

Publications for Ian Alexander

2019

Cunningham, S., Alexander, I. (2019). AAV-mediated gene delivery to the mouse liver. *Methods in Molecular Biology*, 1937, 213-219. [More Information]

Cabanes-Creus, M., Ginn, S., Amaya, A., Liao, S., Westhaus, A., Hallwirth, C., Wilmott, P., Ward, J., Dilworth, K., Santilli, G., Rybicki, A., Thrasher, A., Filip, A., Alexander, I., Lisowski, L., et al (2019). Codon-Optimization of Wild-Type Adeno-Associated Virus Capsid Sequences Enhances DNA Family Shuffling while Conserving Functionality. *Molecular Therapy - Methods & Clinical Development*, 12, 71-84. [More Information]

2018

Tu, L., Wang, J., Barathi, V., Prea, S., He, Z., Lee, J., Bender, J., King, A., Logan, G., Alexander, I., et al (2018). AAV-mediated gene delivery of the calreticulin anti-angiogenic domain inhibits ocular neovascularization. *Angiogenesis*, 21(1), 95-109. [More Information]

Paulk, N., Pekrun, K., Zhu, E., Nygaard, S., Li, B., Xu, J., Chu, K., Leborgne, C., Dane, A., Haft, A., Alexander, I., Lisowski, L., et al (2018). Bioengineered AAV Capsids with Combined High Human Liver Transduction In vivo and Unique Humoral Seroreactivity. *Molecular Therapy*, 26(1), 289-303. [More Information]

Chen, X., Ma, J., Kwan, T., Stribos, E., Messchendorp, A., Loh, Y., Wang, X., Paul, M., Cunningham, E., Habib, M., Alexander, I., Sharland, A., Chadban, S., Wu, H. (2018). Blockade of HMGB1 attenuates diabetic nephropathy in mice. *Scientific Reports*, 8(1), 1-13. [More Information]

Kramer, B., Singh, R., Wischusen, J., Dent, R., Rush, A., Middlemiss, S., Ching, Y., Alexander, I., McCowage, G. (2018). Clinical Trial of MGMT(P140K) Gene Therapy in the Treatment of Pediatric Patients with Brain Tumors. *Human Gene Therapy*, 29(8), 874-885. [More Information]

Paul-Heng, M., Leong, M., Cunningham, E., Bunker, D., Bremner, K., Wang, Z., Wang, C., Tay, S., McGuffog, C., Logan, G., Alexander, I., Hu, M., Alexander, S., Bertolino, P., Bowen, D., Bishop, A., Sharland, A., et al (2018). Direct recognition of hepatocyte-expressed MHC class I alloantigens is required for tolerance induction. *JCI Insight*, 3(15), 1-19. [More Information]

Kok, C., Alexander, I., Lisowski, L., Kizana, E. (2018). Directed Evolution of Adeno-Associated Virus Vectors in Human Cardiomyocytes for Cardiac Gene Therapy. *Heart, Lung and Circulation*, 27(11), 1270-1273. [More Information]

Ginn, S., Amaya, A., Alexander, I., Edelstein, M., Abedi, M. (2018). Gene therapy clinical trials worldwide to 2017: An

update. *Journal of Gene Medicine*, 20(5), 1-16. [More Information]

Kanthan, A., Fahmy, P., Rao, R., Pouliopoulos, J., Alexander, I., Thomas, S., Kizana, E. (2018). Human Connexin40 Mutations Slow Conduction and Increase Propensity for Atrial Fibrillation. *Heart, Lung and Circulation*, 27(1), 114-121. [More Information]

Ren, B., La, Q., O'Brien, B., Nassif, N., Tan, Y., Gerace, D., Martiniello-Wilks, R., Torpy, F., Dane, A., Alexander, I., et al (2018). Partial pancreatic transdifferentiation of primary human hepatocytes in the livers of a humanised mouse model. *Journal of Gene Medicine*, 20(5), e3017. [More Information]

Ginn, S., McCormack, M., Alexander, I. (2018). Thymocyte self-renewal and oncogenic risk in immunodeficient mouse models: relevance for human gene therapy clinical trials targeting haematopoietic stem cell populations? *Mammalian Genome*, 29, 771-776. [More Information]

2017

Baruteau, J., Waddington, S., Alexander, I., Gissen, P. (2017). Delivering efficient liver-directed AAV-mediated gene therapy. *Gene Therapy*, 24(5), 263-264. [More Information]

