2014/15 MATERIALS AND STRUCTURES SUMMER RESEARCH PROJECT SCHOLARSHIPS

Terms and Conditions

1. General Details
   a) The Materials and Structures Summer Research Project Scholarships are available to interested students or recent graduates, to undertake a research project with the Materials and Structures Research Cluster during the summer break of their studies.
   b) Applicants must be currently enrolled (full time) with the University of Sydney and have successfully completed at least one year of their course prior to the commencement of the scholarship, or have completed the equivalent of a Bachelors (Honours I) degree.
   c) Students must possess well-developed skills in the areas of mathematics, physics, computing, environmental sciences and/or engineering. Engineering students may use the experience gained from their research projects towards the professional experience component of ENGG4000.

2. Tenure & Payments
   a) The scholarship is valued at $4,500 over a period of 12 weeks. The completion date will depend on individual agreements between the student and their supervisor regarding Christmas holidays etc., but not to be extended beyond 31 March of the following semester.
   b) The scholarship amount will be paid in 2 instalments of $2,250.00, with the 1st instalment being paid on commencement and the final payment being made two weeks before project completion.

Funds for the MATERIALS AND STRUCTURES SUMMER RESEARCH PROJECT SCHOLARSHIPS are kindly funded by the Faculty of Engineering and Information Technologies.
