The School of Electrical & Information Engineering (EIE) is offering scholarships for undergraduate and postgraduate students interested in undertaking a research project over the 2014/2015 summer break.

To be eligible **Bachelor of Engineering** students must have successfully completed a minimum of 120 credit points and be enrolled in ELEC4702

**Master of Professional Engineering** students must have successfully completed 24 credit points in their first semester of enrolment at the time of scholarship application and expect to complete 48 credit points in their first year of their program and be pre-enrolled in ENGG5217.

In addition to the above, **all applicants** must have:

- a weighted average mark (WAM) of 75 or above
- been enrolled full-time in Semester 2, 2014
- at least 12 credit points remaining in their program.

The EIE Summer Research Projects may be considered for work experience to fulfil the requirements of ELEC 4702 Practical Experience/ENGG5217 Industry Experience. For recognition of work experience, students should secure approval from the Director of Undergraduate Studies / Director of Postgraduate Program prior to the acceptance of the scholarship, and to fulfil all reporting requirements for ELEC4702 Practical Experience/ENGG 5217 Industry Experience.

Applicants will be selected on the basis of academic merit, demonstrated knowledge and interest in the research project topics.

The project duration is 10 weeks and must be undertaken between 8 December 2014 and 28th February 2015.

Payments will be made in two instalments with the 1st instalment being paid on commencement and the final payment being made two weeks before project completion.

Applicants must complete an online application and indicate two project preferences by the closing date.
