PARTICIPANTS WANTED!

STUDY ON THERAPY FOR MUSCLE TENSION VOICE DISORDERS

We are conducting a research study to observe what Speech Pathologists do in voice therapy when treating people with Muscle Tension Voice Disorders.

We are wanting to video record therapy session(s) of you and your Speech Pathologist. We also want to interview your Speech Pathologist about your therapy session(s)

WHO CAN PARTICIPATE

If you are fluent at English and have been diagnosed with a voice disorder because of muscle tension, we are looking for people like you!

FOR MORE INFORMATION

Please read the Participation Information Statement or contact the researchers of the study using the contact details shown below.

IF I WANT TO PARTICIPATE:
