there: The Path to computational fluency with multi-digit multiplication. *Australian Primary Mathematics Classroom*, 12(4), 22-26.

Bobis, J. (2007). The empty number line: A useful tool or just another procedure? *Teaching Children Mathematics*, 13(8), 410-413.

2006

Bobis, J. (2006). *Factors affecting the sustainability and expansion of Count Me In Too (CMIT)*.

Bobis, J., Anderson, J. (2006). Reform-Oriented Teaching Practices and the Influence of School Context. *29th annual conference of the Mathematics Education Research Group of Australasia*, Adelaide: MERGA Inc.

2005

Anderson, J., Bobis, J. (2005). Reform-Oriented Teaching Practices: A Survey of Primary School Teachers. *29th Conference of the International Group for the Psychology of Mathematics Education - PME29*, Melbourne, Australia: PME.

Skilling, K., Bobis, J. (2005). Students Reflecting On Their Mathematical Understandings. *12th ISATT International Conference - Challenges for the Profession: Perspectives and Directions for Teachers, Teaching and Teacher Education*, Sydney, Australia: International Study Association on Teachers and Teaching.

Bobis, J., Clarke, B., Clarke, D., Thomas, G., Wright, R., Young-Loveridge, J., Gould, P. (2005). Supporting teachers in the development of young children's mathematical thinking: Three large scale cases. *Mathematics Education Research Journal*, 16(3), 27-57.

Bobis, J., Bobis, E. (2005). The empty number line: Making children's thinking visible. *20th Biennial Conference of the Australian Association of Mathematics Teachers: Making Mathematics Vital (2005)*, Sydney, Australia: AAMT.

Still, K., Bobis, J. (2005). The integration of mathematics and music in the primary school classroom. *Annual Conference of the Mathematics Education Research Group of Australasia - MERGA 28 - Building Connections: Theory, Research and Practice*, Melbourne: Deakin University Press.

2004

Bobis, J. (2004). For The Sake Of The Children: Maintaining The Momentum Of A Professional Development Program. *28th Conference of the International Group for the Psychology of Mathematics Education (PME28)*, Online: PME.

Bobis, J. (2004). Number Sense and the Professional Development of Teachers. In Alistair McIntosh and Len Sparrow (Eds.), *Beyond written computation*, (pp. 160-170). Perth, W.A.: MASTEC (Edith Cowan University).

Handal, B., Bobis, J. (2004). Teaching Mathematics Thematically: Teachers' Perspectives. *Mathematics Education Research Journal*, 16(1), 3-18.

Bobis, J. (2004). Time, Resources, Information Overload And Classroom Management: Issues Surrounding Professional Development. *Mathematics Education for the Third Millennium: Towards 2010 27th Conference of the Mathematics Education Research Group of Australasia*, Sydney, Australia: MERGA.

2003

Aldridge, S., Bobis, J. (2003). Implementing beliefs, knowledge and practices: a beginning teacher's story. *Mathematics Education Research: Innovation, Networking, Opportunity*, VIC: Deakin University.

Handal, B., Bobis, J. (2003). Instructional styles in the teaching of mathematics thematically. *International Journal for Mathematics Teaching and Learning*, 2003, 1-18.

2002

Bobis, J., Aldridge, S. (2002). Authentic learning contexts as an

interface between theory and practice. *Psychology of Mathematics Education* 26, Norwich: University of East Anglia.

Bobis, J. (2002). Is school ready for my child? *Australian Primary Mathematics Classroom*, 7(4), 4-8.

2001

Bobis, J. (2001). Mental Computation: Shaping our children's success in mathematics. *Eighteenth Biennial Conference of the Australian Association of Mathematics Teachers Inc.*, : Ads & Adea.

Aldridge, S., Bobis, J. (2001). Multiple Learning Contexts: A Vehicle for Changing Preservice Primary Teachers' Mathematical Beliefs, Knowledge, and Practices. *Twenty Fourth Annual Conference of the Mathematics Education Research Group of Australasia Inc.*, : UNSW Australian Defence Force Academy.

Handal, B., Bobis, J., Grimison, L. (2001). Teachers' mathematical beliefs and practices in teaching and learning thematically. *24th Annual MERGA Conference: Numeracy and Beyond*, : Ads & Adea.

1999

Mulligan, J., Bobis, J., Francis, C. (1999). Insights into early numeracy: the 'Count me in too' project. *Australian Primary Mathematics Classroom*, 4(1), 22-26.

1998

Bobis, J. (1998). Partnerships with practicing teachers: Action research in practice. In N. Ellerton (Eds.), *Current Issues in Mathematics Education*, (pp. 18-38). Perth: MASTEC (Edith Cowan University).

1996

Bobis, J. (1996). Research in early arithmetical learning and teaching. In Atweh, B., Owens, K. & Sullivan, P. (Eds.), *Research in Mathematics Education in Australasia 1992-1995*, (pp. 281-310). Sydney: MERGA.

Bobis, J. (1996). Visualisation and the development of number sense with Kindergarten children. In Joanne Mulligan & Michael Mitchelmore (Eds.), *Children's Number Learning: A Research Monograph of MERGA*, (pp. 17-33). Australia: AAMT.

1993

Bobis, J., Cusworth, R. (1993). Changing preservice primary teachers' attitudes toward mathematics and science/technology. *Forum of Education*, 49(2), 9-20.

Bobis, J., Sweller, J., Cooper, M. (1993). Cognitive load effects in a primary-school geometry task. *Learning and Instruction*, 3(1), 1-21.

Bobis, J., Sweller, J., Cooper, M. (1993). Demands imposed on primary-school students by geometric models. *Contemporary Educational Psychology*, 19(1), 108-117.

Bobis, J. (1993). International update: A National Australian statement on mathematics. *Arithmetic Teacher*, 40(8), 486-487.

1991

Bobis, J. (1991). The effect of instruction on the development of computational estimation strategies. *Mathematics Education Research Journal*, 3(1), 17-29.

Bobis, J. (1991). Using a calculator to develop number sense. *Arithmetic Teacher*, 38(5), 42-45.
