Company Name: Mind The Value ANZ Pty Ltd
Name of Program/position: Graduate, paid
Eligible Students: Information Technology or Engineering and Project Management
Open to: Australian & New Zealand Citizens

Brief Synopsis of position:

Mind the Value ANZ Pty Ltd, an international business consultancy firm with a new subsidiary based in Australia, is looking for hiring a graduate for the position of Junior consultant starting September 2016. Management consultants help organisations to solve issues, create value, maximise growth and improve business performance.

The selected candidate will join a young and dynamic team, and supporting Senior Consultants, the candidate will be directly involved on the management and the development of business processes.

The optimization of business processes will be mainly achieved through process reengineering, system integration and ERP solutions.

The Junior Consultant will have the chance to improve team working skills and the ability to enhance the understanding of the complex models which make larger companies run their businesses.

The company will provide training for each step of a structured career path.

Job Activities:
The day-to-day activities of management consultants are often complex and will vary depending on the client and type of project.

Typical tasks involve:

- Carrying out research and data collection to understand the organisation
- Leading analysis
- Interviewing the client’s employees, management team and other stakeholders
- Preparing business proposals and presentations
- Helping clients with change-management activities
- Preparing project and training documentation and presenting progress reports to customers
- System integration and functional analyses
- Industrial Processes review: as is – to be analysis
- Team work
- New recruits tend to spend most of their time at the client's site (occasional travel might be required)

Required skills:

- Computer skills: Office (Excel, Power Point, Access, Word). SAP is a plus.
- Professionalism
- Ambition
- Communication skills
- Customer focused
- Entrepreneurship
