- marketing executive
- project manager
- small business owner
- stock trader.

Where law can take you

Studying law can lead to a diverse collection of careers in fields that include:
- legal practice in many specialist fields
- criminal defence
- prosecution
- legal aid
- international NGOs
- government service
- media and entertainment
- corporate advisory
- investment banking
- management consulting.
Rethinking technology innovation in companies

Dr Eric Knight
Bachelor of Arts, Bachelor of Laws, PhD
Senior Lecturer in Innovation and Management, the University of Sydney Business School

Dr Eric Knight undertook his undergraduate study at the University of Sydney, completing a Bachelor of Arts and a Bachelor of Laws, and his DPhil at the University of Oxford as a Rhodes Scholar. He is now Senior Lecturer in Innovation and Management at the University of Sydney Business School, and is a Visiting Research Fellow at the University of Oxford.

Eric’s PhD thesis focused on novel ways in which financial markets were being used to stimulate investment in clean energy technologies. However, during his time at Oxford, he did not limit himself to academic challenges. He also swam in a relay team across the English Channel with three other Australian students to raise money for children’s medical research.

Before joining the University of Sydney Business School, Eric worked for several years at the Boston Consulting Group.

His research continues to focus on corporate innovation, and how leadership practices and processes enable new technology to emerge inside well-established companies. He frequently speaks on these topics at forums such as the Sydney Festival of Dangerous Ideas, and TEDx, has served as a consultant adviser to the OECD and the World Bank, and is a company director. He is the author of numerous books, including Reframe, which examines how cognitive biases feature in how we tackle strategy and innovation for wicked problems, and he received the University of Sydney Alumni Award for Young Alumni Achievement.

Why study with us?

Law School: excellence in legal education

Our commitment to excellence in legal education illustrates itself in many broad and diverse ways, starting at the undergraduate level. The University of Sydney Law School’s Bachelor of Laws (LLB) degree imparts an unmatched tertiary experience.

International in focus and global in perspective, the LLB is the only Australian law degree, and one of the few in the world, that requires you to complete two subjects in international law. Its expansive elective program allows you to undertake specialised study in international human rights, public and private international law, and foreign law, as well as in specialist areas including Environmental Law and Health Law.

When you join us, you will receive a legal education that prepares you for the challenges of the modern legal world. You will also have the opportunity to study law in combination with some of the University’s most comprehensive and challenging degrees, as part of our Combined Law program.

There has never been a greater demand for legal advice and innovative approaches to problem solving. Studying law at the University of Sydney will equip you with the ability to think originally, creatively and logically, and prepare you to move with confidence across national boundaries.

– sydney.edu.au/law
Combined degrees

Our combined degree programs give you the opportunity to explore your interests and can help you to tailor your studies to suit a career in a specialised industry. You may choose a combined Bachelor of Commerce/Bachelor of Laws, or to study business or law alongside another degree, including Arts, Science, Engineering, Information Technology and Medicine.

The combined degree program opens doors to an even wider scope of career possibilities in growing sectors of industry, such as project management, sustainability, agribusiness, and international business or law.

A full list of combined degree options is available in our courses table on pages 21 - 23.

Business School: a 360 degree view

Undergraduate study at the University of Sydney Business School is more dynamic and industry-engaged than ever before. Our courses focus on real-world business, immersed in contemporary business practice through international and domestic internship and placement programs, as well as project-based learning.

This comprehensive approach to learning offers Business School students a complete 360 degree view of the world, enabling you to launch your career with confidence.

Our Bachelor of Commerce degree is designed to give you the best possible start to your business career, offering a wide variety of subject options to help you target your learning.

The Bachelor of Commerce (Liberal Studies) is a highly flexible program that allows you to combine the solid foundation of the commerce degree with other areas of study, such as the arts and sciences.

Whatever your passion, our degree programs are designed to help you achieve your career goals. You will progressively develop the knowledge and skills to transition from school to university, and into the world of business with confidence.

Our teachers and researchers

Reputation for excellence

When you join the University of Sydney, you will be taught by outstanding academics who are leaders in their fields and respected both in Australia and internationally. Strategic and practical, our programs are designed to ensure you have the knowledge to create and deliver solutions that have real-world impact.

