

Publications for David Burke

2018

Makker, P., Matamala, J., Park, S., Lees, J., Kiernan, M., Burke, D., Moalem-Taylor, G., Howells, J. (2018). A unified model of the excitability of mouse sensory and motor axons. *Journal of the Peripheral Nervous System*, 23(3), 159-173. [More Information]

Matamala, J., Howells, J., Dharmadasa, T., Huynh, W., Park, S., Burke, D., Kiernan, M. (2018). Excitability of sensory axons in amyotrophic lateral sclerosis. *Clinical Neurophysiology*, 129(7), 1472-1478. [More Information]

Tomlinson, S., Howells, J., Burke, D. (2018). In vivo assessment of neurological channelopathies: Application of peripheral nerve excitability studies. *Neuropharmacology*, 132, 98-107. [More Information]

Howells, J., Matamala, J., Park, S., Garg, N., Vucic, S., Bostock, H., Burke, D., Kiernan, M. (2018). In vivo evidence for reduced ion channel expression in motor axons of patients with amyotrophic lateral sclerosis. *Journal of Physiology*, 596(22), 5379-5396. [More Information]

Matamala, J., Howells, J., Dharmadasa, T., Trinh, T., Ma, Y., Lera, L., Vucic, S., Burke, D., Kiernan, M. (2018). Inter-session reliability of short-interval intracortical inhibition measured by threshold tracking TMS. *Neuroscience Letters*, 674, 18-23. [More Information]

Sonoo, M., Menkes, D., Bland, J., Burke, D. (2018). Nerve conduction studies and EMG in carpal tunnel syndrome: Do they add value? *Clinical Neurophysiology Practice*, 3, 78-88. [More Information]

Burke, D., Halmagyi, G. (2018). Normal tendon reflexes despite absent sensory nerve action potentials in CANVAS: a neurophysiological study. *Journal of the Neurological Sciences*, 387, 75-79. [More Information]

Burke, D., Kiernan, M. (2018). Stimulus, response and excitability - What is new? *Clinical Neurophysiology*, 129(1), 333-334. [More Information]

Howells, J., Bostock, H., Park, S., Kiernan, M., Burke, D. (2018). Tracking small sensory nerve action potentials in human axonal excitability studies. *Journal of Neuroscience Methods*, 298, 45-53. [More Information]

2017

Burke, D. (2017). Clinical practice highlights in Clinical Neurophysiology in 2015 (July-December). *Clinical Neurophysiology Practice*, 2, 44-47. [More Information]

Burke, D. (2017). Motor control: spinal and cortical mechanisms. In Kerry R. Mills (Eds.), *Oxford Textbook of Clinical Neurophysiology*, (pp. 19-30). Oxford: Oxford University Press. [More Information]

van den Bos, M., Geevasinga, N., Menon, P., Burke, D., Kiernan, M., Vucic, S. (2017). Physiological processes influencing motor evoked potential duration with voluntary contraction. *Journal of Neurophysiology*, 117(3), 1156-1162. [More Information]

Burke, D., Howells, J., Kiernan, M. (2017). Sensory and motor axons are different: implications for neurological disease. *Annals of Clinical Neurophysiology*, 19(1), 3-12. [More Information]

Burke, D., Howells, J. (2017). The motor unit. In Kerry R. Mills (Eds.), *Oxford Textbook of Clinical Neurophysiology*, (pp. 9-17). Oxford: Oxford University Press. [More Information]

2016

Howells, J., Bostock, H., Burke, D. (2016). Accommodation to hyperpolarization of human axons assessed in the frequency domain. *Journal of Neurophysiology*, 116(2), 322-335. [More Information]

Burke, D. (2016). Clinical practice highlights in Clinical Neurophysiology in 2015 (April-June). *Clinical Neurophysiology Practice*, 1, 50-53. [More Information]

Burke, D. (2016). Clinical practice highlights in Clinical Neurophysiology in 2015 (January - March). *Clinical Neurophysiology Practice*, 1, 46-49. [More Information]

Burke, D. (2016). Clinical uses of H reflexes of upper and lower limb muscles. *Clinical Neurophysiology Practice*, 1, 9-17. [More Information]

Tomlinson, S., Tan, S., Burke, D., Labrum, R., Haworth, A., Gibbons, V., Sweeney, M., Griggs, R., Kullmann, D., Bostock, H., et al (2016). In vivo impact of presynaptic calcium channel dysfunction on motor axons in episodic ataxia type 2. *Brain*, 139(2), 380-391. [More Information]

Burke, D., Valls-Sole, J., Herman, S. (2016). The practice of clinical neurophysiology. *Clinical Neurophysiology Practice*, 1, 1-1.

