

Publications for David Winlaw

2019

Winlaw, D. (2019). Commentary: Building evidence to support empiric observations-Molecular cross talk, or simply crossed wires? *Journal of Thoracic and Cardiovascular Surgery*, 157(6), 2429-2430. [More Information]

Winlaw, D. (2019). Commentary: Radical ostioplasty: The way to restore flow after arterial switch operation. *Journal of Thoracic and Cardiovascular Surgery*, 158(1), e21-e22. [More Information]

Manavitehrani, I., Ebrahimi, P., Yang, I., Daly, S., Schindeler, A., Saxena, A., Little, D., Deghani, F., Fletcher, D., Winlaw, D. (2019). Current Challenges and Emergent Technologies for Manufacturing Artificial Right Ventricle to Pulmonary Artery (RV-PA) Cardiac Conduits. *Cardiovascular Engineering and Technology*, 10(2), 205-215. [More Information]

Alankarage, D., Ip, E., Szot, J., Munro, J., Blue, G., Harrison, K., Cuny, H., Enriquez, A., Troup, M., Humphreys, D., Wilson, M., Sholler, G., Winlaw, D., et al (2019). Identification of clinically actionable variants from genome sequencing of families with congenital heart disease. *Genetics in Medicine*, 21(5), 1111-1120. [More Information]

Salve, G., Datar, G., Perumal, G., Singh, A., Ayer, J., Roberts, P., Sholler, G., Cole, A., Pigott, N., Loughran-Fowlds, A., Weatherall, A., Alahakoon, T., Orr, Y., Nicholson, I., Winlaw, D. (2019). Impact of High-Risk Characteristics in Hypoplastic Left Heart Syndrome. *World Journal for Pediatric and Congenital Heart Surgery*, 10(4), 475-484. [More Information]

Fong, L., Winlaw, D., Orr, Y. (2019). Is the modified single-patch repair superior to the double-patch repair of complete atrioventricular septal defects? *Interactive Cardiovascular and Thoracic Surgery*, 28(3), 427-431. [More Information]

Winlaw, D. (2019). Morphogenetic clarity in considerations of hypoplastic left heart syndrome. *Heart*, 105(6), 499. [More Information]

Denniss, D., Sholler, G., Costa, D., Winlaw, D., Kasparian, N. (2019). Need for Routine Screening of Health-Related Quality of Life in Families of Young Children with Complex Congenital Heart Disease. *The Journal of Pediatrics*, 205, 21-28. [More Information]

Winlaw, D., Orr, Y., Mater, K., Ayer, J., Nicholson, I., Chard, R. (2019). Patient-Specific Approach to Mitral Valve Replacement in Infants Weighing 10 kilograms or less. *World Journal for Pediatric and Congenital Heart Surgery*, 10(3), 304-312. [More Information]

Christoff, A., Winlaw, D., Curtin, J., Barnes, E., Egan, J. (2019). Recombinant activated factor VII in neonatal cardiac surgery. *European Journal Of Cardio-Thoracic Surgery*, 55(5), 817-822. [More Information]

Lawley, C., Winlaw, D., Sholler, G., Martin, A., Badawi, N., Walker, K., Nassar, N., Lain, S. (2019). School-Age Developmental and Educational Outcomes Following Cardiac Procedures in the First Year of Life: A Population-Based Record Linkage Study. *Pediatric Cardiology*, 40(3), 570-579. [More Information]

Schlabach, L., Horton, S., Long, D., Beca, J., Erickson, S., Festa, M., d'Udekem, Y., Alphonso, N., Winlaw, D., Johnson, K., et al (2019). Study protocol: NITric oxide during cardiopulmonary bypass to improve Recovery in Infants with Congenital heart defects (NITRIC trial): A randomised controlled trial. *BMJ Open*, 9(8), 1-8. [More Information]

Laohachai, K., Winlaw, D., Sholler, G., Ayer, J., Veerappan, S., Cole, A. (2019). The Degree of Left Ventricular Hypoplasia Is Associated with Tricuspid Regurgitation Severity in Infants with Hypoplastic Left Heart Syndrome. *Pediatric Cardiology*, 40(5), 1035-1040. [More Information]

