Dear Dr Xx

Re: Field Test of Entry Standards for General Practice

I am writing to thank you for your participation in the field testing of our draft Entry Standards for General Practice.

Please find enclosed a confidential report from the surveyors on your practice visit. In reading the report it is important to bear in mind that both your practice visit and the enclosed report represent a trial of one possible method of practice assessment.

The feedback we receive from you and other practices involved in the field test will enable us to fully review and revise the Entry Standards and our method of assessment.

Accordingly, we would appreciate it if you would take the time to complete the enclosed questionnaire relating to your field test visit and the entry standards. This questionnaire is designed to give you the opportunity to comment on your experience with the field test and to provide us with feedback on the standards themselves.

On receipt of your completed questionnaire all doctors in your practice will be credited with 20 Practice Assessment QA&CE points.

If you have any questions about the questionnaire or any other aspect of the field test please do not hesitate to contact one of the project staff on (02) 818 4366.

Thank you once again for your valuable contribution to this project.

Yours sincerely

Dr Graeme Miller
Medical Director
