

Publications for Mark Gorrell

2019

Zhang, H., Henderson, J., Gorrell, M. (2019). Animal models for hepatocellular carcinoma. *Biochimica et Biophysica Acta - Molecular Basis of Disease*, 1865 (5), 993-1002. [More Information]

Lay, A., Zhang, H., McCaughan, G., Gorrell, M. (2019). Fibroblast activation protein in liver fibrosis. *Frontiers in Bioscience*, 24, 1-17. [More Information]

Zhang, H., Hamson, E., Koczorowska, M., Tholen, S., Chowdhury, S., Bailey, C., Lay, A., Twigg, S., Lee, Q., Roediger, B., O'Rourke, M., McCaughan, G., Keane, F., Gorrell, M., et al (2019). Identification of novel natural substrates of fibroblast activation protein-alpha by differential degradomics and proteomics. *Molecular and Cellular Proteomics*, 18(1), 65-85. [More Information]

Gall, M., Zhang, H., Lee, Q., Jolly, C., McCaughan, G., Cook, A., Roediger, B., Gorrell, M. (2019). Immune regeneration in irradiated mice is not impaired by the absence of DPP9 enzymatic activity. *Scientific Reports*, 9(1), 1-10. [More Information]

Wilson, A., Wilson, K., Bilandzic, M., Moffitt, L., Makanji, M., Gorrell, M., Oehler, M., Rainczuk, A., Stephens, A., Plebanski, M. (2019). Non-Invasive Fluorescent Monitoring of Ovarian Cancer in an Immunocompetent Mouse Model. *Cancers*, 11(1), 1-19. [More Information]

2018

Roediger, B., Lee, Q., Tikoo, S., Cobbin, J., Henderson, J., Jormakka, M., O'Rourke, M., Padula, M., Pinello, N., Henry, M., Wynne, M., Lisowski, L., Tay, S., Harris, D., Bertolino, P., Wong, J., Gorrell, M., Holmes, E., Jolly, C., Weninger, W., et al (2018). An Atypical Parvovirus Drives Chronic Tubulointerstitial Nephropathy and Kidney Fibrosis. *Cell*, 175(2), 530-540. [More Information]

Zhang, H., Brewer, K., Jeffrey, G., Twigg, S., McCaughan, G., Williams, K., Adams, L., Gorrell, M. (2018). Circulating Fibroblast Activation Protein activity as a liver fibrosis biomarker in NAFLD. *Journal of Hepatology*, 66(1), S666-S667. [More Information]

Sinnathura, P., Lau, W., Vieira de Ribeiro, A., Bachovchin, W., Englert, H., Howe, G., Spencer, D., Manolios, N., Gorrell, M. (2018). Circulating fibroblast activation protein and dipeptidyl peptidase 4 in rheumatoid arthritis and systemic sclerosis. *International Journal of Rheumatic Diseases*, 21(11), 1915-1923. [More Information]

Cook, S., Lee, Q., Wong, A., Spann, B., Vincent, J., Wong, J., Schlitzer, A., Gorrell, M., Weninger, W., Roediger, B. (2018). Differential chemokine receptor expression and usage by pre-

cDC1 and pre-cDC2. *Immunology and Cell Biology*, 96(10), 1131-1139. [More Information]

Gorrell, M., Zhang, H. (2018). Dipeptidyl Peptidase 8. *Encyclopedia of Signaling Molecules - 2nd Edition*, (pp. 1414-1417). Cham: Springer International Publishing. [More Information]

Zhang, H., Gorrell, M. (2018). Dipeptidyl Peptidase 9. *Encyclopedia of Signaling Molecules - 2nd Edition*, (pp. 1418-1422). Cham: Springer International Publishing. [More Information]

Polak, N., Gorrell, M. (2018). Fibroblast activation protein. *Encyclopedia of Signaling Molecules - 2nd Edition*, (pp. 1676-1681). Cham: Springer International Publishing. [More Information]

Zhang, H., Gall, M., Gorrell, M. (2018). Letter to Editor. *Developmental Biology*, 439(1), 1. [More Information]