Page, D., Miossec, M., Williams, S., Monaghan, R., Fotiou, E., Cordell, H., Sutcliffe, L., Topf, A., Bourgey, M., Winlaw, D., et al (2019). Whole Exome Sequencing Reveals the Major Genetic Contributors to Non-Syndromic Tetralogy of Fallot. *Circulation Research*, 124, 553-563. [More Information]

2018

Lawley, C., Broadhouse, K., Callaghan, F., Winlaw, D., Figtree, G., Grieve, S. (2018). 4D flow magnetic resonance imaging: role in pediatric congenital heart disease. *Asian Cardiovascular and Thoracic Annals*, 26(1), 28-37. [More Information]

Szot, J., Cuny, H., Blue, G., Humphreys, D., Ip, E., Harrison, K., Sholler, G., Giannoulatou, E., Leo, P., Winlaw, D., et al (2018). A Screening Approach to Identify Clinically Actionable Variants Causing Congenital Heart Disease in Exome Data. *Circulation. Genomic and Precision Medicine*, 11(3), 1-77. [More Information]

Marathe, S., Naganur, S., Menon, S., Orr, Y., Cooper, S., Winlaw, D. (2018). An Unusual Combination of Truncus Arteriosus, Interrupted Aortic Arch, and Hypoplastic Left Ventricle. *World Journal for Pediatric and Congenital Heart Surgery*, 9(6), 714-717. [More Information]

Sabbaghian, N., Digilio, M., Blue, G., Revil, T., Winlaw, D., Foulkes, W. (2018). Analysis of DICER1 in familial and sporadic cases of transposition of the great arteries. *Congenital*

Heart Disease, 13(3), 401-406. [More Information]

Verrall, C., Walker, K., Loughran-Fowlds, A., Prelog, K., Goetti, R., Troedson, C., Ayer, J., Egan, J., Halliday, R., Orr, Y., Sholler, G., Badawi, N., Winlaw, D. (2018). Contemporary incidence of stroke (focal infarct and/or haemorrhage) determined by neuroimaging and neurodevelopmental disability at 12 months of age in neonates undergoing cardiac surgery utilizing cardiopulmonary bypass. *Interactive Cardiovascular and Thoracic Surgery*, 26(4), 644-650. [More Information]

Festa, M., Winlaw, D. (2018). Dedicated cardiac intensive care units: Good for the patient, good for the surgeon. *Journal of Thoracic and Cardiovascular Surgery*, 155(6), 2604-2605. [More Information]

Cao, J., Lee, S., Phan, K., Ayer, J., Celermajer, D., Winlaw, D. (2018). Early Outcomes of Hypoplastic Left Heart Syndrome Infants: Meta-Analysis of Studies Comparing the Hybrid and Norwood Procedures. *World Journal for Pediatric and Congenital Heart Surgery*, 9(2), 224-233. [More Information]

Blue, G., Ip, E., Walker, K., Kirk, E., Loughran-Fowlds, A., Sholler, G., Dunwoodie, S., Harvey, R., Giannoulatou, E., Badawi, N., Winlaw, D. (2018). Genetic burden and associations with adverse neurodevelopment in neonates with congenital heart disease. *American Heart Journal*, 201, 33-39. [More Information]

Egan, J., Kilo, T., Winlaw, D. (2018). Goldilocks meets heparin dosing-enough but not too much. *Journal of Thoracic and Cardiovascular Surgery*, 156(1), 341-342. [More Information]

Wilson, T., d'Udekem, Y., Winlaw, D., Cordina, R., Celermajer, D., Wheaton, G., Bullock, A., Gentles, T., Weintraub, R., Justo, R., Ayer, J., et al (2018). Hepatic and renal end-organ damage in the Fontan circulation: A report from the Australian and New Zealand Fontan Registry. *International Journal of Cardiology*, 273, 100-107. [More Information]

Winlaw, D. (2018). Hypoplastic left heart: the next chapter in our unsolved problem. *Heart*, 104(18), 1476-1477. [More Information]