2015

Hafner, J., Ghaoui, R., Coyle, L., Burke, D., Ng, K. (2015). Axonal excitability in primary amyloidotic neuropathy. *Muscle and Nerve*, 51(3), 443-445. [More Information]

Burke, D. (2015). Clinical Neurophysiology in an era of change. *Clinical Neurophysiology*, 126(12), 2247-2248. [More Information]

Simon, N., Lee, M., Bae, J., Mioshi, E., Lin, C., Pfluger, C., Henderson, R., Vucic, S., Swash, M., Burke, D., Kiernan, M. (2015). Dissociated lower limb muscle involvement in amyotrophic lateral sclerosis. *Journal of Neurology*, 262(6), 1424-1432. [More Information]

Czesnik, D., Howells, J., Negro, F., Wagenknecht, M., Hanner, S., Farina, D., Burke, D., Paulus, W. (2015). Increased HCN channel driven inward rectification in benign cramp fasciculation syndrome. *Brain*, 138(11), 3168-3179. [More Information]

Burke, D. (2015). Modelling and seizure prediction. *Clinical Neurophysiology*, 126(2), 426-427. [More Information]

Rossini, P., Burke, D., Chen, R., Cohen, L., Daskalakis, Z., Di Iorio, R., Di Lazzaro, V., Ferreri, F., Fitzgerald, P., George, M., et al (2015). Non-invasive electrical and magnetic stimulation of the brain, spinal cord, roots and peripheral nerves: Basic principles and procedures for routine clinical and research application. An updated report from an I.F.C.N. Committee. *Clinical Neurophysiology*, 126, 1071-1107. [More Information]

Simon, N., Lin, C., Lee, M., Howells, J., Vucic, S., Burke, D., Kiernan, M. (2015). Segmental motoneuronal dysfunction is a feature of amyotrophic lateral sclerosis. *Clinical Neurophysiology*, 126(4), 828-836. [More Information]

Vinti, M., Bayle, N., Hutin, E., Burke, D., Gracies, J. (2015). Stretch-sensitive paresis and effort perception in hemiparesis. *Journal of Neural Transmission*, 22(8), 1089-1097. [More Information]

2014

Liang, C., Howells, J., Kennerson, M., Nicholson, G., Burke, D., Ng, K. (2014). Axonal excitability in X-linked dominant Charcot Marie Tooth disease. *Clinical Neurophysiology*, 125(6), 1261-1269. [More Information]

Burke, D. (2014). Fusimotor System. *Reference Module in Biomedical Sciences*, (pp. 1-7). United States: Elsevier.

Burke, D. (2014). Inability of F waves to control for changes in the excitability of the motoneurone pool in motor control studies. *Clinical Neurophysiology*, 125(2), 221-222. [More Information]

Ng, K., Murray, N., Burke, D. (2014). Peripheral nerve excitability before and after liver transplant. *Muscle and Nerve*, 49(4), 615-616. [More Information]

Colebatch, J., Burke, D. (2014). Vestibular function and vestibular evoked myogenic potentials (VEMPs) in spasticity. *Clinical Neurophysiology*, 125(10), 1934-1935. [More Information]

2013

Ng, K., Kumar, K., Sue, C., Burke, D. (2013). Axonal excitability during ischemia in MELAS. *Muscle and Nerve*, 47(5), 762-765. [More Information]

Tomlinson, S., Rajakulendran, S., Tan, S., Graves, T., Bamiou, D., Labrum, R., Burke, D., Sue, C., Giunti, P., Schorge, S., et al (2013). Clinical, genetic, neurophysiological and functional study of new mutations in episodic ataxia type 1. *Journal of Neurology, Neurosurgery and Psychiatry*, 84(10), 1107-1112. [More Information]

Ng, K., Howells, J., Pollard, J., Burke, D. (2013). Different mechanisms underlying changes in excitability of peripheral nerve sensory and motor axons in multiple sclerosis. *Muscle and Nerve*, 47(1), 53-60. [More Information]

Howells, J., Czesnik, D., Trevillion, L., Burke, D. (2013). Excitability and the safety margin in human axons during hyperthermia. *Journal of Physiology*, 591(12), 3063-3080. [More Information]

