GLOBAL ENERGY & RESOURCES LAW
28-30 SEPTEMBER & 1 OCTOBER 2010
PROFESSOR ROSEMARY LYSTER & PROFESSOR GILLIAN TRIGGS, SYDNEY LAW SCHOOL

OBJECTIVES

• Provide perspectives on global energy security, international access to energy resources and the resolution of cross-jurisdictional energy access disputes.
• Examine with more conventional aspects of Energy and Resources.

CONTENT

• Global energy security, international access to energy resources and the resolution of cross-jurisdictional energy access disputes.
• Conventional aspects of Energy and Resources Law such as: Land Law including Native Title; energy resources and approvals
• Dealings and registrations
• Environmental Protection Law
• Financial aspects such as project finance, energy trading and taxation.
• The reform of the energy market in Australia and its implications for Competition Law, Third Party Access and Trade Practices, as well as the interface between energy resources and global climate change, will be canvassed.

TIMETABLE

Semester 2 Intensive
28-30 September & 1 October 2010

The unit will be taught by a team of experts including members of Sydney Law School, such as Professor Gillian Triggs and Professor Rosemary Lyster, and members of the profession.

Each year, on the evening before the commencement of class the annual 'KevinMcCarrn Global Energy and Resources Law Lecture' will be delivered, to which all students will be invited. In 2010, the inaugural lecture will be delivered by Mr Zwicky Switkowski on the topic of ‘Nuclear Energy in the Context of Global Energy Security’.

ASSESSMENT

1 x 8000 Word Essay (100%)
