

Candidates for the degree of Doctor of Philosophy who wish to submit their theses in electronic form are asked to give **three months notice** of the expected date to allow the department/school and faculty to make arrangements for the timely appointment of examiners.

Please note that not all examiners are willing, or able, to examine theses which are submitted electronically. Therefore, the request can only be agreed to if appropriate arrangements are made.

Candidates are reminded that a non-electronic form of the thesis (ie. a bound hard copy) must be submitted at the end of the examining period for lodgement in the University Library.