Number 13 in the world

Our degree programs consistently rank among the best in the world. In 2014, the QS World University Rankings placed the Business School’s accounting and finance subject areas at number 13 in the world, and the Sydney Law School was ranked number 13 overall.

Making a global difference

Internationally recognised as a leading expert on human rights, international crime and counterterrorism law, Professor Ben Saul draws motivation from a desire to have an impact on the world through the matrix of international law.

A barrister who conducts his practice across international boundaries, as well as an adviser to government and international organisations, Professor Saul’s research focuses on the key questions within his field.

For instance, when is it appropriate to use military force against terrorists? When is it appropriate to invade another country to prevent terrorism?

Professor Saul has taught law at Oxford, the Hague Academy of International Law and in China, India, Nepal and Cambodia, and has been a visiting professor at Harvard Law School.
Fighting for women’s rights

Professor Marian Baird is one of Australia’s leading researchers in the field of women, work and family. Widely published both in Australia and internationally, she is particularly highly regarded for her work on the promotion of women’s rights in the workplace and women’s leadership.

Professor Baird is the Director of the Women and Work Research Group at the University of Sydney Business School. Through her research and her engagement with government and business, she has made many valuable contributions to key policy areas, including maternity and parental leave, gender equitable organisational change, and workplace flexibility.

In 2013 she was named among the Australian Financial Review’s 100 Women of Influence and was voted the most influential woman in the public policy category.

Professional accreditation, affiliations and recognition

Connecting you to the world
The University of Sydney Business School is a world-class business school at the forefront of global business and management education. Relevant and focused on today’s business world, we are the only Australian business school to achieve membership to CEMS – the Global Alliance in Management Education – in addition to international accreditation from AACSB and EQUIS.

Many of our programs are also professionally accredited, complementing and underpinning the global recognition and respect of a Business School qualification.

Your pathway to practising law
Completion of the Bachelor of Laws (LLB) at the University of Sydney will lead you to admission to practise law in New South Wales.

Additional requirements need to be met before a Law graduate can practise as a lawyer in New South Wales. Please contact the Legal Profession Admission Board of New South Wales for information on these requirements (www.lpab.justice.nsw.gov.au).

For more information, including guidance about practising law in other states or overseas, visit:

Careers Services

Students who engage early with career exploration and professional skill development, and who build industry connections are best equipped to make their mark in today’s complex and changing professional world.

Our team of dedicated business career experts at the Business School’s Careers and Employability Office offers a specialised careers and employability service for every student across all of our Business degree programs. Our career support includes strong linkages into industry and our corporate partners are featured in as many of our events and services as possible.

- sydney.edu.au/business/careers

Peer mentoring

To help you settle in to university life, our Peer Mentoring Program enables you to build social and academic networks through a range of academic and social events with the support of a mentor. Your mentor is a senior student who will work with you and a small group of first-year students to welcome you and help you feel connected.

“The University of Sydney is a friendly and supportive environment in which to realise your potential. Inspiring teachers and motivated peers offer rewarding challenges to help you not only develop into a distinct individual, but also equip you with critical and analytical skills for tackling complex legal issues.”

Salina Cho
Bachelor of Arts/Bachelor of Laws

“I’ve been able to have a truly fulfilling experience because of the variety of extra-curricular activities that I’ve engaged in, including: undertaking a social entrepreneurship project in India, teaching English in Hungary, completing professional internships, and doing a summer study abroad program in the United States; as well as being involved in student clubs and societies. Without each one of these experiences, I would not have been able to see how real and tangible my impact can be on the lives of others. It has also shaped my idea of the kind of responsible leader that I want to be in the future.”

Christine Ma
Bachelor of Commerce (Majors: Marketing and International Business)
“Mooting competitions allow students to practise presenting legal arguments in a mock court. I was part of the team that won the national rounds of the Philip C Jessup International Law Moot Court competition, the largest of its kind in the world. We also represented Sydney Law School at the international rounds in Washington against universities from more than 80 countries.”

