Gate 3, Hospital Road
Concord.**

AV hook-up available- Please book via www.avit.med.usyd.edu.au

In the past 12 years since completing his PhD in Sydney, Professor Sinclair's research on sirtuins, aging and resveratrol has been acclaimed and published widely. His biotechnology company Sirtris that develops drugs for ageing and age-related diseases was recently acquired by Glaxo Smith Kline for \$750 million. In 2003, one of his papers was considered a "Discovery of the Year" by Discover magazine and in 2006, he was named one of Australia's brightest scientists under 45."