Baruteau, J., Waddington, S., Alexander, I., Gissen, P. (2017). Gene therapy for monogenic liver diseases: clinical successes, current challenges and future prospects. *Journal of Inherited Metabolic Disease*, 40(4), 497-517. [More Information]

Logan, G., Dane, A., Hallwirth, C., Smyth, C., Wilkie, E., Amaya, A., Zhu, E., Khandekar, N., Ginn, S., Liao, S., Cunningham, S., Sasaki, N., Cabanes-Creus, M., Tam, P., Lisowski, L., Alexander, I., et al (2017). Identification of liver-specific enhancer-promoter activity in the 3' untranslated region of the wild-type AAV2 genome. *Nature Genetics*, 49(8), 1267-1273. [More Information]

Ginn, S., Hallwirth, C., Liao, S., Teber, E., Arthur, J., Wu, J., Lee, H., Tay, S., Hu, M., Reddel, R., Alexander, S., Alexander, I., et al (2017). Limiting Thymic Precursor Supply Increases the Risk of Lymphoid Malignancy in Murine X-Linked Severe Combined Immunodeficiency. *Molecular Therapy - Nucleic Acids*, 6, 1-14. [More Information]

Kamboj, A., Hallwirth, C., Alexander, I., McCowage, G., Kramer, B. (2017). Ub-ISAP: A streamlined UNIX pipeline for mining unique viral vector integration sites from next generation sequencing data. *BMC Bioinformatics*, 18(1), 1-9. [More Information]

2016

Ginn, S., Alexander, I. (2016). Gene therapy. *Wiley StatsRef: Statistics Reference Online*, (pp. 1-19). Hoboken: John Wiley & Sons.

Smith, R., Hallwirth, C., Westerman, M., Hetherington, N., Tseng, Y., Cecchini, S., Virag, T., Ziegler, M., Rogozin, I., Kooni, E., Alexander, I., et al (2016). Germline viral fossils guide in silico reconstruction of a mid-Cenozoic era marsupial adeno-associated virus. *Scientific Reports*, 6, 1-17. [More Information]

Baoutina, A., Bhat, S., Zheng, M., Partis, L., Dobeson, M., Alexander, I., Emslie, K. (2016). Synthetic certified DNA reference material for analysis of human erythropoietin transgene and transcript in gene doping and gene therapy. *Gene Therapy*, 23(10), 708-717. [More Information]

2015

Gray, P., Logan, G., Alexander, I., Poulton, S., Roscioli, T., Ziegler, J. (2015). A novel intronic splice site deletion of the IL-2 receptor common gamma chain results in expression of a dysfunctional protein and T-cell-positive X-linked Severe combined immunodeficiency. *International Journal of Immunogenetics*, 42(1), 11-14. [More Information]

Mak, K., Chin, R., Cunningham, S., Habib, M., Torresi, J., Sharland, A., Alexander, I., Angus, P., Herath, C. (2015). ACE2 Therapy Using Adeno-associated Viral Vector Inhibits Liver Fibrosis in Mice. *Molecular Therapy*, 23(9), 1434-1443. [More Information]

Lisowski, L., Tay, S., Alexander, I. (2015). Adeno-associated virus serotypes for gene therapeutics. *Current Opinion in Pharmacology*, 24, 59-67. [More Information]

Hallwirth, C., Garg, G., Peters, T., Kramer, B., Malani, N., Hyman, J., Ruan, X., Ginn, S., Hetherington, N., Veeravalli, L., Liddle, C., Alexander, I., et al (2015). Coherence analysis discriminates between retroviral integration patterns in CD34(+) cells transduced under differing clinical trial conditions. *Molecular Therapy - Methods & Clinical Development*, 2, 1-10. [More Information]

Menon, T., Firth, A., Scripture-Adams, D., Galic, Z., Qualls, S., Gilmore, W., Ke, E., Singer, O., Anderson, L., Alexander, I., et al (2015). Lymphoid Regeneration from Gene-Corrected SCID-X1 Subject-Derived iPSCs. *Cell Stem Cell*, 16(4), 367-372. [More Information]

