Seeking IT Graduate or Final Year Student

Location: Alexandria

Salary range: $40,000-$50,000 package dependent on experience

Status: Full Time

About Coates Signco
We are a leading Visual and Digital Communications business operating on a global scale to deliver our innovative product solutions to a variety of customers. Our customers are prestigious global brands within the Franchise and Corporate Sector.

The Role
This role involves building and maintaining technology that becomes a part of people's lives. You will be working closely with the developers and bug testing software to ensure quality before deployment.

As a Technical Support Engineer, the following skills are required to succeed in the role:

- Strong communication skills
- A working knowledge of Ubuntu and Windows
- Familiarity with Command-line interfaces
- Experience with Git
- Experience with SSH
- Experience with MySQL
- Understanding of Database Systems
- Understanding of Networking Systems

The following skills are desirable but optional:

- Experience with PHP
- Experience with Bash Scripting
- Experience with Javascript/HTML/CSS

Most importantly, the role requires an open attitude for learning and an interest in software and hardware alike.

We require that the successful candidate be available on a full time basis.

Australian Citizens and Permanent Residents only (inc. New Zealand Citizens)

How to apply
Please email your CV and Cover Letter indicating your ability to work full time to emma@catalinaconsultants.com.au to apply for this position.
