Belong@FHS aims to support students during their transition to University life and create an inclusive community based on values of tolerance, honesty, respect, and ethical behavior. This document will address the program’s expectations of participating mentees.

In general, mentees are expected to:

- Always treat others as you would expect to be treated. Always be aware, acknowledging and tolerating of potentially individual and cultural differences. Be sensitive and attentive towards others (e.g., other mentees or mentor).
- Please carefully consider your personal responsibility and accountability in the program. As a mentee in Belong@FHS, you are responsible for checking and responding to emails and communications from both Belong@FHS and your mentor. If participating in the program, you are expected to attend and adhere to the mentor and mentoring group arrangements made for you.
- Please carefully consider your personal behaviours, interactions and communications with others (e.g., mentees and mentor). For instance, the accessing and use of phones during meetings and other distractive behaviours should not occur.
- Use the appropriate and recommended methods of communicate with mentors, fellow mentees, and Belong@FHS coordinators.

During the program, mentees are expected to:

- Attend all weekly meetings/events for the duration of the program. Meetings are usually held on Tuesday’s 12-1pm (Semester 1 - Week 1-6 in 2017).
- Provide early notice to mentors if you are unable to attend a meeting. A minimum of 24 hours’ notice is recommended.
- Provide notice to mentors if you do not wish to continue with program participation.
- Complete the evaluation and feedback survey which will be distributed toward the end of the program.

Please remember, the Belong@FHS program aims to make your transition into University life easier, and create opportunities for socialising and networking. We have a dedicated team of mentors, super mentors, and program coordinators to support you in this journey. In return - and to obtain the most out of your start to University - we should be able to expect open communication and active participation from mentees throughout the program. This way Belong@FHS is helpful and beneficial for everyone (including you)!
