2016

2015

2014

2013

2012

modeling of reinforced concrete beam response to repeated loading including steel-concrete interface damage. *International Conference on Numerical Modeling Strategies for Sustainable Concrete Structures (SSCS 2012)*, Paris: Association FranÃ§aise de GÃ©nÃ©rie Civile.  
**2011**  
Continuous Configuration And Subjected To Hogging Moment Experiments On Composite Floor Systems: Members With Continuous Configuration And Subjected To Hogg...
Ranzi, G., Vrcelj, Z., Gara, F., Leoni, G. (2009). Design expressions for the effective width of composite steel-concrete members. 24th Biennial Conference of the Concrete Institute of Australia, Australia: Concrete Institute of Australia.

2007

2008

2007

2008

Yang, H., Zhang, S., Ranzi, G. (2006). Fire resistant behavior of concrete-filled steel tubular columns with square cross-sections under three-side fire. *ASCCS 06 - 8th International Conference on Steel-Concrete Composite and Hybrid Structures, China: Assoc for International Cooperation and Research in Steel-Concrete Composite Structures (ASCCS)*.

Wang, Y., Zhang, S., Geng, Y., Ranzi, G. (2006). Numerical simulation and research on Han River North Bridge. *ASCCS 06 - 8th International Conference on Steel-Concrete Composite and Hybrid Structures, China: Assoc for International Cooperation and Research in Steel-Concrete Composite Structures (ASCCS)*.

Dezi, L., Gara, F., Leoni, G., Ranzi, G. (2006). Slab cracking during composite bridge construction: effectiveness of fractionated castings in controlling this phenomenon. *7th...

Strength and ductility of shear connection in composite T-beams. ASCCS 06 - 8th International Conference on Steel-Concrete Composite and Hybrid Structures, China: Assoc for International Cooperation and Research in Steel-Concrete Composite Structures (ASCCS).

The effectiveness of sequential casting in the control of cracking in steel-concrete composite bridges. 16th Workshop on Innovation in Construction (CTE).

The long-term behaviour of multi-layered composite beams with partial interaction. Professor Jean-Marie Aribert Retirement Symposium, France.

Time-dependent behaviour of multi-layered composite beams with partial shear interaction. ASCCS 06 - 8th International Conference on Steel-Concrete Composite and Hybrid Structures, China: Assoc for International Cooperation and Research in Steel-Concrete Composite Structures (ASCCS).

A generic modeling of composite beams with longitudinal and vertical partial interaction. 4th International Conference on Advances in Structural Engineering and Mechanics (ICASS'05), Great Britain: Elsevier.

Analytical solutions for the analysis of prestressed composite beams with partial shear interaction. 3rd International Symposium on Steel Structures (ISS'S '05), Korea: KSSC.

Design and Detailing of an Industrial Steel Structure Supporting Large Storage Bins. Australian Structural Engineering Conference (ASEC 2005), Newcastle, NSW, Australia: Engineers Australia.

Partial interaction analysis of multi-layered composite beams.

Stiffness analysis of prestressed composite beams with partial shear interaction. 3rd International Symposium on Steel Structures (ISS'S '05), Korea: KSSC.

2004

A Generic Analytical Solution For Creep And Partial Interaction In Composite Beams. 2nd International Conference on Steel & Composite Structures (ICSCS'04), Korea: Techno-Press.

A Generic Modelling Of Concrete-Steel Composite Beams With Partial Interaction. fib 2004 Symposium: Segmental Construction in Concrete, Kolkata, India: Institution of Engineers (India).

Analysis Of Composite Beams With Partial Shear Interaction Using The Direct Stiffness Method And The Principle Of Virtual Work. 3rd International Conference on Advances in Structural Engineering and Mechanics (ASEM'04), Techno-Press.

Closed Form Solutions For The Time-Dependent Behaviour Of Composite Beams With Paryial Interaction. 17th Engineering Mechanics Conference, USA: American Society of Civil Engineers (ASCE).

2002

2001