Burke, D., Howells, J., Tomlinson, S. (2013). HCN Channels: Function and clinical implications. *Neurology*, 81(5), 513-514. [More Information]

Jankelowitz, S., Spies, J., Burke, D. (2013). Late-onset neurological symptoms in thalidomide-exposed subjects: a study of an Australasian cohort. *European Journal of Neurology*, 20(3), 509-514. [More Information]

Jankelowitz, S., Burke, D. (2013). Pathophysiology of HNPP explored using axonal excitability. *Journal of Neurology, Neurosurgery and Psychiatry*, 84(7), 806-812. [More Information]

Burke, D., Wissel, J., Donnan, G. (2013). Pathophysiology of spasticity in stroke. *Neurology*, 80(3 Suppl 2), S20-S26. [More Information]

McNulty, P., Burke, D. (2013). Self-Sustained Motor Activity Triggered by Interlimb Reflexes in Chronic Spinal Cord Injury, Evidence of Functional Ascending Proprioceptive Pathways. *PLoS One*, 8(8), 1-10. [More Information]

2012

Jankelowitz, S., Burke, D. (2012). Do the motor manifestations of parkinson disease alter motor axon excitability? *Muscle and Nerve*, 45(1), 43-47. [More Information]

Giboin, L., Lackmy-Vallée, A., Burke, D., Marchand-Pauvert, V. (2012). Enhanced propriospinal excitation from hand muscles to wrist flexors during reach-to-grasp in humans. *Journal of Neurophysiology*, 107(2), 532-543. [More Information]

Tomlinson, S., Bostock, H., Grinton, B., Hanna, M., Kullmann, D., Kiernan, M., Scheffer, I., Berkovic, S., Burke, D. (2012). In vivo loss of slow potassium channel activity in individuals with benign familial neonatal epilepsy in remission. *Brain*, 135, 3144-3152. [More Information]

Burke, D., Phillips, L. (2012). Is the "impact factor" a valid measure of the impact of research published in Clinical Neurophysiology and Muscle & Nerve? *Clinical Neurophysiology*, 123(9), 1687-1690. [More Information]

Burke, D., Phillips, L. (2012). Is the "impact factor" a valid measure of the impact of research published in Clinical Neurophysiology and Muscle & Nerve? *Muscle and Nerve*, 46(3), 309-312. [More Information]

Burke, D. (2012). Microneurography and its potential clinical applications. In Michael J. Aminoff (Eds.), *Aminoffs Electrodiagnosis in Clinical Neurology*, (pp. 327-344). China: Saunders Elsevier. [More Information]

Kumar, K., Sue, C., Burke, D., Ng, K. (2012). Peripheral neuropathy in hereditary spastic paraplegia due to spastin (SPG4) mutation - A neurophysiological study using excitability techniques. *Clinical Neurophysiology*, 123(7), 1454-1459. [More Information]

Burke, D., Phillips, L. (2012). Reply: Use and misuse of impact factors. *Muscle and Nerve*, 46(6), 979-980. [More Information]

Pierrot-Deseilligny, E., Burke, D. (2012). *The Circuitry of the Human Spinal Cord: Spinal and Corticospinal Mechanisms of Movement*. Cambridge: Cambridge University Press. [More Information]

McNulty, P., Shiner, C., Thayaparan, G., Burke, D. (2012). The stability of M(max) and H(max) amplitude over time. *Experimental Brain Research*, 218(4), 601-607. [More Information]

Howells, J., Trevillion, L., Bostock, H., Burke, D. (2012). The voltage dependence of I_h in human myelinated axons. *Journal of Physiology*, 590(7), 1625-1640. [More Information]

2011

Park, S., Lin, C., Burke, D., Kiernan, M. (2011). Activity-dependent conduction failure: molecular insights. *Journal of the Peripheral Nervous System*, 16(3), 159-168. [More Information]

Ng, K., Kumar, K., Brew, B., Burke, D. (2011). Axonal excitability in viral polyneuropathy and nucleoside neuropathy

in HIV patients. *Journal of Neurology, Neurosurgery and Psychiatry*, 82(9), 978-980. [More Information]

Kumar, K., Liang, C., Needham, M., Burke, D., Sue, C., Ng, K. (2011). Axonal hyperpolarization in inclusion-body myopathy, paget disease of the bone, and frontotemporal dementia (IBMPFD). *Muscle and Nerve*, 44(2), 191-196. [More Information]

Barnett, M., Barnett, Y., Burke, D., Willison, H. (2011). Spinal nerve root hypertrophy in chronic ataxic neuropathy with antiglycolipid IgM antibodies. *Journal of Neurology, Neurosurgery and Psychiatry*, 82(1), 97. [More Information]

Trevillion, L., Howells, J., Tomlinson, S., Bostock, H., Burke, D. (2011). What makes some axons more excitable than others. *Physiology News*, 82, 32-35.

