The Australian Stuttering Research Centre at the University of Sydney would like to invite you to participate in a clinical study.

We have developed an internet-based Cognitive Behaviour Therapy program which addresses the social anxiety associated with stuttering.

If you are an adult who stutters or know an adult who stutters, and would like more information, please contact the Australian Stuttering Research Centre on (02) 9351 9061 or asrc@sydney.edu.au