Hu, M., Kramer, B., Zhang, G., Wang, Y., Watson, D., Howden, B., McCowage, G., Alexander, I., Gunning, P., Alexander, S. (2015). Methyl-Guanine-Methyl-Transferase Transgenic Bone Marrow Transplantation Allows N,N-bis(2-chloroethyl)-Nitrosourea Driven Donor Mixed-Chimerism Without Graft-Versus-Host Disease, and With Donor-Specific Allograft Tolerance. *Transplantation*, 99(12), 2476-2484. [More Information]

Cunningham, S., Siew, S., Hallwirth, C., Bolitho, C., Sasaki, N., Garg, G., Michael, I., Hetherington, N., Carpenter, K., de

Alencastro, G., Alexander, I., et al (2015). Modeling correction of severe urea cycle defects in the growing murine liver using a hybrid recombinant adeno-associated virus/piggyBac transposase gene delivery system. *Hepatology*, 62(2), 417-428. [More Information]

Alexander, I., Russell, D. (2015). The Potential of AAV-Mediated Gene Targeting for Gene and Cell Therapy Applications. *Current Stem Cell Reports*, 1(1), 16-22. [More Information]

Earl, J., Nath, C., Hanlon, M., Leach, C., Dale, R., Logan, G., Alexander, I., Bishop, G. (2015). The tryptophan damage signal and indoleamine 2, 3-dioxygenase. In Angel Catala (Eds.), *Indoleamines: Sources, role in biological processes and health effects*, (pp. 107-121). New York: Nova Science Publishers, Inc.

Dane, A., Cunningham, S., Kok, C., Logan, G., Alexander, I. (2015). Transient suppression of hepatocellular replication in the mouse liver following transduction with recombinant adeno-associated virus. *Gene Therapy*, 22(11), 917-922. [More Information]

2014

Deyle, D., Hansen, R., Cornea, A., Li, L., Burt, A., Alexander, I., Sandstrom, R., Stamatoyannopoulos, J., Wei, C., Russell, D. (2014). A genome-wide map of adeno-associated virus-mediated human gene targeting. *Nature Structural and Molecular Biology*, 21(11), 969-975. [More Information]

Tay, S., Wong, Y., McDonald, D., Wood, N., Roediger, B., Sierro, F., McGuffog, C., Alexander, I., Bishop, A., Gamble, J., Weninger, W., McCaughan, G., Bertolino, P., Bowen, D. (2014). Antigen expression level threshold tunes the fate of CD8 T cells during primary hepatic immune responses. *Proceedings of the National Academy of Sciences of the United States of America*, 111(25), E2540-E2549. [More Information]

Logan, G., de Alencastro, G., Alexander, I., Yeoh, G. (2014). Exploiting the unique regenerative capacity of the liver to underpin cell and gene therapy strategies for genetic and acquired liver disease. *International Journal of Biochemistry and Cell Biology*, 56, 141-152. [More Information]

Deakin, C., Deakin, J., Ginn, S., Young, P., Humphreys, D., Suter, C., Alexander, I., Hallwirth, C. (2014). Impact of next-generation sequencing error on analysis of barcoded plasmid libraries of known complexity and sequence. *Nucleic Acids Research*, 42(16), 1-14. [More Information]

Tay, S., Wong, Y., Roediger, B., Sierro, F., Lu, B., McDonald, D., McGuffog, C., Meyer, N., Alexander, I., Parish, I., Weninger, W., Bishop, A., Gamble, J., McCaughan, G., Bertolino, P., Bowen, D., et al (2014). Intrahepatic activation of naive CD4+T cells by liver-resident phagocytic cells. *Journal of Immunology*, 193(5), 2087-2095. [More Information]

Lisowski, L., Dane, A., Chu, K., Zhang, Y., Cunningham, S., Wilson, E., Nygaard, S., Grompe, M., Alexander, I., Kay, M. (2014). Selection and evaluation of clinically relevant AAV variants in a xenograft liver model. *Nature*, 506(7488), 382-

386. [More Information]

Ho, G., Alexander, I., Bhattacharya, K., Dennison, B., Ellaway, C., Thompson, S., Wilcken, B., Christodoulou, J. (2014). The Molecular Bases of Phenylketonuria (PKU) in New South Wales, Australia: Mutation Profile and Correlation with Tetrahydrobiopterin (BH4) Responsiveness. *JIMD Reports*, 14, 55-65. [More Information]

