

We are looking for an enthusiastic Entry-Level Junior Developer to join our growing project team. You will get to work on a leading edge, full line of business SaaS project, using all the latest and greatest Microsoft technologies.

The ideal candidate will have the drive and ambition to work with and learn from a team of innovative Software Engineers. Working closely with the developers and business, you will constantly be challenged to come up with new ways to improve all aspects of your and the teams work.

In this challenging role you will:

- Design/code/test new test code or enhancements and bug fixes to software features and screens
- Use C#, Silverlight 4.0, Expression Blend, Object Oriented Architecture, TFS, Visual Studio 2010, .NET Framework 4, SQL 2008, Agile Scrum/Methodology.
- Produce high quality code that is easily maintainable.
- Work within the testing team to constantly improve quality in a fast-paced dynamic environment

Your communication skills, analytical ability and commitment to excellence will see you win in this role.

This is a true opportunity to kick start your development career. The successful candidate will be thirsty to learn and will bring to our team a recently completed qualification related to Application Development and Computer Science.

While a genuine passion for software development is essential, no commercial experience is required.

However, if you have familiarity with the .NET framework, Team Foundation Server, Microsoft Test Manager, XAML, SQL, Agile Scrum/Methodology or MS Excel that would be a bonus.

ARE YOU UP FOR THE CHALLENGE? APPLY TODAY!

To apply, send through your resume and a cover letter that outlines why you're the ideal candidate for this role and what you can bring to the team.

Applications can be sent via email to jobs@rockend.com.au quoting reference 'AMB.JDV111115'.