Henderson, J., Polak, N., Chen, J., Roediger, B., Weninger, W., Kench, J., McCaughan, G., Zhang, H., Gorrell, M. (2018). Multiple liver insults synergize to accelerate experimental hepatocellular carcinoma. *Scientific Reports*, 8(1), 1-12. [More Information]

2017

De Willige, S., Keane, F., Bowen, D., Malfliet, J., Zhang, H., Maneck, B., McCaughan, G., Leebeek, F., Rijken, D., Gorrell, M. (2017). Circulating fibroblast activation protein activity and antigen levels correlate strongly when measured in liver disease and coronary heart disease. *PLoS One*, 12(6), 1-8. [More Information]

Tan, S., Chowdhury, S., Polak, N., Gorrell, M., Weninger, W. (2017). Fibroblast activation protein is dispensable in the anti-influenza immune response in mice. *PLoS One*, 12(2), 1-15. [More Information]

Henderson, J., Zhang, H., Polak, N., Gorrell, M. (2017). Hepatocellular carcinoma: Mouse models and the potential roles of proteases. *Cancer Letters*, 387, 106-113. [More Information]

Nadvi, N., Salam, N., Park, J., Akladios, F., Kapoor, V., Collyer, C., Gorrell, M., Church, W. (2017). High resolution crystal structures of human kynurenine aminotransferase-I bound to PLP cofactor, and in complex with aminooxyacetate. *Protein Science*, 26(4), 727-736. [More Information]

Jayawickrama, G., Nematollahi, A., Sun, G., Gorrell, M., Church, W. (2017). Inhibition of human kynurenine aminotransferase isozymes by estrogen and its derivatives.

Scientific Reports, 7(1), 1-11. [More Information]

Gall, M., Gorrell, M. (2017). The Multifunctional Post-proline Dipeptidyl Peptidase, DPP9, in Mice, Cell Biology and Immunity. In Sajal Chakraborti and Naranjan S. Dhalla (Eds.), *Pathophysiological Aspects of Proteases*, (pp. 23-45). Singapore: Springer. [More Information]

Wang, X., Holz, L., Chowdhury, S., Cordoba, S., Evans, K., Gall, M., Vieira de Ribeiro, A., Zheng, Y., Levy, M., Yu, M., Yao, T., Polak, N., Jolly, C., Bertolino, P., McCaughan, G., Gorrell, M. (2017). The pro-fibrotic role of dipeptidyl peptidase 4 in carbon tetrachloride-induced experimental liver injury. *Immunology and Cell Biology*, 95(5), 443-453. [More Information]

2016

Chen, Y., Gall, M., Zhang, H., Keane, F., McCaughan, G., Yu, M., Gorrell, M. (2016). Dipeptidyl peptidase 9 enzymatic activity influences the expression of neonatal metabolic genes. *Experimental Cell Research*, 342(1), 72-82. [More Information]

Wilson, C., Zhang, H., Gorrell, M., Abbott, C. (2016). Dipeptidyl peptidase 9 substrates and their discovery: Current progress and the application of mass spectrometry-based approaches. *Biological Chemistry*, 397(9), 837-856. [More Information]

Wong, P., Gall, M., Bachovchin, W., McCaughan, G., Keane, F., Gorrell, M. (2016). Neuropeptide Y is a physiological substrate of fibroblast activation protein: Enzyme kinetics in blood plasma and expression of Y2R and Y5R in human liver cirrhosis and hepatocellular carcinoma. *Peptides*, 75, 80-95. [More Information]

2015

Williams, K., Vieira de Ribeiro, A., Prakoso, E., Veillard, A., Shackel, N., Brooks, B., Bu, Y., Cavanagh, E., Raleigh, J., McLennan, S., McCaughan, G., Keane, F., Gorrell, M., Twigg, S., et al (2015). Circulating Dipeptidyl Peptidase-4 Activity Correlates with Measures of Hepatocyte Apoptosis and Fibrosis in NAFLD in Type 2 Diabetes Mellitus and Obesity: A Dual Cohort Cross-Sectional Study. *Journal of Diabetes*, 7(6), 809-819. [More Information]