Jackson Wherrett
Bachelor of Arts (Media and Communications)/Bachelor of Laws

“T’ve been fortunate to sample a lot of the experiences that the University has to offer. I’ve lived on campus, participated in the University ski trip, enrolled in an honours degree and joined a couple of societies. Additionally, the Business School’s careers services team has been extremely helpful in offering advice on career direction and opportunities to develop my professional experience. I was recommended to enrol in the society – 180 Degrees Consulting – where I worked in a team to improve the business model of a charitable organisation. The hands-on experience is something you can’t really find in a classroom.”

Alex Bain
Bachelor of Commerce
(Majors: Finance and Economics)

Global opportunities

Study exchange
Broaden your academic horizons and enrich your experience by taking part in an extensive range of student exchange programs with leading universities around the world.

You can complete a semester overseas and receive credit for this study towards your degree. Choose from a faculty-specific or a university-wide exchange for a rewarding opportunity that will add an international dimension to your degree, challenge you academically, help you develop new skills, and enhance your personal growth and self-confidence.

The Sydney Law School also offers short-term offshore programs, providing opportunities for study in Germany, the United Kingdom, Japan, China, Indonesia, Malaysia and Nepal.

Pathways to Oxford and Cambridge
The University of Sydney Law School offers you the opportunity to take advantage of a unique collaboration with the faculties of law at the University of Oxford and the University of Cambridge – the United Kingdom’s leading law schools.

Open to students in their final year, the pathway programs allow high-achieving students to receive a Bachelor of Laws (LLB) from the University of Sydney as well as an Oxford Bachelor of Civil Law (BCL) or Master of Law and Finance (MLF), or a Cambridge Master of Law (LLM) or Master of Corporate Law (MCL).

Instead of completing the final semester of the Bachelor of Laws (LLB) in Sydney, students are offered early admission into the pathway program to begin their studies in the UK in late September. Under these agreements, the time taken to complete both awards will be reduced by one semester.

For more information visit
- sydney.edu.au/law/fstudent/undergrad/international_pathways.shtml
“My experience in the Industry Placement Program was rewarding and eye opening. Working on real projects reinforced what I have been learning in the classroom, and provided invaluable insight into the auditing industry. The unit assignments alongside the placement challenged me to constantly reflect on the experience. At the end of the program, I was fortunate to be offered an extension for an additional two weeks’ work experience.”

Harry Hu
International student
Bachelor of Commerce
Industry Placement: EY Shanghai

Giving you real-world experience

We believe that a business degree should include genuine experience of today’s business world. We offer students who are enrolled in a Business School degree an opportunity to work for a leading firm as part of their degree, through our Industry Placement Program (IPP).

Credited towards a Business School degree, IPP offers a work placement for a minimum of three days per week for 10 weeks during semester or an equivalent number of hours over the summer vacation programs.

You can study and work locally, regionally, or internationally in the United States, Asia and Europe.

World-class facilities

**Magnificent seven levels for law**

Our flagship New Law Building represents a new era for teaching and research in law. Over seven levels, it offers the highest quality teaching, learning and research facilities for students and staff, incorporating collaborative spaces, meeting and conference rooms, as well as the Herbert Smith Freehills Law Library, one of the finest law libraries in the southern hemisphere.

The New Law Building offers a spacious forecourt located in a prime position on the University’s main campus, and is a short walk from the iconic main Quadrangle.

The state-of-the-art Landerer Moot Court facility within the New Law Building includes many of the features of a modern-day courtroom, complete with versatile video conferencing and an elaborate audiovisual set up. It gives you a contextual and real-world experience during your studies.
Enjoy the Business School’s new headquarters

The Business School is upgrading its teaching and learning headquarters with the Abercrombie Precinct, which consolidates facilities from nine buildings into a state-of-the-art hub and represents a significant milestone in the Business School’s growth.

Our new facility will offer a vast, high-quality teaching and learning space. We have devoted two-thirds of the new floor space to rooms that allow you to tap into the latest technology, and will help inspire you to realise your potential.

These spaces will include nearly three dozen new case study, seminar and tutorial rooms and 12 new lecture theatres. We have allocated space for a major learning hub and other accessible learning spaces, along with a high-quality café.

We are excited to welcome you to our new building in 2016.
Our people
Where will your journey take you?

Studying with us makes the remarkable possible. Meet some of our students who are using their University of Sydney studies and their experiences outside the classroom to lay the foundation for successful careers in business and law.

