

Publications for Karen Ginn

2019

KC, S., Sharma, S., Ginn, K., Almadi, T., Subedi, H., Reed, D. (2019). Cross-cultural adaptation and measurement properties of the Nepali version of the DASH (disability of arm, shoulder and hand) in patients with shoulder pain. *Health and Quality of Life Outcomes*, 17(1), 1-10. [More Information]

Breckenridge, J., Ginn, K., Wallwork, S., McAuley, J. (2019). Do People With Chronic Musculoskeletal Pain Have Impaired Motor Imagery? A Meta-analytical Systematic Review of the Left/Right Judgment Task. *The Journal of Pain*, 20(2), 119-132. [More Information]

KC, S., Sharma, S., Ginn, K., Almadi, T., Reed, D. (2019). Nepali translation, cross-cultural adaptation and measurement properties of the Shoulder Pain and Disability Index (SPADI). *Journal of Orthopaedic Surgery and Research*, 14(1), 1-10. [More Information]

McLaine, S., Bird, M., Ginn, K., Hartley, T., Fell, J. (2019). Shoulder extension strength: a potential risk factor for shoulder pain in young swimmers? *Journal of Science and Medicine in Sport*, 22(5), 516-520. [More Information]

2018

Hollmann, L., Halaki, M., Kamper, S., Haber, M., Ginn, K. (2018). Does muscle guarding play a role in range of motion loss in patients with frozen shoulder? *Musculoskeletal Science and Practice*, 37, 64-68. [More Information]

McLaine, S., Ginn, K., Fell, J., Bird, M. (2018). Isometric shoulder strength in young swimmers. *Journal of Science and Medicine in Sport*, 21(1), 35-39. [More Information]

McLaine, S., Ginn, K., Fell, J., Bird, M. (2018). Scapular upward rotation position is symmetrical in swimmers without current shoulder pain. *Physical Therapy in Sport*, 29, 9-13. [More Information]

Reed, D., Cathers, I., Halaki, M., Ginn, K. (2018). Shoulder muscle activation patterns and levels differ between open and closed-chain abduction. *Journal of Science and Medicine in Sport*, 21(5), 462-466. [More Information]

Bates, A., Furber, S., Tiedemann, A., Ginn, K., van den Dolder, P., Howard, K., Bauman, A., Chittenden, C., Franco, L., Kershaw, M., Sherrington, C. (2018). Trial Protocol: Home-based exercise programs to prevent falls and upper limb dysfunction among community-dwelling older people: study protocol for the BEST (Balance Exercise Strength Training) at Home randomised, controlled trial. *Journal of Physiotherapy*, 64(2), 121. [More Information]

[More Information]

2017

Holt, K., Boettcher, C., Halaki, M., Ginn, K. (2017). Humeral torsion and shoulder rotation range of motion parameters in elite swimmers. *Journal of Science and Medicine in Sport*, 20(5), 469-474. [More Information]

Ginn, K., Reed, D., Jones, C., Downes, A., Cathers, I., Halaki, M. (2017). Is subscapularis recruited in a similar manner during shoulder internal rotation exercises and belly press and lift off tests? *Journal of Science and Medicine in Sport*, 20(6), 566-571. [More Information]

Breckenridge, J., McAuley, J., Butler, D., Stewart, H., Moseley, G., Ginn, K. (2017). Reply to the letter to the Editor ½Re: The development of a shoulder specific left/right judgement task: Validity & reliability½. *Musculoskeletal Science and Practice*, 30, e88-e89. [More Information]

Breckenridge, J., McAuley, J., Butler, D., Stewart, H., Moseley, G., Ginn, K. (2017). The development of a shoulder specific left/right judgement task: Validity & reliability. *Musculoskeletal Science and Practice*, 28, 39-45. [More Information]

2016

Reed, D., Cathers, I., Halaki, M., Ginn, K. (2016). Does changing the plane of abduction influence shoulder muscle recruitment patterns in healthy individuals? *Manual Therapy*, 21, 63-68. [More Information]

Reed, D., Cathers, I., Halaki, M., Ginn, K. (2016). Does load influence shoulder muscle recruitment patterns during scapular plane abduction? *Journal of Science and Medicine in Sport*, 19(9), 755-760. [More Information]

McLaine, S., Ginn, K., Kitic, C., Fell, J., Bird, M. (2016). The Reliability of Strength Tests Performed In Elevated Shoulder Positions Using a Hand-Held Dynamometer. *Journal of Sport Rehabilitation*, 2016 (TECHNICAL REPORT 20), 1-4. [More Information]

2015

Klintberg, I., Cools, A., Holmgren, T., Holzhausen, A., Johansson, K., Maenhout, A., Moser, J., Spunton, V., Ginn, K. (2015). Consensus for physiotherapy for shoulder pain. *International Orthopaedics*, 39(4), 715-720. [More Information]

Ginn, K., Halaki, M. (2015). Do surface electrode recordings

validly represent latissimus dorsi activation patterns during shoulder tasks? *Journal of Electromyography and Kinesiology*, 25(1), 8-13. [More Information]

Lewis, J., Ginn, K. (2015). Rotator Cuff tendinopathy and subacromial pain syndrome. In G Jull, A Moore, D Falla, J Lewis, C McCarthy, M Sterling (Eds.), *Grieve's Modern Musculoskeletal Physiotherapy*, (pp. 563-567). Edinburgh: Elsevier.