Zhang, H., Chen, Y., Wadham, C., McCaughan, G., Keane, F., Gorrell, M. (2015). Dipeptidyl peptidase 9 subcellular localization and a role in cell adhesion involving focal adhesion kinase and paxillin. *Biochimica et Biophysica Acta. Molecular and Cell Biology of Lipids*, 1853 (2), 470-480. [More Information]

Zhang, H., Maqsudi, S., Rainczuk, A., Duffield, N., Lawrence, J., Keane, F., Justa-Schuch, D., Geiss-Friedlander, R., Gorrell, M., Stephens, A. (2015). Identification of novel dipeptidyl peptidase 9 substrates by two-dimensional differential in-gel electrophoresis. *FEBS Journal*, 282(19), 3737-3757. [More Information]

Jayawickrama, G., Sadig, R., Sun, G., Nematollahi, A., Nadvi, N., Hanrahan, J., Gorrell, M., Church, W. (2015). Kynurenine aminotransferases and the prospects of inhibitors for the

treatment of schizophrenia. *Current Medicinal Chemistry*, 22(24), 2902-2918. [More Information]

Williams, K., Vieira de Ribeiro, A., Prakoso, E., Veillard, A., Shackel, N., Bu, Y., Brooks, B., Cavanagh, E., Raleigh, J., McLennan, S., McCaughan, G., Keane, F., Twigg, S., Gorrell, M., et al (2015). Lower serum fibroblast activation protein shows promise in the exclusion of clinically significant liver fibrosis due to non-alcoholic fatty liver disease in diabetes and obesity. *Diabetes Research and Clinical Practice*, 108(3), 466-472. [More Information]

2014

Osborne, B., Yao, T., Wang, X., Chen, Y., Kotan, L., Nadvi, N., Herdem, M., McCaughan, G., Allen, J., Yu, M., Gorrell, M., et al (2014). A rare variant in human fibroblast activation protein associated with ER stress, loss of enzymatic function and loss of cell surface localisation. *Biochimica et Biophysica Acta. Proteins and Proteomics*, 1844 (7), 1248-1259. [More Information]

Nematollahi, A., Church, W., Nadvi, N., Gorrell, M., Sun, G. (2014). Homology Modeling of Human Kynurenine Aminotransferase III and Observations on Inhibitor Binding Using Molecular Docking. *Central Nervous System Agents in Medicinal Chemistry*, 14(1), 2-9. [More Information]

Keane, F., Yao, T., Seelk, S., Gall, M., Chowdhury, S., Poplawski, S., Lai, J., Li, Y., Wu, W., Farrell, P., Vieira de Ribeiro, A., Osborne, B., Yu, M., Seth, D., Haber, P., Wang, C., Thomson, S., Twigg, S., McLennan, S., McCaughan, G., Gorrell, M., et al (2014). Quantitation of fibroblast activation protein (FAP)-specific protease activity in mouse, baboon and human fluids and organs. *FEBS Open Bio*, 4, 43-54. [More Information]

Hamson, E., Keane, F., Tholen, S., Schilling, O., Gorrell, M. (2014). Understanding fibroblast activation protein (FAP): Substrates, activities, expression and targeting for cancer therapy. *Proteomics - Clinical Applications*, 8, 454-463. [More Information]

2013

Zhang, H., Chen, Y., Keane, F., Gorrell, M. (2013). Advances in Understanding the Expression and Function of Dipeptidyl Peptidase 8 and 9. *Molecular Cancer Research*, 11(12), 1487-1496. [More Information]

Williams, K., Shackel, N., Gorrell, M., McLennan, S., Twigg, S. (2013). Diabetes and Nonalcoholic Fatty Liver Disease: A Pathogenic Duo. *Endocrine Reviews*, 34(1), 84-129. [More Information]