Cao, J., Phan, K., Ayer, J., Celermajer, D., Winlaw, D. (2018). Long term survival of hypoplastic left heart syndrome infants: Meta-analysis comparing outcomes from the modified Blalock₁/₂Taussig shunt and the right ventricle to pulmonary artery shunt. *International Journal of Cardiology*, 254, 107-116. [More Information]

Winlaw, D., Sholler, G., Barach, P. (2018). Regional consolidation of pediatric cardiac surgery in New York State ₁/₂ Are we there yet? A destination reached or a step in the right direction? *Progress in Pediatric Cardiology*, 50, 1-3. [More Information]

Kasparian, N., De Abreu Lourenco, R., Winlaw, D., Sholler, G., Viney, R., Kirk, E. (2018). Tell me once, tell me soon: parents'

preferences for clinical genetics services for congenital heart disease. *Genetics in Medicine*, 20(11), 1387-1395. [More Information]

2017

Blue, G., Kirk, E., Giannoulatou, E., Sholler, G., Dunwoodie, S., Harvey, R., Winlaw, D. (2017). Advances in the Genetics of Congenital Heart Disease: A Clinician's Guide. *Journal of the American College of Cardiology*, 69(7), 859-870. [More Information]

King, G., Gentles, T., Winlaw, D., Cordina, R., Bullock, A., Grigg, L., Alphonso, N., Radford, D., Zannino, D., Buratto, E., et al (2017). Common atrioventricular valve failure during single ventricle palliation. *European Journal Of Cardio-Thoracic Surgery*, 51(6), 1037-1043. [More Information]

Marathe, S., Jones, M., Ayer, J., Sun, J., Orr, Y., Verrall, C., Nicholson, I., Chard, R., Sholler, G., Winlaw, D. (2017). Congenitally corrected transposition: Complex anatomic repair or Fontan pathway? *Asian Cardiovascular and Thoracic Annals*, 25(6), 432-439. [More Information]

Slavotinek, A., Risolino, M., Losa, M., Cho, M., Monaghan, K., Schneidman-Duhovny, D., Parisotto, S., Herkert, J., Stegmann, A., Winlaw, D., et al (2017). De novo, deleterious sequence variants that alter the transcriptional activity of the homeoprotein PBX1 are associated with intellectual disability and pleiotropic developmental defects. *Human Molecular Genetics*, 26(24), 4849-4860. [More Information]

Kasparian, N., Lieu, N., Winlaw, D., Cole, A., Kirk, E., Sholler, G. (2017). EHealth literacy and preferences for eHealth resources in parents of children with complex CHD. *Cardiology in the Young*, 27(4), 722-730. [More Information]

Dunne, B., Brown, K., Sholler, G., Trivedi, A., Smith, G., Winlaw, D. (2017). Fatal Acute Appendicitis in a Neonate With Congenital Heart Disease. *Behavioral Sleep Medicine*, 8(3), 411-413. [More Information]

McKean, E., Kasparian, N., Batra, S., Sholler, G., Winlaw, D., Dalby-Payne, J. (2017). Feeding difficulties in neonates following cardiac surgery: Determinants of prolonged feeding-tube use. *Cardiology in the Young*, 27(6), 1203-1211. [More Information]

Winlaw, D., Dunwoodie, S., Kirk, E. (2017). Four-Generation Family with Ebstein Anomaly Highlights Future Challenges in Congenital Heart Disease Genetics. *Circulation Cardiovascular Genetics*, 10(6), 1-2. [More Information]

Huang, L., Dalziel, K., Schilling, C., Celermajer, D., McNeil, J., Winlaw, D., Gentles, T., Radford, D., Cheung, M., Bullock, A., et al (2017). Hospital costs and cost implications of comorbid conditions for patients with single ventricle in the period through to Fontan completion. *International Journal of Cardiology*, 240, 178-182. [More Information]

Information]

Huang, L., Schilling, C., Dalziel, K., Xie, S., Celermajer, D., McNeil, J., Winlaw, D., Hornung, T., Radford, D., Grigg, L., et al (2017). Hospital Inpatient Costs for Single Ventricle Patients Surviving the Fontan Procedure. *American Journal of Cardiology*, 120(3), 467-472. [More Information]

