Professor Mark Birch-Machin
Professor of Molecular Dermatology,
Associate Dean of Business Development (Faculty of Medicine)
Dermatological Sciences, Institute of Cellular Medicine,
Newcastle University, United Kingdom

Title: Here comes the sun-stressed out mitochondria and implications for ageing and skin cancer

Date: Tuesday, 21 October 2014
Time: 3.00 – 4.00 pm
Venue: Room N248, Level 2,
Anderson Stuart Building (F13),
University of Sydney

Professor Mark Birch-Machin:
Prof. Birch-Machin has held appointments at the University of Oregon (USA), INSERM Paris, University of Toronto. He was Treasurer of the BSID and co-editor of Experimental Dermatology. Prof. Birch-Machin’s research focuses on the response of human skin to ultraviolet radiation particularly within the context of skin ageing and cancer and the involvement of mitochondria in this process. He is also a co-inventor on multiple patents arising from the commercialization of his research as well as co-founder of two spin out companies. He has been Chair of several international Scientific Advisory Boards, expert advisor for CRUK, CPTA, Clearcast, ASA, and is a member of the grants committee for the BSF and Editorial board for Experimental Dermatology. Prof. Birch-Machin is a regular National Press Spokesperson and his research and quotes on sun awareness have appeared on multiple UK, European and American TV, magazines and radio.
