Outcome Measures and Research
Methodologies

Applying clinical
practice guidelines

Professor Ian Cameron
&

Dr James Middleton
Monday, 3 December
4:00 - 6:00pm

Charles Blunt Conference Room,
Royal Rehabilitation Centre Sydney

Registration closes 5pm,
Thursday 29 November
Limited places

Speakers:

Professor Ian Cameron

MBBS PhD FAFRM (RACP)

Ian is involved in the development and implementation of clinical practice guidelines for a number of common health conditions. He works as a Rehabilitation Physician and has the Chair in Rehabilitation Medicine at the University of Sydney.

Dr James Middleton

MBBS GradDipAppSc (ExSpSc) PhD FAFRM (RACP)

James is an experienced clinician-researcher who works in the area of spinal cord injury and has been responsible developing various practice guidelines. He is director of state spinal cord injury service and part time academic in the rehabilitation studies unit

Who is this workshop intended for?

This workshop is intended for clinicians of all backgrounds, and health planners and administrators, who wish to gain an understanding of the scope of clinical guidelines and their application.

What is covered in this workshop?

The workshop will provide a background to evidence based clinical practice guidelines, including methods of assessing their quality. Participants will examine a clinical practice guideline of their choice and develop strategies to apply the guideline in a health service, or in clinical practice.

What are the pre-requisites for this workshop?

Participants should have a general understanding of the types of research studies that are relevant to treatments in Australian healthcare.

Participants should indicate their preference to assess and apply a clinical guideline in one of the following areas:

- ~ Spinal cord injury
- ~ Hip fracture
- ~ Stroke rehabilitation

**Registration closes 5pm,
Thursday 29 November
Limited places**