Kojima, Y., Kaufman-Francis, K., Studdert, J., Steiner, K., Power, M., Loebel, D., Jones, V., Hor, A., de Alencastro, G., Logan, G., Alexander, I., Pickett, H., Tam, P., et al (2014). The Transcriptional and Functional Properties of Mouse Epiblast Stem Cells Resemble the Anterior Primitive Streak. *Cell Stem Cell*, 14(1), 107-120. [More Information]

2013

Cunningham, S., Kok, C., Spinoulas, A., Carpenter, K., Alexander, I. (2013). AAV-encoded OTC activity persisting to adulthood following delivery to newborn spfash mice is insufficient to prevent shRNA-induced hyperammonaemia. *Gene Therapy*, 20(12), 1184-1187. [More Information]

Kok, C., Cunningham, S., Carpenter, K., Dane, A., Siew, S., Logan, G., Kuchel, P., Alexander, I. (2013). Adeno-associated Virus-mediated Rescue of Neonatal Lethality in Argininosuccinate Synthetase-deficient Mice. *Molecular Therapy*, 21(10), 1823-1831. [More Information]

Dane, A., Wowro, S., Cunningham, S., Alexander, I. (2013). Comparison of gene transfer to the murine liver following intraperitoneal and intraportal delivery of hepatotropic AAV pseudo-serotypes. *Gene Therapy*, 20(4), 460-464. [More Information]

Ginn, S., Alexander, I., Edelstein, M., Abedi, M., Wixon, J. (2013). Gene therapy clinical trials worldwide to 2012 - an update. *Journal of Gene Medicine*, 15(2), 65-77. [More Information]

Cunningham, E., Tay, S., Wang, C., Rtshiladze, M., Wang, Z., McGuffog, C., Cubitt, J., McCaughan, G., Alexander, I., Bertolino, P., Sharland, A., Bowen, D., Bishop, A. (2013). Gene therapy for tolerance: high-level expression of donor major histocompatibility complex in the liver overcomes naive and memory alloresponses to skin grafts. *Transplantation*, 95(1), 70-77. [More Information]

Deakin, C., Alexander, I., Hooker, C., Kerridge, I. (2013). Gene Therapy Researchers' Assessments Of Risks And Perceptions Of Risk Acceptability In Clinical Trials. *Molecular Therapy*, 21(4), 806-815. [More Information]

Gerace, D., Ren, B., Hawthorne, W., Byrne, M., Phillips, P., O'Brien, B., Nassif, N., Alexander, I., Simpson, A. (2013). Pancreatic Transdifferentiation in Porcine Liver Following Lentiviral Delivery of Human Furin-Cleavable Insulin. *Transplantation Proceedings*, 45(5), 1869-1874. [M

ore Information]

2012

El-Hoss, J., Sullivan, K., Cheng, T., Yu, N., Boby, J., Peacock, L., Mikulec, K., Baldock, P., Alexander, I., Schindeler, A., Little, D. (2012). A murine model of neurofibromatosis type 1 tibial pseudarthrosis featuring proliferative fibrous tissue and osteoclast-like cells. *Journal of Bone and Mineral Research*, 27(1), 68-78. [More Information]

Logan, G., Alexander, I. (2012). Adeno-associated virus vectors: immunobiology and potential use for immune modulation. *Current Gene Therapy*, 12(4), 333-343. [More Information]

Alexander, I., Kok, C., Dane, A., Cunningham, S. (2012). Gene therapy for metabolic disorders: an overview with a focus on urea cycle disorders. *Journal of Inherited Metabolic Disease*, 35(4), 641-645. [More Information]

Ginn, S., Alexander, I. (2012). Gene therapy: Progress in childhood disease. *Journal of Paediatrics and Child Health*, 48(6), 466-471. [More Information]

Chung, H., Lin, R., Logan, G., Alexander, I., Sachdev, P., Sidhu, K. (2012). Human Induced Pluripotent Stem Cells Derived Under Feeder-Free Conditions Display Unique Cell Cycle and DNA Replication Gene Profiles. *Stem Cells and Development*, 21(2), 206-216. [More Information]

De Greef, E., Christodoulou, J., Alexander, I., Shun, A., O'Loughlin, E., Thorburn, D., Jermyn, V., Stormon, M. (2012). Mitochondrial Respiratory Chain Hepatopathies: Role of Liver Transplantation. A Case Series of Five Patients. *JIMD Reports*, 4, 5-12.

