

BOSCH MASS SPECTROMETRY FACILITY

UPLC-QQQ-MS WORKSHOP

21st & 22nd March, 2016

Rm 143, Medical Foundation Building (K25)

92-94 Parramatta Road

A course designed for beginners or intermediates to enhance skills in Agilent 6460 series Triple Quadrupole LC/MS use.

The course utilizes a lecture and lab format at the Bosch Mass Spectrometry Facility (BMSF).

Topics include general introduction for mass spectrometry, in focus of Triple quadrupole MS and its ionisation.

It also covers HPLC columns and maintenance, data acquisition, worklists, MassHunter Qualitative software and hardware maintenance.
