Last date to accept or decline offer

Funded by a gift from Mr Lawrence Browne in 2011, the Lawrence and Betty Browne PhD Research Scholarship in Civil Engineering has been established to support PhD students undertaking research in structural and bridge engineering in the School of Civil Engineering at the University of Sydney.

To be eligible, an applicant must:

- be a domestic or international applicant,
- have an unconditional offer of admission for full-time enrolment in a PhD program for Research Period 3 (Semester Two) 2016 in the School of Civil Engineering at the University of Sydney,
- have a first class honours degree or equivalent, and
- have a proposed research topic within engineering that must relate to structural and bridge engineering.

Selection criteria
Applicants will be assessed on their academic merit and must supply a statement on how their research area shall relate to structural and bridge engineering.

The Scholarship shall be awarded on the recommendation of the selection committee consisting of the Associate Dean (Research) or their nominee and the Head of School for Civil Engineering or their nominee.

The Scholarship is tenable for a period of up to three years. Payments shall be paid as a stipend allowance equivalent to the current year stipend rate of the APA or IPRS. The Scholarship may be extended for an additional 6 months at the discretion of the Associate Dean (Research). No other benefits are payable.

The recipient must meet satisfactory academic performance requirements and remain enrolled full-time to maintain the Scholarship.

Deferment of the Scholarship is not permitted.

Please refer to the terms and conditions of this Scholarship for a full list of the conditions that apply.