Abbott, C., Gorrell, M. (2013). Dipeptidyl Peptidase 8. In Neil D. Rawlings, Guy Salvesen (Eds.), *Handbook of Proteolytic Enzymes: Volume 3*, (pp. 3379-3384). London, United Kingdom: Elsevier. [More Information]

Harstad, E., Rosenblum, J., Gorrell, M., Achanzar, W., Minimo, L., Wu, J., Rosini-Marthaler, L., Gullo, R., Ordway, N., Kirby, M., et al (2013). DPP8 and DPP9 expression in cynomolgus

monkey and Sprague Dawley rat tissues. *Regulatory Peptides*, 186, 26-35. [More Information]

Gorrell, M., Park, J. (2013). Fibroblast Activation Protein alpha. In Neil D. Rawlings, Guy Salvesen (Eds.), *Handbook of Proteolytic Enzymes: Volume 3*, (pp. 3395-3401). London, United Kingdom: Elsevier. [More Information]

Chowdhury, S., Chen, Y., Yao, T., Ajami, K., Wang, X., Popov, Y., Schuppan, D., Bertolino, P., McCaughan, G., Yu, M., Gorrell, M. (2013). Regulation of dipeptidyl peptidase 8 and 9 expression in activated lymphocytes and injured liver. *World Journal of Gastroenterology*, 19(19), 2883-2893. [More Information]

Gall, M., Chen, Y., Vieira de Ribeiro, A., Zhang, H., Bailey, C., Spielman, D., Yu, M., Gorrell, M. (2013). Targeted Inactivation of Dipeptidyl Peptidase 9 Enzymatic Activity Causes Mouse Neonate Lethality. *PLoS One*, 8(11), 1-10. [More Information]

2012

Akladios, F., Nadvi, N., Park, J., Hanrahan, J., Kapoor, V., Gorrell, M., Church, W. (2012). Design and synthesis of novel inhibitors of human kynurenine aminotransferase-I. *Bioorganic & Medicinal Chemistry Letters*, 22(4), 1579-1581. [More Information]

Keane, F., Chowdhury, S., Yao, T., Nadvi, N., Gall, M., Chen, Y., Osborne, B., Ribeiro, A., Church, W., McCaughan, G., Gorrell, M., Yu, M. (2012). Targeting Dipeptidyl Peptidase-4 (DPP-4) and Fibroblast Activation Protein (FAP) for Diabetes and Cancer Therapy. In Ben Dunn (Eds.), *Proteinases as Drug Targets*, (pp. 118-144). Cambridge, UK: RSC Publishing. [More Information]

2011

Yao, T., Kim, W., Yu, D., Sharbeen, G., McCaughan, G., Choi, K., Xia, P., Gorrell, M. (2011). A Novel Role of Dipeptidyl Peptidase 9 in Epidermal Growth Factor Signaling. *Molecular Cancer Research*, 9(7), 948-959. [More Information]

Lo, L., McLennan, S., Williams, P., Bonner, J., Chowdhury, S., McCaughan, G., Gorrell, M., Yue, D., Twigg, S. (2011). Diabetes is a progression factor for hepatic fibrosis in a high fat fed mouse obesity model of non-alcoholic steatohepatitis. *Journal of Hepatology*, 55(2), 435-444. [More Information]

Abbott, C., Gorrell, M. (2011). Dipeptidyl Peptidases (Dpp8) (Japan). *Patent No. 4748908*.

Abbott, C., Gorrell, M. (2011). Dipeptidyl Peptidases (Dpp9) (USA). *Patent No. 7888094*.