De Greef, E., Christodoulou, J., Alexander, I., Shun, A., O'Loughlin, E., Thorburn, D., Jermyn, V., Stormon, M. (2012). Mitochondrial Respiratory Chain Hepatopathies: Role of Liver Transplantation. A Case Series of Five Patients. In Society for the Study of Inborn Errors of Metabolism (Eds.), *JIMD Reports - Case and Research Reports*, 2012/1, (pp. 5-12). London: Springer Science+Business Media. [More Information]

Michot, C., Hubert, L., Romero, N., Gouda, A., Mamoune, A., Mathew, S., Kirk, E., Viollet, L., Rahman, S., Bekri, S., Alexander, I., et al (2012). Study of LPIN1, LPIN2 and LPIN3 in rhabdomyolysis and exercise-induced myalgia. *Journal of Inherited Metabolic Disease*, 35(6), 1119-1128. [More Information]

2011

Both, G., Alexander, I., Fletcher, S., Nicolson, T., Rasko, J., Wilton, S., Symonds, G. (2011). Gene therapy: therapeutic applications and relevance to pathology. *Pathology*, 43(6), 642-656. [More Information]

Cunningham, S., Kok, C., Dane, A., Carpenter, K., Kizana, E., Kuchel, P., Alexander, I. (2011). Induction and Prevention of Severe Hyperammonemia in the spf(ash) Mouse Model of Ornithine Transcarbamylase Deficiency Using shRNA and

rAAV-mediated Gene Delivery. *Molecular Therapy*, 19(5), 854-859. [More Information]

2010

Logan, G., Wang, L., Zheng, M., Coppel, R., Alexander, I. (2010). Antigen fusion with C3d(3) augments or inhibits humoral immunity to AAV genetic vaccines in a transgene-dependent manner. *Immunology and Cell Biology*, 88(2), 228-232. [More Information]

Sharland, A., Logan, G., Bishop, A., Alexander, I. (2010). Liver-directed gene expression using recombinant AAV 2/8 vectors -- a tolerogenic strategy for gene delivery? *Discovery Medicine*, 9(49), 519-527. [More Information]

Ginn, S., Liao, S., Dane, A., Hu, M., Hyman, J., Finnie, J., Zheng, M., Cavazzana-Calvo, M., Alexander, S., Thrasher, A., Alexander, I. (2010). Lymphomagenesis in SCID-X1 Mice Following Lentivirus-mediated Phenotype Correction Independent of Insertional Mutagenesis and gammac Overexpression. *Molecular Therapy*, 18(5), 965-976. [More Information]

Deakin, C., Alexander, I., Kerridge, I. (2010). The ethics of gene therapy: Balancing the risks. *Current Opinion in Molecular Therapeutics*, 12(5), 578-585. [More Information]

2009

Cunningham, S., Spinoulas, A., Carpenter, K., Wilcken, B., Kuchel, P., Alexander, I. (2009). AAV2/8-mediated Correction of OTC Deficiency Is Robust in Adult but Not Neonatal Spf(ash) Mice. *Molecular Therapy*, 17(8), 1340-1346. [More Information]

Deakin, C., Alexander, I., Kerridge, I. (2009). Accepting risk in clinical research: is the gene therapy field becoming too risk-averse? *Molecular Therapy*, 17(11), 1842-1848. [More Information]

Logan, G., Wang, L., Zheng, M., Ginn, S., Coppel, R., Alexander, I. (2009). Antigen-specific humoral tolerance or immune augmentation induced by intramuscular delivery of adeno-associated viruses encoding CTLA4-Ig-antigen fusion molecules. *Gene Therapy (Basingstoke)*, 16(2), 200-210. [More Information]

Laurence, J., McCaughan, G., Logan, G., Alexander, I., Bishop, A., Sharland, A. (2009). Gene therapy in transplantation. *Transplantation Reviews*, 23(3), 159-170. [More Information]

Cunningham, S., Zoccai, G., Spinoulas, A., Carpenter, K., Alexander, I. (2009). In vivo assessment of mutations in OTC for dominant-negative effects following rAAV2/8-mediated gene delivery to the mouse liver. *Gene Therapy*, 16(6), 820-823. [More Information]

Lee, A., Kahatapitiya, P., Kramer, B., Joya, J., Hook, J., Liu, R., Schvezov, G., Alexander, I., McCowage, G., Montarras, D.,

