Sydney Medical School offers an exciting vocational degree in critical care. This flexible format course is designed for working doctors and health professionals interested in emergency medicine, intensive care or anaesthetics. The course will help you:

- stand out from your peers
- help meet College training requirements
- prepare for College examinations
- gain insight from leaders in your chosen field
- acquire knowledge and skills in clinical leadership and medical education
- establish a network of contacts with senior clinicians and your peers

The Master of Medicine (Critical Care) is unique in Australasia. It has been developed in response to requests from critical care specialists and trainees to increase educational opportunities in the specialties of emergency medicine, intensive care and anaesthetics.

This degree is designed and delivered by leading clinicians and academics from our teaching hospitals and the University. The flexible format combines units of study that can be undertaken fully online as well as those that include intensive face-to-face sessions. The degree is perfect for clinicians whose continuing education is limited by time and distance.

The degree is tailored to produce well-rounded and analytical clinicians. Stream specific units include the basic sciences that cover the curriculum of the Colleges, as well as Retrieval Medicine, Pain Management, and Clinical Communication and Decision Making. General electives include Best Practice in Healthcare Education and Leadership in Medicine.

This course provides the opportunity to improve clinical knowledge and practice in areas of interest, as well as develop expertise in other areas important to career advancement.

A great benefit of the course will be interacting with similar people at a similar stage in their career, sharing knowledge and skills in a supportive environment, as well as making key contacts with leading experts in critical care.

PROFESSIONAL MEDICAL EDUCATION
Take the next step in your career

sydney.edu.au/medicine
"Students will develop knowledge and skills to make them critical and independent thinkers, able to lead their specialty in clinical practice, quality research and education. More than just a small step in specialty training, graduates will have taken a giant leap in shaping their future and that of their specialty."

Course Coordinator Dr Rod Bishop MBBS MPH (Hons) FACEM
Dr Bishop is a specialist emergency physician. He has been the Director of Nepean Hospital Emergency Department for the last 15 years and is a previous director of Careflight Helicopter Service. As well as being clinically active, Rod is an experienced medical educator and researcher and has been appointed to several NSW Health Task Forces. He is a frequent speaker at national and international meetings.

Course Patron: Dr Peter Roberts