Lewis, J., McCreesh, K., Roy, J., Ginn, K. (2015). Rotator Cuff Tendinopathy: Navigating the Diagnosis-Management Conundrum. *Journal of Orthopaedic and Sports Physical Therapy*, 45(11), 923-937. [More Information]

2014

Hackett, L., Reed, D., Halaki, M., Ginn, K. (2014). Assessing the validity of surface electromyography for recording muscle activation patterns from serratus anterior. *Journal of Electromyography and Kinesiology*, 24(2), 221-227. [More Information]

Jaggi, A., Alexander, S., Herbert, R., Funk, L., Ginn, K. (2014). Does surgery followed by physiotherapy improve short and long term outcome for patients with atraumatic shoulder instability compared with physiotherapy alone? - protocol for a randomized controlled clinical trial. *BMC Musculoskeletal Disorders*, 15, 1-6. [More Information]

2013

Reed, D., Cathers, I., Halaki, M., Ginn, K. (2013). Does supraspinatus initiate shoulder abduction? *Journal of Electromyography and Kinesiology*, 23(2), 425-429. [More Information]

Tardo, D., Halaki, M., Cathers, I., Ginn, K. (2013). Rotator Cuff Muscles Perform Different Functional Roles During Shoulder External Rotation Exercises. *Clinical Anatomy*, 26(2), 236-243. [More Information]

Rickert, D., Halaki, M., Ginn, K., Barrett, M., Ackermann, B. (2013). The use of fine-wire EMG to investigate shoulder muscle recruitment patterns during cello bowing: The results of a pilot study. *Journal of Electromyography and Kinesiology*, 23(6), 1261-1268. [More Information]

2012

Halaki, M., Ginn, K. (2012). Normalization of EMG Signals: To Normalize or Not to Normalize and What to Normalize to? In Garnesh R. Naik (Eds.), *Computational Intelligence in Electromyography Analysis - A Perspective on Current Applications and Future Challenges*, (pp. 175-194). Janeza Trdine 9, 51000 Rijeka, Croatia: InTech Open Access Publishers (peer reviewed). [More Information]

2011

Wattanaprakornkul, D., Halaki, M., Boettcher, C., Cathers, I., Ginn, K. (2011). A Comprehensive Analysis of Muscle Recruitment Patterns During Shoulder Flexion: An

Electromyographic Study. *Clinical Anatomy*, 24(5), 619-626. [More Information]

Wattanaprakornkul, D., Halaki, M., Cathers, I., Ginn, K. (2011). Direction-specific recruitment of rotator cuff muscles during bench press and row. *Journal of Electromyography and Kinesiology*, 21(6), 1041-1049. [More Information]

Yiasemides, R., Halaki, M., Cathers, I., Ginn, K. (2011). Does Passive Mobilization of Shoulder Region Joints Provide Additional Benefit Over Advice and Exercise Alone for People Who Have Shoulder Pain and Minimal Movement Restriction? A Randomized Controlled Trial. *Physical Therapy*, 91(2), 178-189. [More Information]

Ginn, K., Halaki, M., Cathers, I. (2011). Revision of the Shoulder Normalization Tests Is Required to Include Rhomboid Major and Teres major. *Journal of Orthopaedic Research*, 29(12), 1846-1849. [More Information]

Wattanaprakornkul, D., Cathers, I., Halaki, M., Ginn, K. (2011). The rotator cuff muscles have a direction specific recruitment pattern during shoulder flexion and extension exercises. *Journal of Science and Medicine in Sport*, 14(5), 376-382. [More Information]

Johnson, V., Halaki, M., Ginn, K. (2011). The use of surface electrodes to record infraspinatus activity is not valid at low infraspinatus activation levels. *Journal of Electromyography and Kinesiology*, 21(1), 112-118. [More Information]

2010

Whiteley, R., Adams, R., Ginn, K., Nicholson, L. (2010). Playing level achieved, throwing history, and humeral torsion in Masters baseball players. *Journal of Sports Sciences*, 28(11), 1223-1232. [More Information]

Whiteley, R., Adams, R., Nicholson, L., Ginn, K. (2010). Reduced humeral torsion predicts throwing-related injury in adolescent baseballers. *Journal of Science and Medicine in Sport*, 13(4), 392-396. [More Information]