University networks
inspiring success

Nina Khoury
Bachelor of Commerce
(Major: Marketing)/Bachelor of Laws

“The greatest influences on my career motivations and aspirations have come from people I have met through the University of Sydney. I am constantly surrounded by a diverse group of inspiring and successful people. My friends and networks range from legal professionals to world-famous bloggers, former super rugby captains, professional surfers and current CEOs. My experiences in and out of the classroom have allowed me to thrive and have ultimately shaped my university experience.”

Activities:
− NOW (Network of Women), President
− Sydney Uni Sport & Fitness Elite Athlete Program
− Commercial, Regulatory and Legal Affairs Intern
− University Student Ambassador.

Scholarships:
− Business School Scholarship: Excellence in Extracurricular Endeavour (2011-14)
− Canon Honours Scholarship (Marketing) (2014)
− Vice Chancellor’s Scholarship (2013)
− Mollie Dive Perpetual Scholarship (Elite Athlete Program Scholarship) 2011-12; 2014.
Why did you choose the University of Sydney?

The University of Sydney offered me the perfect balance. I was able to pursue my academic and sporting goals simultaneously.

When I left school, I wasn’t sure what industry I was passionate about, but I knew commerce/law would open many doors in the corporate and legal sectors, leading to a vast array of career possibilities.

How have you balanced sport and study?

My first three years as a Sydney student involved balancing NSWIS hockey while completing my degree full time. Although extremely busy, I learnt how best to manage and use my time.

Playing hockey for the University – in addition to state and national teams – has helped me to develop skills that I hope to one day translate to my career. Through sport, I have learnt the meaning of hard work, perseverance, teamwork and leadership.

What was one of your most memorable units or class projects?

In my second year I won return flights to Europe in a marketing unit: Consumer Behaviour. Our major assignment was to design and present a marketable campaign for Cathay Pacific, targeting 18-24 year olds. My group defeated more than 70 other groups to win the flights and top the course!

I also thoroughly enjoyed completing Honours in Commerce, where two fantastic supervisors helped me to achieve first-class results. My honours research combined my two passions: business and sport, exploring how elite athletes can best use personal branding to build a corporate career. I was able to interview former and current Olympians, former captains of the Wallabies and former captains of Australian and state sporting teams.

What’s your advice for first year students?

Get involved in everything you can: whether its inter-faculty sport or joining a society, you never know who you might meet or what career opportunities might arise!
Enjoying unlimited opportunities to shine

Charles Rees
Bachelor of Commerce (Liberal Studies)
Majors: Finance and Psychology

“I chose the University of Sydney primarily for its prestigious ranking as one of Australia’s top universities. However, the atmosphere on campus, including historic sandstone buildings and incredible facilities, as well as the limitless opportunities available to students, also made it the ideal choice.

I’ve always loved business. I’m attracted to the challenges involved in a highly competitive work environment. University is not only a place to gain skills for your career, but also to expand your mind and explore new things. For this reason, I have also taken on Psychology as a major, as it both fascinates me and offers the chance to develop my character and learn skills that can be used in any workplace.

Life during the semester for me usually involves getting to campus just after a morning run, and grabbing coffee at one of the local cafes before class.

The University of Sydney is a beautiful place, so I tend to go to the library before class or meet up with friends. Classes are taught in a way that encourages participation, discussions and group work. The focus on hands-on learning produces highly necessary skills for the workplace, while also providing a great way to make friends and meet new people.

The opportunities available to students outside the classroom are limitless. So far I have had the opportunity to undertake an exchange program at the Boston University School of Management, and I am currently working with some friends on an information-sharing app through the Sydney Genesis start-up program. I am also going to be attending Summer School at Yale University and intend on completing an Industry Placement Program (IPP) upon my return to Sydney.

The Business School is truly a place that fosters intelligence and free thinking. I will finish my study with not only a world-renowned degree, but also the skills and experiences that will ensure a strong start to my career.”
Protecting the disadvantaged

May Samali
Bachelor of Economic and Social Sciences (2008) Bachelor of Laws (2010)

“I completed the Social Justice Program and was one of three inaugural recipients of the David Burnett Memorial Scholarship in Social Justice.