Franken, L., Admiraal, M., Verrall, C., Zannino, D., Ayer, J., Iyengar, A., Cole, A., Sholler, G., d'Udekem, Y., Winlaw, D. (2017). Improved long-term outcomes in double-inlet left ventricle and tricuspid atresia with transposed great arteries: systemic outflow tract obstruction present at birth defines long-term outcome. *European Journal Of Cardio-Thoracic Surgery*, 51(6), 1051-1057. [More Information]

Laohachai, K., Winlaw, D., Selvadurai, H., Gnanappa, G., d'Udekem, Y., Celermajer, D., Ayer, J. (2017). Inspiratory muscle training is associated with improved inspiratory muscle strength, resting cardiac output, and the ventilatory efficiency of exercise in patients with a fontan circulation. *Journal of the American Heart Association*, 6(8), 1-11. [More Information]

Lawley, C., Lain, S., Figtree, G., Sholler, G., Winlaw, D., Roberts, C. (2017). Mortality, rehospitalizations and costs in children undergoing a cardiac procedure in their first year of life in New South Wales, Australia. *International Journal of Cardiology*, 241, 156-162. [More Information]

Shi, H., Enriquez, A., Rapadas, M., Martin, E., Wang, R., Moreau, J., Lim, C., Szot, J., Ip, E., Hughes, J., Smith, J., Collins, F., Sillence, D., Winlaw, D., et al (2017). NAD deficiency, congenital malformations, and niacin supplementation. *New England Journal of Medicine*, 377(6), 544-552. [More Information]

Luxford, J., Arora, N., Ayer, J., Verrall, C., Cole, A., Orr, Y., d'Udekem, Y., Sholler, G., Winlaw, D. (2017). Neonatal Ebstein Anomaly: A 30-year Institutional Review. *Seminars in Thoracic and Cardiovascular Surgery*, 29(2), 206-212. [More Information]

Gnanappa, G., Celermajer, D., Sholler, G., Gentles, T., Winlaw, D., d'Udekem, Y., Ayer, J. (2017). The Long-Term Management of Children and Adults with a Fontan Circulation: A Systematic Review and Survey of Current Practice in Australia and New Zealand. *Pediatric Cardiology*, 38, 56-69. [More Information]

Menon, S., Chennapragada, S., Ugaki, S., Sholler, G., Ayer, J., Winlaw, D. (2017). The Lymphatic Circulation in Adaptations to the Fontan Circulation. *Pediatric Cardiology*, 38(5), 886-892. [More Information]

Blue, G., Humphreys, D., Szot, J., Major, J., Chapman, G., Bosman, A., Kirk, E., Sholler, G., Harvey, R., Dunwoodie, S., Winlaw, D. (2017). The promises and challenges of exome sequencing in familial, non-syndromic congenital heart disease. *International Journal of Cardiology*, 230, 155-163. [More Information]

Poh, C., Zannino, D., Weintraub, R., Winlaw, D., Grigg, L., Cordina, R., Hornung, T., Bullock, A., Justo, R., Gentles, T., Celermajer, D., et al (2017). Three decades later: The fate of the population of patients who underwent the Atriopulmonary Fontan procedure. *International Journal of Cardiology*, 231, 99-104. [More Information]

Wilson, T., Shi, W., Lyengar, A., Winlaw, D., Cordina, R., Wheaton, G., Bullock, A., Gentles, T., Weintraub, R., Justo, R., et al (2017). Twenty-Five Year Outcomes of the Lateral Tunnel Fontan Procedure. *Seminars in Thoracic and Cardiovascular Surgery*, 29(3), 347-353. [More Information]

Pharande, P., Karthigeyan, S., Walker, K., D'Cruz, D., Badawi, N., Luig, M., Winlaw, D., Popat, H. (2017). Unilateral vocal cord paralysis after surgical closure of a patent ductus arteriosus in extremely preterm infants. *Journal of Paediatrics and Child Health*, 53(12), 1192-1198. [More Information]

2016

Kasparian, N., Winlaw, D., Sholler, G. (2016). "Congenital heart health": How psychological care can make a difference. *Medical Journal of Australia*, 205(3), 104-107. [More Information]

