In memory of Yvonne Cossart
Sydney Medical School

Your gift will recognise Yvonne’s legacy.

Yvonne Cossart BSc (Med) Hons 1957 MB BS Hons 1959 DCP (Lond) MRC Path FRCPA

Yvonne Cossart’s contributions to the field of virology, in Australia as well as the United Kingdom, were significant. She discovered the ‘B19’ virus, known to be the cause of Fifth Disease in children as well as being a cause of aplastic anaemia, hydrops fetalis and acute arthritis. At the University of Sydney she led the Department of Infectious Diseases for over a decade and also held the prestigious Bosch Chair. She was involved in the development of the Faculty’s Graduate Medical Program, and supervised students at all levels. At the end of her career, Yvonne was made an Officer of the Order of Australia for service to medicine as a specialist in infectious diseases, especially in the areas of virological research, epidemiology and disease prevention, and to education.

Your gift to honor Yvonne’s memory and contributions will be directed towards the Dean’s Priorities Fund, with the exact purpose to be determined by the amount raised. Suggestions include commission of a piece of music to be played at faculty occasions or support of a medical scholarship.

“For many years Sydney Medical School was extremely fortunate to benefit from Professor Cossart’s dedication to research and education in virology. She will be missed.” - Bruce Robinson, Dean Sydney Medical School

“Yvonne so enjoyed listening to the carillon play whenever we were together on campus. I can’t think of a more fitting tribute for her.” - Catherine Storey, President of the Medical Alumni Association