The Social Justice Program and David Burnett Memorial Scholarship facilitated the further development of my practical legal skills. It reignited my passion for social justice and my desire to stand up for the rights of some of the most disadvantaged members of our community.

The David Burnett Memorial Scholarship also enabled me to take advantage of volunteer and extra-curricular opportunities while continuing my full-time studies abroad. I completed the final semester of my law degree on exchange at the New York University Law School. On exchange, I served as Editor-in-Chief of international affairs publication, The Sydney Globalist. The scholarship also made it possible for me to attend the inaugural Global21 North American Regional Conference at Yale University in New Haven, Connecticut.

Since then, I am continuing to build on the insights and experiences I gained through the Social Justice Program and David Burnett Memorial Scholarship. I am currently studying a Master in Public Policy at the Harvard Kennedy School of Government, which will equip me with the knowledge and skills to be a more effective contributor to Australian society.

I want to dedicate my life to building a more just, productive and inclusive Australia for all Australians.”

Getting involved in social justice

The Social Justice Program at the University of Sydney Law School gives you the chance to apply your classroom knowledge to real-world cases and develop your skills in areas such as research, case writing and client interviewing. You will also gain experience through partnerships with community legal centres and other organisations offering legal advice and representation to special interest groups.

As part of the Social Justice Program, you will also experience first hand the impact of a pro bono service (performed without charge for clients who cannot afford to pay) on the wider community. Several established community legal organisations and law firms, with an excellent track record in providing much-needed professional legal services to the community, have entered into partnerships with the Law School’s Social Justice Program, including:

- The Environmental Defender’s Office (EDO)
- Public Interest Advocacy Centre (PIAC)
- Justice Connect
- Refugee Advice and Casework Service (RACS).
Our people
Alumni community

Studying at the University of Sydney will give you access to our unparalleled learning community, and will provide you with a passport into a worldwide network of high-achieving and successful alumni.

Our strong alumni links are reflected by their presence in many professions in Australia and overseas, and in their engagement with the University and on the global stage.

When you graduate, you’ll join an outstanding community of more than 50,000 worldwide alumni.

Boost your network

The Business Alumni Network (BAN) is a recently established alumni and friends network based at the Business School.

All our alumni are automatically members of the network, and alumni from other faculties and friends are welcome to opt in as members.

By joining this community, you will increase your business network and receive regular invitations to Business School alumni events, in Australia and internationally. We will also send you regular publications and e-communications to help you stay in touch with market intelligence and trends, as well as the latest news and research from the Business School and our wider community.
Changing lives in emerging countries

Annabelle Chauncy
Bachelor of Arts (2007), Bachelor of Laws (2010)
Lawyer and charity founder

A country girl who grew up on a sheep and cattle farm in Canyonleigh in the Southern Highlands of NSW, Annabelle Chauncy attended small primary and secondary schools before moving to Sydney to study Arts/Law at the University of Sydney.

With fellow BA classmate, Dave Everett, she made the decision to invest her legal knowledge in the non-profit sector and specifically the School for Life Foundation. It aims to make a transformational difference to the communities of emerging countries through providing access to a quality education.

The Foundation’s mission is to provide quality education in emerging countries to create sustainable, productive and profitable communities.

Starting in Katuuso, Uganda, the Foundation focuses on children and adults who have been denied an education.

Annabelle currently manages the Australian operations of the School for Life Foundation. Her role includes management of fundraising and sponsorship, marketing, media and events.

She has been a finalist in the NSW Telstra Business Women’s Awards, in the Young Leader and Business Innovation categories, and was recognised by her Rotary club as a Paul Harris Fellow.

Annabelle was also awarded a Medal of the Order of Australia in recognition of her achievements.
Now that you’ve seen where you can go in the areas of business and law, you can think about choosing a course to start you on your journey. The tables below list the courses we offer, and include a brief description. You can find more detail about our courses online at sydney.edu.au/courses.

If you are a domestic student and have any questions, please call our helpline on 1800 SYD UNI (1800 793 864) or visit sydney.edu.au/ask-domestic. International students can call us on +61 2 8627 1444 or visit sydney.edu.au/ask-international.