Celermajer, D., Strange, G., Cordina, R., Selbie, L., Sholler, G., Winlaw, D., Alphonso, N., Justo, R., Nicholae, M., Kasparian, N., et al (2016). Congenital Heart Disease Requires a Lifetime Continuum of Care: A call for a Regional Registry. *Heart, Lung and Circulation*, 25(8), 750-754. [More Information]

Lemckert, F., Bournazos, A., Eckert, D., Kenzler, M., Hawkes, J., Butler, T., Ceely, B., North, K., Winlaw, D., Egan, J., Cooper, S. (2016). Lack of MG53 in human heart precludes utility as a biomarker of myocardial injury or endogenous cardioprotective factor. *Cardiovascular Research*, 110(2), 178-187. [More Information]

Fonoudi, H., Ansari, H., Abbasalizadeh, S., Blue, G., Aghdami, N., Winlaw, D., Harvey, R., Bosman, A., Baharvand, H. (2016). Large-scale production of cardiomyocytes from human pluripotent stem cells using a highly reproducible small molecule-based differentiation protocol. *Journal of Visualized Experiments*, 2016 (113), 1-10. [More Information]

Cairns, T., Shi, W., Iyengar, A., Nisbet, A., Forsdick, V., Zannino, D., Gentles, T., Radford, D., Justo, R., Celermajer, D., Winlaw, D., et al (2016). Long-term outcomes after first-onset arrhythmia in Fontan physiology. *Journal of Thoracic and Cardiovascular Surgery*, 152(5), 1355-1363.e1. [More Information]

Ugaki, S., Lord, D., Sherwood, M., Winlaw, D. (2016). Lymphangiography is a diagnostic and therapeutic intervention for patients with plastic bronchitis after the Fontan operation. *Journal of Thoracic and Cardiovascular Surgery*, 152(2), e47-e49. [More Information]

Oh, L., Bhardwaj, G., Winlaw, D., Donaldson, C. (2016).

Malignant Hypertensive Retinopathy in an Infant with Mid-Aortic Occlusion. *Case Reports in Ophthalmological Medicine*, 2016, 8162687. [More Information]

Iyengar, A., Winlaw, D., Galati, J., Wheaton, G., Gentles, T., Grigg, L., Justo, R., Radford, D., Attard, C., Weintraub, R., Sholler, G., Celermajer, D., et al (2016). No difference between aspirin and warfarin after extracardiac Fontan in a propensity score analysis of 475 patients. *European Journal Of Cardio-Thoracic Surgery*, 50(5), 980-987. [More Information]

Poh, C., Cochrane, A., Galati, J., Bullock, A., Celermajer, D., Gentles, T., du Plessis, K., Winlaw, D., Hornung, T., Finucane, K., et al (2016). Ten-year outcomes of Fontan conversion in Australia and New Zealand demonstrate the superiority of a strategy of early conversion. *European Journal Of Cardio-Thoracic Surgery*, 49(2), 530-535. [More Information]

Schilling, C., Dalziel, K., Nunn, R., du Plessis, K., Shi, W., Celermajer, D., Winlaw, D., Weintraub, R., Grigg, L., Radford, D., et al (2016). The Fontan epidemic: Population projections from the Australia and New Zealand Fontan Registry. *International Journal of Cardiology*, 219, 14-19. [More Information]

Wilson, T., Iyengar, A., Winlaw, D., Weintraub, R., Wheaton, G., Gentles, T., Ayer, J., Grigg, L., Justo, R., Radford, D., Celermajer, D., et al (2016). Use of ACE inhibitors in Fontan: Rational or irrational? *International Journal of Cardiology*, 210, 95-99. [More Information]

Iyengar, A., Celermajer, D., Winlaw, D., d'Udekem, Y. (2016). Young and Free: Over 25 Years of Seminal Contributions to Complex Congenital Heart Disease From Australia & New Zealand. *Heart, Lung and Circulation*, 25(6), 529-534. [More Information]