2010

Ng, K., Kumar, K., Brew, B., Burke, D. (2010). Axonal excitability in viral polyneuropathy and nucleoside neuropathy in HIV patients. *Journal of Neurology, Neurosurgery and Psychiatry*, doi:10.1136/jnnp.2009.203091, 1-3. [More Information]

Burke, D., Pierrot-Deseilligny, E. (2010). Caveats when studying motor cortex excitability and the cortical control of movement using transcranial magnetic stimulation. *Clinical Neurophysiology*, 121(2), 121-123. [More Information]

Vucic, S., Burke, D., Kiernan, M. (2010). Fatigue in Multiple Sclerosis: Mechanisms and Management. *Clinical Neurophysiology*, 121(6), 809-817. [More Information]

Tomlinson, S., Tan, V., Kullmann, D., Griggs, R., Burke, D., Hanna, M., Bostock, H. (2010). Nerve excitability studies characterize KV1.1 fast potassium channel dysfunction in patients with episodic ataxia type 1. *Brain*, 133, 1-11. [More Information]

Ng, K., Winter, S., Sue, C., Burke, D. (2010). Preserved motor axonal membrane potential in mitochondrial disease. *Journal of Neurology, Neurosurgery and Psychiatry*, 81(8), 844-846. [More Information]

Trevillion, L., Howells, J., Bostock, H., Burke, D. (2010). Properties of Low-Threshold Motor Axons in the Human Median Nerve. *Journal of Physiology*, 288(13), 2503-2515. [More Information]

Burke, D. (2010). Whither needle EMG? *Clinical Neurophysiology*, 121(9), 1373-1375. [More Information]

2009

Jankelowitz, S., Nikpour (Mohamed), A., Burke, D. (2009). Axonal effects of camphor poisoning. *Journal of Clinical Neuroscience*, 16(12), 1639-1641. [More Information]

Jankelowitz, S., Burke, D. (2009). Axonal excitability in the forearm: Normal data and differences along the median nerve. *Clinical Neurophysiology*, 120(1), 167-173. [More Information]

Tomlinson, S., Hanna, M., Kullmann, D., Tan, V., Burke, D. (2009). Clinical neurophysiology of the episodic ataxias: insights into ion channel dysfunction in vivo. *Clinical Neurophysiology*, 120(10), 1768-1776. [More Information]

Burke, D., Jankelowitz, S. (2009). Fatigue in chronic inflammatory demyelinating polyneuropathy. *Muscle and Nerve*, 39(5), 713-714. [More Information]

Tomlinson, S., Burke, D., Hanna, M., Koltzenburg, M., Bostock, H. (2009). In vivo assessment of HCN channel current (I_h) in human motor axons. *Muscle and Nerve*, 41(2), 247-256. [More Information]

Vucic, S., Cheah, B., Krishnan, A., Burke, D., Kiernan, F. (2009). The effects of alterations in conditioning stimulus intensity on short interval intracortical inhibition. *Brain Research*, 1273, 39-47. [More Information]

Burke, D., Howells, J., Trevillion, L., McNulty, P., Jankelowitz, S., Kiernan, M. (2009). Threshold behaviour of human axons explored using subthreshold perturbations to membrane potential. *Journal of Physiology*, 587(2), 491-504. [More Information]

McNulty, P., Burke, D. (2009). When cold becomes hot. *Journal of Physiology*, 587(23), 5511-5511. [More Information]

2008

Uysal, H., Larsson, L., Efendi, H., Burke, D., Ertekin, C. (2008). Medium-latency reflex response of soleus elicited by peroneal nerve stimulation. *Experimental Brain Research*, 193(2), 275-286. [More Information]

McNulty, P., Jankelowitz, S., Wiendels, T., Burke, D. (2008). Post-activation depression of the soleus H reflex measured using threshold tracking. *Journal of Neurophysiology*, 100(6), 3275-3284. [More Information]

Burke, D. (2008). Recording MEPs to transcranial electrical stimulation and SEPs to peripheral nerve stimulation simultaneously from the spinal cord. In Marc R Nuwer (Eds.), *Handbook of Clinical Neurophysiology: Intraoperative Monitoring of Neural Function*, 8, (pp. 252-259). Netherlands: Elsevier. [More Information]

Burke, D. (2008). Revolution and evolution in science and scientific publishing. *Clinical Neurophysiology*, 119(1), 1.

