

Ausgrid Proudly Presents

ROBERT McMAHON'S ELECTRIFYING TESLA POWER DISPLAY

"The man who worked out how to harness power and electrify society"

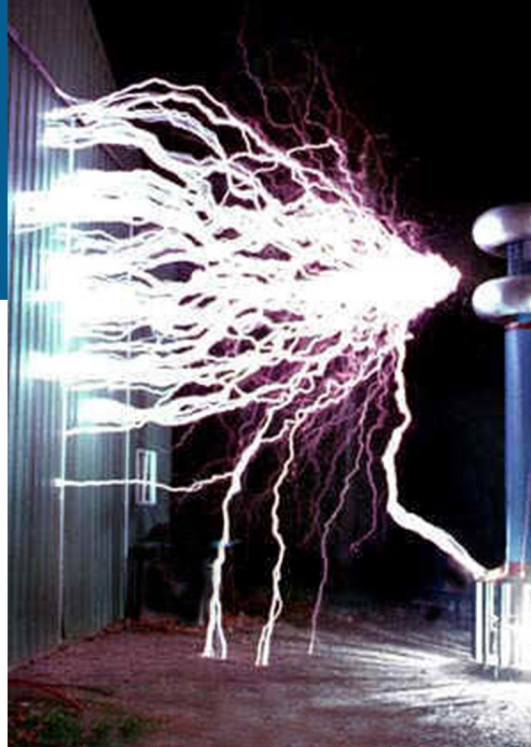

Learn about electricity pioneer Nikola Tesla and the conspiracy theories surrounding his life and his inventions. In this production Tesla's fascinating history is played out using his inventions. You will experience a spectacular display of lights and man made lightning generated from the Jacob's Ladder, Tesla Coil and other custom-built high voltage equipment.

Contact Ausgrid Learning Centre on 02 8745 1574 or 0407 210 827 to book your tickets.

EXPERIENCE...

- a spectacular visual display of plasma from the Jacob's Ladder (as seen in most Frankenstein movies)
- bolts of electricity flying through air as the Tesla coil is fired up
- a technological show, discharging spectacular lightning in arcs of stunning beauty.

This show will appeal to everyone interested in science, technology and the environment.