2015

Fonoudi, H., Ansari, H., Abbasalizadeh, S., Larijani, M., Kiani, S., Hashemizadeh, S., Zarchi, A., Bosman, A., Blue, G., Pahlavan, S., Winlaw, D., et al (2015). A universal and robust integrated platform for the scalable production of human cardiomyocytes from pluripotent stem cells. *Stem Cells Translational Medicine*, 4(12), 1-13. [More Information]

Bosman, A., Edel, M., Blue, G., Dilley, R., Harvey, R., Winlaw, D. (2015). Bioengineering and Stem Cell Technology in the Treatment of Congenital Heart Disease. *Journal of Clinical Medicine*, 4(4), 768-781. [More Information]

Walker, K., Loughran-Fowlds, A., Halliday, R., Holland, A., Stewart, J., Sholler, G., Winlaw, D., Badawi, N. (2015). Developmental outcomes at 3 years of age following major non-cardiac and cardiac surgery in term infants: A population-based study. *Journal of Paediatrics and Child Health*, 51(12), 1221-1225. [More Information]

Orr, Y., Leclair, K., Jacobe, S., Badawi, N., Nicholson, I., Chard, R., Sholler, G., Winlaw, D. (2015). Early outcomes from

a new regional programme for the surgical management of hypoplastic left heart syndrome. *ANZ Journal of Surgery*, 85(6), 466-471. [More Information]

Blue, G., Kasparian, N., Sholler, G., Kirk, E., Winlaw, D. (2015). Genetic counselling in parents of children with congenital heart disease significantly improves knowledge about causation and enhances psychosocial functioning. *International Journal of Cardiology*, 178, 124-130. [More Information]

Winlaw, D., Large, M., Jacobs, J., Barach, P. (2015). Leadership, Surgeon Well-Being, and Other Non-technical Aspects of Pediatric Cardiac Surgery. In Paul R. Barach, Jeffery P. Jacobs, Steven E. Lipshultz, Peter C. Laussen (Eds.), *Pediatric and Congenital Cardiac Care: Volume 2: Quality Improvement and Patient Safety*, (pp. 293-306). London: Springer-Verlag. [More Information]

Keogh, A., Nicholls, M., Shaw, M., Dhital, K., Weintraub, R., Winlaw, D. (2015). Modified Potts shunt in an adult with pulmonary arterial hypertension and recurrent syncope - three-year follow-up. *International Journal of Cardiology*, 182, 36-37. [More Information]

Sen, S., Winlaw, D., Sholler, G. (2015). Partial anomalous left pulmonary artery: report of two cases and review of literature. *Cardiology in the Young*, 25(5), 1012-1014. [More Information]

2014

Kasparian, N., Fidock, B., Sholler, G., Camphausen, C., Murphy, D., Cooper, S., Kaul, R., Jones, O., Winlaw, D., Kirk, E. (2014). Parents' perceptions of genetics services for congenital heart disease: the role of demographic, clinical, and psychological factors in determining service attendance. *Genetics in Medicine*, 16(6), 460-468. [More Information]

d'Udekem, Y., Iyengar, A., Galati, J., Forsdick, V., Weintraub, R., Wheaton, G., Bullock, A., Justo, R., Grigg, L., Sholler, G., Celermajer, D., Winlaw, D., et al (2014). Redefining expectations of long-term survival after the Fontan procedure: twenty-five years of follow-up from the entire population of Australia and New Zealand. *Circulation*, 130(11), S32-S38. [More Information]

Blue, G., Kirk, E., Sholler, G., Winlaw, D. (2014). Targeted next generation sequencing identifies likely-pathogenic variants in families with strong histories of CHD. *Heart, Lung and Circulation*, 23(S2), e1.