Ng, K., Howells, J., Pollard, J., Burke, D. (2008). Up-regulation of slow K⁺ channels in peripheral motor axons: a transcriptional channelopathy in multiple sclerosis. *Brain*, 131(11), 3062-3071. [More Information]

Information]

2007

Jankelowitz, S., McNulty, P., Burke, D. (2007). Changes in measures of motor axon excitability with age. *Clinical Neurophysiology*, 118(6), 1397-1404. [More Information]

Vucic, S., Burke, D., Kiernan, M. (2007). Diagnosis of motor neurone disease. In Kiernan M (Eds.), *The Motor Neurone Disease Handbook*, (pp. 89-104). Strawberry Hills, Australia: Australasian Med Publ Co Ltd.

Burke, D., Howells, J., Trevillion, L., Kiernan, M., Bostock, H. (2007). Inflections in threshold electrotonus to depolarizing currents in sensory axons. *Muscle and Nerve*, 36(6), 849-852. [More Information]

Ng, K., Burke, D. (2007). Nerve Excitability Studies in the Present Era. *Advances in Clinical Neuroscience & Rehabilitation*, 7(5), 29-30.

Trevillion, L., Howells, J., Burke, D. (2007). Outwardly rectifying deflections in threshold electrotonus due to K⁺ conductances. *Journal of Physiology*, 580(2), 685-696. [More Information]

Jankelowitz, S., Howells, J., Burke, D. (2007). Plasticity of inwardly rectifying conductances following a corticospinal lesion in human subjects. *Journal of Physiology*, 581(3), 927-940. [More Information]

Iglesias, C., Marchand-Pauvert, V., Lourenço, G., Burke, D., Pierrot-Deseilligny, E. (2007). Task-related changes in propriospinal excitation from hand muscles to human flexor carpi radialis motoneurons. *Journal of Physiology*, 582(3), 1361-1379. [More Information]

Burke, D. (2007). The properties of axons differ according to their function. *Journal of Physiology*, 578(1), 1-2. [More Information]

2006

Burke, D., Lin, C., Kiernan, M., Bostock, H. (2006). Assessment of nerve excitability properties in peripheral nerve disease. In Kimura J (Eds.), *Handbook of Clinical Neurophysiology*, (pp. 381-403). Amsterdam: Elsevier.

Howells, J., Trevillion, L., Jankelowitz, S., Burke, D. (2006). Augmentation of the contraction force of human thenar muscles by and during brief discharge trains. *Muscle and Nerve*, 33(3), 384-392. [More Information]

Burke, D., Kiernan, M. (2006). Developments in the assessment of peripheral nerve function. In Kimura J (Eds.), *Handbook of Clinical Neurophysiology*, (pp. 927-943). Amsterdam: Elsevier.

Burke, D. (2006). Frequency-dependent conduction block in carpal tunnel syndrome. *Muscle and Nerve*, 33(5), 587-588. [More Information]

Zoing, M., Burke, D., Pamphlett, R., Kiernan, M. (2006). Riluzole therapy for motor neurone disease: an early Australian experience (1996-2002). *Journal of Clinical Neuroscience*,

13(1), 78-83. [More Information]

Burke, D. (2006). Symptoms of thoracic outlet syndrome in women with carpal tunnel syndrome. *Clinical Neurophysiology*, 117(4), 930-931. [More Information]

Howells, J., Trevillion, L., Jankelowitz, S., Burke, D. (2006). The Catch-Like property of human thenar muscles studied during brief trains of discharges. *XIth International Congress on Neuromuscular Diseases*, United Kingdom: Elsevier.

2005

Kiernan, M., Isbister, G., Lin, C., Burke, D., Bostock, H. (2005). Acute tetrodotoxin-induced neurotoxicity after ingestion of puffer fish. *Annals of Neurology*, 57(3), 339-48. [More Information]

Bostock, H., Lin, C., Howells, J., Trevillion, L., Jankelowitz, S., Burke, D. (2005). After-effects of near-threshold stimulation in single human motor axons. *Journal of Physiology*, 564(3), 931-940. [More Information]