<tbody>
<tr>
<td>B Arts (Media and Communications)/B Laws</td>
<td>This six-year combined degree is an excellent foundation for a legal career or a career in media. You will spend the first three years studying a combination of subjects from the arts and law faculties. You will have the same flexibility to shape your media and communications studies as would be available in a single degree, but combined with foundation units in law. Year four focuses on media and communications, including an internship. You then spend years five and six completing the Bachelor of Laws at Sydney Law School.</td>
</tr>
<tr>
<td>B Arts/B Economics</td>
<td>The new Bachelor of Arts/Bachelor of Economics degree will offer students high quality, professional training in Economics as well as the flexibility of a Bachelor of Arts degree, with the largest range of humanities and social sciences majors in Australia.</td>
</tr>
<tr>
<td>B Arts/B Laws</td>
<td>This five-year combined degree is an excellent foundation for a legal career. You will spend the first three years studying a combination of subjects from the arts and law faculties. You will have the same flexibility to shape your arts and social sciences units as would be available in a single degree, but combined with foundation units in law. Years four and five are then spent completing the Bachelor of Laws at Sydney Law School.</td>
</tr>
<tr>
<td>B Commerce</td>
<td>The Bachelor of Commerce is a three-year program consisting of six core units of study, including a new capstone unit in the final year of the degree. These units have been designed to develop your knowledge and skills to help you transition from school to university and then to the world of business with ease.</td>
</tr>
<tr>
<td>B Commerce (Liberal Studies)</td>
<td>The Bachelor of Commerce (Liberal Studies) is a four-year program offering breadth and flexibility. The program enables you to choose up to three majors that appeal to your interests from outside of the usual suite of business courses, including languages, humanities and sciences.</td>
</tr>
<tr>
<td>B Commerce/B Arts</td>
<td>This stimulating and challenging combination of commerce, humanities and social sciences will prepare you for managerial and specialist roles in business or the public sector. Many organisations have international affiliations and business operations, so students often choose to combine their studies in commerce with a language – an invaluable asset in gaining international employment.</td>
</tr>
<tr>
<td>B Commerce/B Laws</td>
<td>This combined degree program allows you to integrate your studies in both commerce and law, providing you with excellent career prospects in both fields. You will be able to choose a career as a legal practitioner, or in business and management, banking and finance or accounting, where a law degree is regarded as a desirable qualification.</td>
</tr>
<tr>
<td>B Commerce/B Science</td>
<td>If you want to gain scientific skills as well as the management skills necessary to pursue an interesting career in the private or public sector, this combined degree will appeal. Many industries and organisations value both scientific and business skills, such as in the pharmaceutical industry and commercialisation of scientific innovations, and this degree will give you the edge in roles that require a sound understanding of both perspectives.</td>
</tr>
<tr>
<td>B Commerce/D Medicine†</td>
<td>This unique double degree allows you to study the management and conduct of business while gaining a professional qualification in medicine. Business skills are highly valued within the medical profession. Medical professionals in supervisory roles, such as hospital chief executives, require high-level management skills to coordinate staff, manage large budgets and make important administrative decisions successfully.</td>
</tr>
<tr>
<td>B Design in Architecture/B Laws</td>
<td>This five-year program, one of the few of its kind in Australia, prepares you for careers in both architecture and law. It will be ideal if your interests and aspirations span these two fields. There are a limited number of places available in this degree.</td>
</tr>
</tbody>
</table>

Please note that we use the abbreviation ‘B’ for ‘Bachelor of’ and ‘D’ for ‘Doctor of’ throughout these course tables.