Blue, G., Kirk, E., Giannoulatou, E., Dunwoodie, S., Ho, J., Hilton, D., White, S., Sholler, G., Harvey, R., Winlaw, D. (2014). Targeted next-generation sequencing identifies pathogenic variants in familial congenital heart disease. *Journal of the American College of Cardiology*, 64(23), 2498-2506. [More Information]

Iyengar, A., Winlaw, D., Galati, J., Gentles, T., Weintraub, R., Justo, R., Wheaton, G., Bullock, A., Celermajer, D., d'Udekem, Y. (2014). The Australia and New Zealand Fontan Registry: description and initial results from the first population-based Fontan registry. *Internal Medicine Journal*, 44(2), 148-155. [More Information]

Information]

Iyengar, A., Winlaw, D., Galati, J., Wheaton, G., Gentles, T., Grigg, L., Justo, R., Radford, D., Weintraub, R., Bullock, A., Celermajer, D., et al (2014). The extracardiac conduit Fontan procedure in Australia and New Zealand: hypoplastic left heart syndrome predicts worse early and late outcomes. *European Journal Of Cardio-Thoracic Surgery*, 46(3), 465-473. [More Information]

Iyengar, A., Winlaw, D., Galati, J., Celermajer, D., Wheaton, G., Gentles, T., Grigg, L., Weintraub, R., Bullock, A., Justo, R., et al (2014). Trends in Fontan surgery and risk factors for early adverse outcomes after Fontan surgery: The Australia and New Zealand Fontan Registry experience. *Journal of Thoracic and Cardiovascular Surgery*, 148(2), 566-575. [More Information]

2013

Stehn, J., Haass, N., Bonello, T., Desouza, M., Kottyan, G., Treutlein, H., Zeng, J., Nascimento, P., Sequeira, V., Butler, T., Allanson, M., Winlaw, D., Reeve, V., Weninger, W., et al (2013). A Novel Class of Anticancer Compounds Targets the Actin Cytoskeleton in Tumor Cells. *Cancer Research*, 73(16), 5169-5182. [More Information]

Mamasoula, C., Prentice, R., Pierscionek, T., Pangilinan, F., Mills, J., Druschel, C., Pass, K., Russel, M., Hall, D., Topf, A., Winlaw, D., et al (2013). Association between C677T polymorphism of methylene tetrahydrofolate reductase and congenital heart disease: meta-analysis of 7697 cases and 13125 controls. *Circulation Cardiovascular Genetics*, 6(4), 347-353. [More Information]

Cordell, H., Topf, A., Mamasoula, C., Postma, A., Bentham, J., Zelenika, D., Heath, S., Blue, G., Cosgrove, C., Granados-Riveron, J., Winlaw, D., et al (2013). Genome-wide association study identifies loci on 12q24 and 13q32 associated with tetralogy of Fallot. *Human Molecular Genetics*, 22(7), 1473-1481. [More Information]

Cordell, H., Bentham, J., Topf, A., Zelenika, D., Heath, S., Mamasoula, C., Cosgrove, C., Blue, G., Granados-Riveron, J., Setchfield, K., Dos Remedios, C., Winlaw, D., et al (2013). Genome-wide association study of multiple congenital heart disease phenotypes identifies a susceptibility locus for atrial septal defect at chromosome 4p16. *Nature Genetics*, 45(7), 822-824. [More Information]

2012

Blue, G., Kirk, E., Sholler, G., Harvey, R., Winlaw, D. (2012). Congenital heart disease: current knowledge about causes and inheritance. *Medical Journal of Australia*, 197(3), 155-159. [More Information]

Soemedi, R., Wilson, I., Bentham, J., Darlay, R., Topf, A., Zelenika, D., Cosgrove, C., Setchfield, K., Thornborough, C., Granados-Riveron, J., Winlaw, D., et al (2012). Contribution of global rare copy-number variants to the risk of sporadic congenital heart disease. *American Journal of Human Genetics*, 91(3), 489-501. [More Information]

Walker, K., Badawi, N., Halliday, R., Stewart, J., Sholler, G.,

Winlaw, D., Sherwood, M., Holland, A. (2012). Early Developmental Outcomes following Major Noncardiac and Cardiac Surgery in Term Infants: A Population-Based Study. *The Journal of Pediatrics*, 161(4), 748-752. [More Information]

Winlaw, D., Badawi, N., Jacobe, S., Kasparian, N., Cooper, S., Murphy, D., Sherwood, M., Roberts, P., Leclair, K., Scarfe, G., Sholler, G. (2012). Hypoplastic left heart syndrome in context. *Journal of Paediatrics and Child Health*, 48(2), E7-E9. [More Information]