Boettcher, C., Cathers, I., Ginn, K. (2010). The role of shoulder muscles is task specific. *Journal of Science and Medicine in Sport*, 13(6), 651-656. [More Information]

Reed, D., Halaki, M., Ginn, K. (2010). The rotator cuff muscles are activated at low levels during shoulder adduction: an experimental study. *Journal of Physiotherapy*, 56(4), 259-264. [More Information]

Stuelcken, M., Ferdinands, E., Ginn, K., Sinclair, P. (2010). The Shoulder Distraction Force in Cricket Fast Bowling. *Journal of Applied Biomechanics*, 26(3), 373-377. [More Information]

2009

Chen, J., Ginn, K., Herbert, R. (2009). Passive mobilisation of shoulder region joints plus advice and exercise does not reduce pain and disability more than advice and exercise alone: a randomised trial. *Australian Journal of Physiotherapy*, 55(1), 17-23. [More Information]

Whiteley, R., Ginn, K., Nicholson, L., Adams, R. (2009). Sports participation and humeral torsion. *Journal of Orthopaedic and Sports Physical Therapy*, 39(4), 256-263. [More Information]

Boettcher, C., Ginn, K., Cathers, I. (2009). The 'empty can' and 'full can' tests do not selectively activate supraspinatus. *Journal of Science and Medicine in Sport*, 12(4), 435-439. [More Information]

Boettcher, C., Ginn, K., Cathers, I. (2009). Which is the Optimal Exercise to Strengthen Supraspinatus? *Medicine and Science in Sports and Exercise*, 41(11), 1979-1983. [More Information]

2008

Stuelcken, M., Ginn, K., Sinclair, P. (2008). Musculoskeletal profile of the lumbar spine and hip regions in cricket fast bowlers. *Physical Therapy in Sport*, 9(2), 82-88. [More Information]

Whiteley, R., Adams, R., Nicholson, L., Ginn, K. (2008). Shoulder proprioception is associated with humeral torsion in adolescent baseball players. *Physical Therapy in Sport*, 9(4), 177-184. [More Information]

Stuelcken, M., Ginn, K., Sinclair, P. (2008). Shoulder strength and range of motion in elite female cricket fast bowlers with and without a history of shoulder pain. *Journal of Science and Medicine in Sport*, 11(6), 575-580. [More Information]

Boettcher, C., Ginn, K., Cathers, I. (2008). Standard maximum isometric voluntary contraction tests for normalizing shoulder muscle EMG. *Journal of Orthopaedic Research: a journal for musculoskeletal investigation*, 26(12), 1591-1597. [More Information]

2007

Trevithick, B., Ginn, K., Halaki, M., Balnave, R. (2007). Shoulder muscle recruitment patterns during a kayak stroke performed on a paddling ergometer. *Journal of Electromyography and Kinesiology*, 17(1), 74-79. [More Information]

Dark, A., Ginn, K., Halaki, M. (2007). Shoulder Muscle Recruitment Patterns During Commonly Used Rotator Cuff Exercises: An Electromyographic Study. *Physical Therapy*, 87(8), 1039-1046. [More Information]

2006

Ginn, K., Cohen, M., Herbert, R. (2006). Does hand-behind-

back range of motion accurately reflect shoulder internal rotation? *Journal of Shoulder and Elbow Surgery*, 15(3), 311-314. [More Information]

Whiteley, R., Ginn, K., Nicholson, L., Adams, R. (2006). Indirect ultrasound measurement of humeral torsion in adolescent baseball players and non-athletic adults: Reliability and significance. *Journal of Science and Medicine in Sport*, 9(4), 310-318. [More Information]

2005

Ginn, K., Cohen, M. (2005). Exercise therapy for shoulder pain aimed at restoring neuromuscular control: A randomized comparative clinical trial. *Journal of Rehabilitation Medicine*, 37(2), 115-122. [More Information]

2004

Hayes, K., Ginn, K., Walton, J., Szomor, Z., Murrell, G. (2004). A Randomised Clinical Trial Evaluating The Efficacy Of Physiotherapy After Rotator Cuff Repair. *Australian Journal of Physiotherapy*, 50(2), 77-83. [More Information]

Ginn, K., Cohen, M. (2004). Conservative Treatment For Shoulder Pain: Prognostic Indicators Of Outcome. *Archives of Physical Medicine and Rehabilitation*, 85(8), 1231-1235. [More Information]

2001

Ginn, K., Henley, E., Clements, A. (2001). Comparison of upper limb musculoskeletal function and throwing performance in adolescent baseball players and matched controls. *Physical Therapy in Sport*, 2, 4-14. [More Information]

Ginn, K., Henley, E., Clements, A. (2001). Correlation between muscle strength and throwing speed in adolescent baseball players. *Physical Therapy in Sport*, 2, 123-131. [More Information]
