

Publications for Antony Basten

2013

Berbic, M., Ng, C., Black, K., Markham, R., Russell, P., Basten, A., Fraser, I., Hey-Cunningham, A. (2013). A Novel Pilot Study of Endometrial Stromal Cells and Immune Cell Populations in Sentinel Uterine-Draining Lymph Nodes During the Menstrual Cycle and in Endometriosis. *Reproductive Sciences*, 20(11), 1339-1348. [More Information]

2012

Chan, T., Wood, K., Hermes, J., Butt, D., Jolly, C., Basten, A., Brink, R. (2012). Elimination of Germinal-Center-Derived Self-Reactive B Cells Is Governed by the Location and Concentration of Self-Antigen. *Immunity*, 37(5), 893-904. [More Information]

2010

Berbic, M., Hey Cunningham, A., Ng, C., Basten, A., Markham, R., Fraser, I. (2010). A novel approach into better understanding of the role of uterine leukocytes during the time of menstruation and in the presence of endometriosis. *XI International Congress of Reproductive Immunology*, Australia: Palm Cove.

Basten, A., Silveira, P. (2010). B-cell tolerance: mechanisms and implications. *Current Opinion in Immunology*, 22(5), 566-574. [More Information]

Cox, S., Stolp, J., Hallahan, N., Counette, J., Zhang, W., Serreze, D., Basten, A., Silveira, P. (2010). Enhanced responsiveness to T-cell help causes loss of B-lymphocyte tolerance to a b-cell neo-self-antigen in type 1 diabetes prone NOD mice. *European Journal of Immunology*, 40(12), 3413-3425. [More Information]

Lee, C., McGuire, H., Basten, A., King, C., Christ, D. (2010). Expression, purification and characterization of recombinant interleukin-21. *Journal of Immunological Methods*, 362(1-2), 185-189. [More Information]

2008

Basten, A., Fazekas de St Groth, B. (2008). Special regulatory T-cell review: T-cell dependent suppression revisited. *Immunology*, 123, 33-39. [More Information]

Gardam, S., Sierro, F., Basten, A., Mackay, F., Brink, R. (2008). TRAF2 and TRAF3 signal adapters act cooperatively to control the maturation and survival signals delivered to B cells by the BAFF receptor. *Immunity*, 28(3), 391-401. [More Information]

2007

Basten, A. (2007). The evolution of clinical immunology and allergy in Australia. *Immunology and Cell Biology*, 86(1). [More Information]

2006

Paus, D., Phan, T., Chan, T., Gardam, S., Basten, A., Brink, R. (2006). Antigen recognition strength regulates the choice between extrafollicular plasma cell and germinal center B cell differentiation. *The Journal of Experimental Medicine*, 203(4), 1081-1091. [More Information]

Phan, T., Paus, D., Chan, T., Turner, M., Nutt, S., Basten, A., Brink, R. (2006). High affinity germinal center B cells are actively selected into the plasma cell compartment. *The Journal of Experimental Medicine*, 203(11), 2419-2424. [More Information]

2005

Phan, T., Gardam, S., Basten, A., Brink, R. (2005). Altered migration, recruitment, and somatic hypermutation in the early response of marginal zone B cells to T cell-dependent antigen. *Journal of Immunology*, 174(8), 4567-4578. [More Information]

Ismail, N., Basten, A., Briscoe, H., Bretscher, P. (2005). Increasing the foreignness of an antigen, by coupling a second and foreign antigen to it, increases the T helper type 2 component of the immune response to the first antigen. *Immunology*, 115(1), 34-41. [More Information]

Grech, A., Gardam, S., Chan, T., Quinn, R., Gonzales, R., Basten, A., Brink, R. (2005). Tumor necrosis factor receptor 2 (TNFR2) signaling is negatively regulated by a novel, carboxyl-terminal TNFR-associated factor 2 (TRAF2)-binding site. *Journal of Biological Chemistry*, 280(36), 31572-81. [More Information]

Phan, T., Paus, D., Chan, T., Gardam, S., Amesbury, M., Crosbie, J., Basten, A., Brink, R. (2005). Visualising B Cell Responses to Protein Antigens of Varying Affinity in Vivo. *35th Annual Scientific Meeting of the Australasian Society for Immunology 2005*, Denmark: Blackwell Munksgaard.

2004

Thien, M., Phan, T., Gardam, S., Amesbury, M., Basten, A., Mackay, F., Brink, R. (2004). Excess BAFF Rescues Self-Reactive B Cells From Peripheral Deletion And Allows Them To Enter Forbidden Follicular And Marginal Zone Niches. *Immunity*, 20(6), 785-798. [More Information]

Grech, A., Amesbury, M., Chan, T., Gardam, S., Basten, A., Brink, R. (2004). Traf2 Differentially Regulates The Canonical

And Noncanonical Pathways Of Nf-Kappab Activation In Mature B Cells. *Immunity*, 21(5), 629-642. [More Information]

2003

Phan, T., Amesbury, M., Gardam, S., Crosbie, J., Hasbold, J., Hodgkin, P., Basten, A., Brink, R. (2003). B cell receptor-independent stimuli trigger immunoglobulin (Ig) class switch recombination and production of IgG autoantibodies by anergic self-reactive B cells. *The Journal of Experimental Medicine*, 197(7), 845-860. [More Information]

Sze, D., Brown, R., Yang, S., Gibson, J., Ho, P., Fazekas de St Groth, B., Basten, A., Joshua, D. (2003). Prediction of high affinity class I-restricted multiple myeloma idiotype peptide epitopes. *Leukemia and Lymphoma*, 44(9), 1557-1568. [More Information]

Cook, A., Oganessian, L., Harumal, P., Basten, A., Brink, R., Jolly, C. (2003). Reduced switching in SCID B cells is associated with altered somatic mutation of recombined S regions. *Journal of Immunology*, 171(2003), 6456-6464. [More Information]

2001

Sze, D., Giesajtis, G., Brown, R., Raitakari, M., Gibson, J., Ho, P., Baxter, A., Fazekas de St Groth, B., Basten, A., Joshua, D. (2001). Clonal cytotoxic T cells are expanded in myeloma and reside in the CD8+Cd57+CD28- compartment. *Blood*, 98(9), 2817-2827.

Ho, P., Basten, A., Gibson, J., Joshua, D., Brown, R., Pelka, G. (2001). Illegitimate switch recombinations are present in approximately half of primary myeloma tumors, but do not relate to known prognostic indicators or survival. *Blood*, 97, 490-495.

Basten, A., Cook, M., Korner, H., Winkler, T., Sedgwick, J., Rolliinghoff, M. (2001). Recirculating and marginal zone B cell populations can be established and maintained independently of primary and secondary follicles. *Immunology and Cell Biology*, 79, 54-61.