Gunning, P., et al (2009). Methylguanine DNA methyltransferase-mediated drug resistance-based selective enrichment and engraftment of transplanted stem cells in skeletal muscle. *Stem Cells*, 27, 1098-1108. [More Information]

Liu, R., Ginn, S., Lek, M., North, K., Alexander, I., Little, D., Schindeler, A. (2009). Myoblast sensitivity and fibroblast insensitivity to osteogenic conversion by BMP-2 correlates with the expression of Bmpr-1 a. *BMC Musculoskeletal Disorders*, 10, 51-1-51-12. [More Information]

Laurence, J., Wang, C., Zheng, M., Cunningham, S., Earl, J., Tay, S., Allen, R., McCaughan, G., Alexander, I., Bishop, A., Sharland, A. (2009). Overexpression of indoleamine dioxygenase in rat liver allografts using a high-efficiency adeno-associated virus vector does not prevent acute rejection. *Liver Transplantation*, 15(2), 233-241. [More Information]

Dane, A., Cunningham, S., Graf, N., Alexander, I. (2009). Sexually Dimorphic Patterns of Episomal rAAV Genome Persistence in the Adult Mouse Liver and Correlation With Hepatocellular Proliferation. *Molecular Therapy*, 17(9), 1548-1554. [More Information]

2008

Curtin, J., Dane, A., Swanson, A., Alexander, I., Ginn, S. (2008). Bidirectional promoter interference between two widely used internal heterologous promoters in a late-generation lentiviral construct. *Gene Therapy (Basingstoke)*, 15(5), 384-390. [More Information]

Baoutina, A., Alexander, I., Rasko, J., Emslie, K. (2008). Developing strategies for detection of gene doping. *Journal of Gene Medicine*, 10, 3-20. [More Information]

Cunningham, S., Dane, A., Spinoulas, A., Alexander, I. (2008). Gene delivery to the juvenile mouse liver using AAV2/8 vectors. *Molecular Therapy*, 16(6), 1081-1088. [More Information]

Alexander, I., Cunningham, S., Logan, G., Christodoulou, J. (2008). Potential of AAV vectors in the treatment of metabolic disease. *Gene Therapy*, 15(11), 831-839. [More Information]

Lee, V., Wang, Y., Wang, Y., Zheng, D., Polhill, T., Cao, Q., Wu, H., Alexander, I., Alexander, S., Harris, D. (2008). Regulatory immune cells in kidney disease. *American Journal of Physiology: Renal Physiology*, 295(2), F335-F342. [More Information]

2007

Cooper, S., Kizana, E., Yates, J., Lo, H., Yang, N., Wu, Z., Alexander, I., North, K. (2007). Dystrophinopathy carrier determination and detection of protein deficiencies in muscular dystrophy using lentiviral MyoD-forced myogenesis. *Neuromuscular Disorders*, 17(4), 276-284. [More Information]

Kizana, E., Chang, C., Cingolani, E., Sekar, R., Ramirez-

Correa, G., Abraham, M., Ginn, S., Tung, L., Alexander, I., Marban, E. (2007). Gene transfer of connexin43 mutants attenuates coupling in cardiomyocytes: novel basis for modulation of cardiac conduction by gene therapy. *Circulation Research*, 100(11), 1597-1604. [More Information]

Yu, Z., McKay, K., Van Asperen, P., Zheng, M., Fleming, J., Ginn, S., Kizana, E., Latham, M., Feneley, M., Kirkland, P., Lumbers, E., Alexander, I., et al (2007). Lentivirus vector-mediated gene transfer to the developing bronchiolar airway epithelium in the fetal lamb. *Journal of Gene Medicine*, 9(6), 429-439. [More Information]

Smyth, C., Ginn, S., Deakin, C., Logan, G., Alexander, I. (2007). Limiting γ c expression differentially affects signaling via the interleukin (IL)-7 and IL-15 receptors. *Blood*, 110(1), 91-98. [More Information]

Baoutina, A., Alexander, I., Rasko, J., Emslie, K. (2007). Potential use of gene transfer in athletic performance enhancement. *Molecular Therapy*, 15(10), 1751-1766. [More Information]

