Graduate Junior Developer – Sydney

Who we are:

• Quantifi is a vendor of high end financial software with over 140 clients across 16 countries including 5 of the 6 largest global banks, 2 of the 3 largest asset managers, leading hedge funds and other financial institutions.
• We have offices in NY, NJ, London, Paris, Frankfurt and now Sydney.
• Quantifi has fostered a culture of excellence, recognized in numerous industry awards.
• We have a track record of being first to market with new financial models in response to changing financial markets.

What we offer:

• Entry into an elite sector of the software industry where innovation is well rewarded
• Career development with multiple career pathways
• Learn from senior professionals with deep experience in technology and finance.
• Opportunity to travel and work in New York and London
• Enjoyable work for a serious coder, solving sophisticated design challenges.

To get the job, you need to demonstrate:

• Problem solving ability and programming skills. We will test this.
• Excellent communication skills.
• Enthusiasm for learning.

Responsibilities:

• Design, development, implementation, and testing of new features in Quantifi’s comprehensive software products
• Working with Sales and Product Management in the ongoing development of our products
• Working with our clients in understanding their needs
• Assisting Helpdesk personnel with client issues when required

Skills:

• BS and/or MS/PhD in Computer Science or Software Engineering
• Strong object-oriented analysis, design and development skills
• Up to 3 years’ experience in C++, C#, or Java
• Experience in relational databases and SQL is desirable

Qualified candidates should send their resumes as soon as possible to APACDEV0215@quantifisolutions.com

Applications close on the 13th March 2015