</tr>
</thead>
<tbody>
<tr>
<td>B Economics</td>
<td>This three-year (full-time) degree is the leading undergraduate economics degree in Australia and has produced outstanding graduates including the current Governor of the Reserve Bank of Australia. The program will provide you with a comprehensive understanding of the overall context of business and government, and the high-level technical skills to analyse economic and social data and events. It will equip you with key capabilities to develop economic and social policy for those who want to work in fields such as financial markets, business, banking, and consulting in both the private and public sectors.</td>
</tr>
<tr>
<td>B Economics/B Laws</td>
<td>This five-year combined degree is an excellent foundation for a legal career. The first three years are spent studying a combination of subjects from the arts and law faculties. Students have the same flexibility to shape their economics as would be available in a single degree, but combined with foundation units in law. Years four and five are then spent completing the Bachelor of Laws at the Law School.</td>
</tr>
<tr>
<td>B Economics/ D Medicine†</td>
<td>The Faculty of Arts and Social Sciences and Sydney Medical School offer high-achieving school leavers the opportunity to pursue management and conduct of business studies through the Bachelor of Economics followed by the University’s prestigious four-year Doctor of Medicine (MD).</td>
</tr>
<tr>
<td>B Engineering Honours/ B Commerce</td>
<td>You can combine any of the Bachelor of Engineering Honours streams with a Bachelor of Commerce. In addition to your engineering stream, this program allows you to complete one major and one minor in any area of commerce. Some units of study are compulsory, including introductory commerce units in accounting, economics and econometrics.</td>
</tr>
<tr>
<td>B Engineering Honours/B Laws</td>
<td>This six-year combined degree is an excellent foundation for a career in Law or Engineering. The first three years are spent studying a combination of subjects from the engineering and law faculties. Students have the same flexibility to shape their engineering studies as would be available in a single degree, but combined with foundation units in law. Year four focuses on engineering, including professional experience. Years five and six are then spent completing the Bachelor of Laws at the Law School.</td>
</tr>
<tr>
<td>B Engineering Honours/ B Project Management</td>
<td>This combined degree provides you with a solid foundation and complementary skills in engineering and project management. Designed in consultation with industry, graduates of this combined degree will be highly sought after due to their ability to understand and grasp the various aspects of project management more quickly than they would with ‘on the job’ training. You can combine any of the Bachelor of Engineering Honours streams with a Bachelor of Project Management</td>
</tr>
<tr>
<td>B Food and Agribusiness</td>
<td>You will learn about the business and science aspects of supplying affordable, nutritious food to an ever-growing global population. This four-year program includes an embedded honours year and industry placement internship. This is a booming area and, as a recent Deloitte report stated, there are now vastly more agribusiness jobs than qualified graduates.</td>
</tr>
<tr>
<td>B Information Technology/ B Commerce</td>
<td>This combined degree program extends the management component of the Bachelor of IT to satisfy the increasing demand for IT professionals with business skills. You can combine either of the IT majors with a Bachelor of Commerce. In addition to your IT specialisation, this program allows you to complete one major and one minor in any area of commerce. Some units of study are compulsory, including introductory commerce units in accounting, economics and econometrics.</td>
</tr>
<tr>
<td>B Information Technology/ B Laws</td>
<td>This six-year combined degree is an excellent foundation for a career in Law or IT. The first three years are spent studying a combination of subjects from the engineering and law faculties. You will have the same flexibility to shape their IT studies as would be available in a single degree, but combined with foundation units in law. Year four focuses on IT. Years five and six are then spent completing the Bachelor of Laws at the Law School.</td>
</tr>
<tr>
<td>B International and Global Studies</td>
<td>Our Bachelor of International and Global Studies degree centres on the study of the underlying processes driving this phenomenon, including travel, communication technology, political and economic currents, and globalising markets, and they way these processes constantly evolve and interrelate. As the degree aims to develop skills relevant to international and intercultural contexts you will also be required to undertake language study from a diverse range offered by the Faculty of Arts and Social Sciences. You’ll also gain a first-hand appreciation of the degree’s core concerns through embarking on a semester of international exchange at a partner university, preferably in a country speaking your chosen language. This semester of exchange is a required component of the degree.</td>

