

Publications for Carolyn Scott

2018

Scully, T., Scott, C., Firth, S., Sedger, L., Pintar, J., Twigg, S., Baxter, R. (2018). Enhancement of mammary tumor growth by IGFBP-3 involves impaired T cell accumulation. *Endocrine-Related Cancer*, 25(2), 111-122. [More Information]

2016

Scully, T., Firth, S., Scott, C., de Silva, H., Pintar, J., Chan-Ling, T., Twigg, S., Baxter, R. (2016). Insulin-like growth factor binding protein-3 links obesity and breast cancer progression. *Oncotarget*, 7(34), 55491-55505. [More Information]

2015

Marsh, D., Foster, K., Scott, C. (2015). Match that PhD. *Nature*, 523, 247-247. [More Information]

Scott, C., Kiess, W. (2015). Soluble M6P/IGFIIIR in the circulation. *Best Practice and Research: Clinical Endocrinology and Metabolism*, 29(5), 723-733. [More Information]

2014

Martin, J., de Silva, H., Lin, Z., Scott, C., Baxter, R. (2014). Inhibition of insulin-like growth factor binding protein-3 signaling through sphingosine kinase 1 sensitizes triple-negative breast cancer cells to EGF receptor blockade. *Molecular Cancer Therapeutics*, 13(2), 316-328. [More Information]

2013

Caixeiro, N., Martin, J., Scott, C. (2013). Silencing the mannose 6-phosphate/IGF-II receptor differentially affects tumorigenic properties of normal breast epithelial cells. *International Journal of Cancer*, 133(11), 2542-2550. [More Information]

2007

Amritraj, A., Hawkes, C., Phinney, A., Mount, H., Scott, C., Westaway, D., Kar, S. (2007). Altered levels and distribution of IGF-II/M6P receptor and lysosomal enzymes in mutant APP and APP+PS1 transgenic mouse brains. *Neurobiology of Aging*, 30(1), 54-70. [More Information]

2006

Heinzelmann-Schwarz, V., Gardiner-Garden, M., Henshall, S., Scurry, J., Scolyer, R., Smith, A., Bali, A., Vanden Bergh, P., Baron-Hay, S., Scott, C., et al (2006). A distinct molecular profile associated with mucinous epithelial ovarian cancer. *British Journal of Cancer*, 94(6), 904-913. [More Information]

Heinzelmann-Schwarz, V., Scolyer, R., Scurry, J., Smith, A., Gardiner-Garden, M., Biankin, A., Baron-Hay, S., Scott, C., Ward, R., Fink, D., et al (2006). Low meprin alpha expression differentiates primary ovarian mucinous carcinoma from gastrointestinal cancers that commonly metastasise to the ovaries. *Journal of Clinical Pathology*, 60(6), 622-626. [More Information]

2005

Petry, C., Ong, K., Wingate, D., Brown, J., Scott, C., Jones, Y., Pembrey, M., Dunger, D. (2005). Genetic variation in the type 2 insulin-like growth factor receptor gene and disparity in childhood height. *Growth Hormone and IGF Research*, 15(6), 363-368. [More Information]

2003

Lee, J., Weiss, J., Martin, J., Scott, C. (2003). Increased expression of the mannose 6-phosphate/insulin-like growth factor-II receptor in breast cancer cells alters tumorigenic properties in vitro and in vivo. *International Journal of Cancer*, 107(4), 564-570. [More Information]

2002

Cianfarani, S., Geremia, C., Scott, C., Germani, D. (2002). Growth, IGF System, and Cortisol in Children with Intrauterine Growth Retardation: Is Catch-up Growth Affected by Reprogramming of the Hypothalamic-Pituitary-Adrenal Axis? *Pediatric Research: international journal of human developmental biology*, 51(1), 94-99.

O'Gorman, D., Weiss, J., Firth, S., Hettiaratchi, A., Scott, C. (2002). Insulin-like Growth Factor-II/Mannose 6-Phosphate Receptor Overexpression Reduces Growth of Choriocarcinoma Cells in Vitro and in Vivo. *Endocrinology*, 143(11), 4287-4294. [More Information]

2001

Delhanty, P., Scott, C., Baxter, R., Babu, S. (2001). Acid-labile subunit regulation during the early stages of liver regeneration: implications for glucoregulation. *American Journal of Physiology - Endocrinology and Metabolism*, 280.

Scott, C., Cianfarani, S., Geremia, C., Germani, D. (2001). Growth, IGF system, and cortisol in children with intrauterine growth retardation: is catch-up growth affected by reprogramming of the hypothalamic-pituitary-adrenal axis? *Pediatric Research: international journal of human developmental biology*, 51, 94-99.