Ganesan, P., Alexander, S., Watson, D., Logan, G., Zhang, G., Alexander, I. (2007). Robust anti-tumor immunity and memory in Rag-1-deficient mice following adoptive transfer of cytokine-primed splenocytes and tumor CD80 expression. *Cancer Immunology, Immunotherapy*, 56(12), 1955-1965. [More Information]

Deichmann, A., Hacein-Bey-Abina, S., Schmidt, M., Garrigue, A., Brugman, M., Hu, J., Glimm, H., Gyapay, G., Prum, B., et al, Alexander, I. (2007). Vector integration is nonrandom and clustered and influences the fate of lymphopoiesis in SCID-X1 gene therapy. *Journal of Clinical Investigation*, 117(8), 2225-2232. [More Information]

2006

Logan, G., Wang, L., Zheng, M., Cunningham, S., Coppel, R., Alexander, I. (2006). AAV vectors encoding malarial antigens stimulate antigen-specific immunity but do not protect from parasite infection. *Vaccine*, 25(6), 1014-1022. [More Information]

Kramer, B., Lemckert, F., Alexander, I., Gunning, P., McCowage, G. (2006). Characterisation of a P140K mutant O(6)-methylguanine-DNA-methyltransferase (MGMT)-expressing transgenic mouse line with drug-selectable bone marrow. *Journal of Gene Medicine*, 8(9), 1071-1085. [More Information]

Kizana, E., Ginn, S., Smyth, C., Boyd, A., Thomas, S., Allen, D., Ross, D., Alexander, I. (2006). Fibroblasts modulate cardiomyocyte excitability: implications for cardiac gene therapy. *Gene Therapy (Basingstoke)*, 13(22), 1611-1615. [More Information]

Wang, Y., Zhang, G., Wang, Y., Hu, M., Wu, H., Watson, D., Hori, S., Alexander, I., Harris, D., Alexander, S. (2006). Foxp3-transduced polyclonal regulatory T cells protect against chronic renal injury from adriamycin. *Journal of the American Society of Nephrology*, 17(3), 697-706. [More Information]

Trent, R., Alexander, I. (2006). Gene therapy in sport. *British Journal of Sports Medicine*, 40(1), 4-5. [More Information]

Hu, M., Kramer, B., Zhang, G., McCowage, G., Alexander, I., Gunning, P., Alexander, S. (2006). Long term skin allograft survival in mice with MGMT chimeric bone marrow engraftment. *Immunology and Cell Biology*, 84 (Suppl.)(3), A29-A29.

Hu, M., Kramer, B., Zhang, G., McCowage, G., Alexander, I., Gunning, P., Alexander, S. (2006). Long term skin allograft survival in mice with MGMT chimeric bone marrow engraftment. *24th Annual Scientific Meeting of the Transplantation Society of Australia and New Zealand (2006)*, Australia: Nature Publishing Group.

2005

Alexander, I., Logan, G., Logan, G., Boadle, R., Rowe, P., Smyth, J. (2005). Differential subcellular localization of CD86 in human PBMC-derived macrophages and DCs, and ultrastructural characterization by immuno-electron microscopy. *International Immunology*, 17(2), 123-132. [More Information]

Smyth, C., Logan, G., Boadle, R., Rowe, P., Smyth, J., Alexander, I. (2005). Differential subcellular localization of CD86 in human PBMC-derived macrophages and DCs, and ultrastructural characterization by immuno-electron microscopy. *International Immunology*, 17(2), 123-132. [More Information]

Kizana, E., Ginn, S., Allen, D., Ross, D., Alexander, I. (2005). Fibroblasts can be genetically modified to produce excitable cells capable of electrical coupling. *Circulation*, 111(4), 394-398. [More Information]

Kizana, E., Ginn, S., Smyth, C., Thomas, S., Allen, D., Ross, D., Alexander, I. (2005). Fibroblasts Modulate Cardiomyocyte Excitability: Insights from Fibroblasts with Genetically Altered Connexin43 Expression. *Journal of Gene Medicine*, 7(point P8 on page 1127), 1127-1127.

Fleming, J., Spinoulas, A., Zheng, M., Cunningham, S., Ginn, S., McQuilty, R., Rowe, P., Alexander, I. (2005). Partial correction of sensitivity to oxidant stress in Friedreich ataxia patient fibroblasts by frataxin-encoding adeno-associated virus and lentivirus vectors. *Human Gene Therapy*, 16(8), 947-956. [More Information]