<td><strong>B International and Global Studies/B Laws</strong></td>
<td>This five-year combined degree is an excellent foundation for a legal career. The first three years are spent studying a combination of subjects from the arts and law faculties. You will have the same flexibility to shape your international and global studies as would be available in a single degree, but combined with foundation units in law. Years four and five are then spent completing the Bachelor of Laws at Sydney Law School.</td>
</tr>
<tr>
<td>5 years full time</td>
<td></td>
</tr>
<tr>
<td><strong>B Political, Economic and Social Sciences</strong></td>
<td>The Bachelor of Political, Economic and Social Sciences degree gives you the chance to gain intimate knowledge of these core economic, political and social issues, and attain a working understanding of the environments in which they operate. This degree combines in-depth inquiry with an interdisciplinary approach to give students a broad appreciation of the major political, economic and social issues and policies of our time. Such a nuanced understanding of these areas is critical for success in a number of professional fields spanning the world of public affairs, government and the corporate sector.</td>
</tr>
<tr>
<td>3 years full time / 6 years part time</td>
<td></td>
</tr>
<tr>
<td><strong>B Project Management</strong></td>
<td>This program provides the fundamental project management skills, theories and methods required in today’s complex business environment. Subjects include project finance, statistics, analytics, risk management, organisational behaviour and psychology. Students choose a stream of civil engineering science, built environment or software. With project managers in high demand, graduates will be highly sought after.</td>
</tr>
<tr>
<td>3 years full time</td>
<td></td>
</tr>
<tr>
<td><strong>B Science/B Laws</strong></td>
<td>The Science/Law combination allows you to select from up to 29 specialist majors in Science alongside Law. The Faculty of Science also offers you the opportunity to choose from either the Bachelor of Science or the advanced science degrees. You will spend the first three years studying a combination of subjects from the science and law faculties. Students have the same flexibility to shape their science studies as would be available in a single degree, but combined with foundation units in law. You then spend years four and five completing the Bachelor of Laws at Sydney Law School.</td>
</tr>
<tr>
<td>5 years full time</td>
<td></td>
</tr>
<tr>
<td><strong>B Science (Advanced)/B Laws</strong></td>
<td>The Science/Law combination allows you to select to complete the advanced degree with Law. You spend the first three years studying a combination of subjects from the science and law faculties. You have the same flexibility to shape their science studies as would be available in a single degree, but combined with foundation units in law. You then spend years four and five completing the Bachelor of Laws at Sydney Law School.</td>
</tr>
<tr>
<td>5 years full time</td>
<td></td>
</tr>
<tr>
<td><strong>B Science (Advanced Mathematics)/ B Laws</strong></td>
<td>The Science/Law combination allows you to choose to complete the advanced mathematics degree with Law. You spend the first three years studying a combination of subjects from the science and law faculties. You have the same flexibility to shape their science studies as would be available in a single degree, but combined with foundation units in law. You then spend years four and five completing the Bachelor of Laws at Sydney Law School.</td>
</tr>
<tr>

How to apply: domestic students

Step 1: Choose your course.
Step 2: Check the entry requirements of the course.
Step 3: Explore your entry options.
Step 4: Submit your application to UAC with the relevant documents.

Check the entry requirements
For most courses, entry is based on your ATAR (Australian Tertiary Admission Rank) or equivalent, but some degrees have additional entry requirements. Find out more at:
- sydney.edu.au/ug-entry

Explore your entry options
If you’re not sure you’ll reach the ATAR cutoff for your preferred course, find out if you’re eligible to apply for one of our alternative entry pathways at:
- sydney.edu.au/access

Submit your application
As a domestic student, you need to submit your application online through the Universities Admissions Centre website:
- www.uac.edu.au

On-time applications are due by 30 September 2015. A late fee applies to applications after this date.

Apply for scholarships
The University awards more than 500 scholarships to undergraduate students each year.

How to apply: international students

Step 1: Choose your course.
Step 2: Check the entry requirements of the course.
Step 3: Submit your application online with the relevant documents.

Check the entry requirements
Admission to the University of Sydney is highly competitive. Applicants need to satisfy certain academic and English language requirements to secure admission.

For full details, visit:
- sydney.edu.au/future-students/international/undergraduate

Submit your application
As an international student, you can apply to the University of Sydney in the following ways:
- direct to the University
  sydney.edu.au/ug-int-apply
- through a University agent (representative)
  sydney.edu.au/ug-int-agents

If you are an international student studying an Australia/New Zealand senior secondary or International Baccalaureate qualification, you can apply online through the Universities Admissions Centre International website:
- www.uac.edu.au/international

Application deadlines
These vary by course. Check the specific closing date for your course at:
- sydney.edu.au/courses

We strongly encourage international applicants to apply as early as possible to allow time for visa and travel arrangements. Separate scholarship deadlines may apply.