Song, S., Shackel, N., Wang, X., Ajami, K., McCaughan, G., Gorrell, M. (2011). Discoidin Domain Receptor 1: Isoform expression and potential functions in cirrhotic human liver. *American Journal of Pathology*, 178(3), 1134-1144. [More Information]

Martin, J., Deacon, C., Gorrell, M., Prins, J. (2011). Incretin-

based therapies - review of the physiology, pharmacology and emerging clinical experience. *Internal Medicine Journal*, 41(4), 299-307. [More Information]

Martin, J., Deacon, C., Gorrell, M., Prins, J. (2011). Incretin-based therapies - review of the physiology, pharmacology and emerging clinical experience. *Internal Medicine Journal*, 41(4), 299-307. [More Information]

Keane, F., Nadvi, N., Yao, T., Gorrell, M. (2011). Neuropeptide Y, B-type natriuretic peptide, substance P and peptide YY are novel substrates of fibroblast activation protein-1. *FEBS Journal*, 278(8), 1316-1332. [More Information]

Yu, M., Slaitini, L., Gysbers, V., Riekhoff, A., Kahne, T., Knott, H., De Meester, I., Abbott, C., McCaughan, G., Gorrell, M. (2011). Soluble CD26/Dipeptidyl Peptidase IV Enhances Human Lymphocyte Proliferation In Vitro Independent of Dipeptidyl Peptidase Enzyme Activity and Adenosine Deaminase Binding. *Scandinavian Journal of Immunology*, 73(2), 102-111. [More Information]

Gorrell, M., Zekry, A., McCaughan, G., Lloyd, A. (2011). The long and the short of interferon-gamma-inducible protein 10 in hepatitis C virus infection. *Hepatology*, 54(5), 1875-1879. [More Information]

2010

Kushner, P., Gorrell, M. (2010). DPP-4 Inhibitors in Type 2 Diabetes: Importance of Selective Enzyme Inhibition and Implications for Clinical Use. *Journal Of Family Practice*, 59(2).

Kirby, M., Yu, M., O'Connor, S., Gorrell, M. (2010). Inhibitor selectivity in the clinical application of dipeptidyl peptidase-4 inhibition. *Clinical Science*, 118(1), 31-41. [More Information]

Gorrell, M., Abbott, C. (2010). Nucleic Acid Molecules Encoding Prolyl Dipeptidyl Peptidases [Dipeptidyl Peptidases (Dpp9)]. *Patent No. 7662944*.

Schuppan, D., Gorrell, M., Klein, T., Mark, M., Afdhal, N. (2010). The challenge of developing novel pharmacological therapies for non-alcoholic steatohepatitis. *Liver International*, 30(6), 795-808. [More Information]

Yu, M., Yao, T., Chowdhury, S., Nadvi, N., Osborne, B., Church, W., McCaughan, G., Gorrell, M. (2010). The dipeptidyl peptidase IV family in cancer and cell biology. *FEBS Journal*, 277(5), 1126-1144. [More Information]

2009

Sharland, A., Gorrell, M. (2009). Cooperation of innate and adaptive immunity in the pathogenesis of biliary atresia: There's a killer on the run. *Hepatology*, 50(6), 2037-40. [More Information]

Manos, J., Arthur, J., Rose, B., Bell, S., Tingpej, P., Hu, H., Webb, J., Kjelleberg, S., Gorrell, M., Bye, P., Harbour, C. (2009). Gene expression characteristics of a cystic fibrosis epidemic strain of *Pseudomonas aeruginosa* during biofilm and planktonic growth. *FEMS Microbiology Letters*, 292(1), 107-

114. [More Information]

Yu, M., Ajami, K., Gall, M., Park, J., Lee, C., Evans, K., McLaughlin, E., Pitman, M., Abbott, C., McCaughan, G., Gorrell, M. (2009). The In Vivo Expression of Dipeptidyl Peptidases 8 and 9. *Journal of Histochemistry and Cytochemistry: imaging the spectrum of cell biology*, 57(11), 1025-1040. [More Information]

2008

Devanshi, S., Hogg, P., Gorrell, M., McCaughan, G., Haber, P. (2008). Direct effects of alcohol on hepatic fibrinolytic balance: implications for alcoholic liver disease. *Journal of Hepatology*, 48(4), 614-627. [More Information]

Wang, X., Yao, T., Nadvi, N., Osborne, B., McCaughan, G., Gorrell, M. (2008). Fibroblast activation protein and chronic liver disease. *Frontiers in Bioscience*, 13, 3168-3180. [More Information]

Gorrell, M. (2008). Impaired glucose tolerance and incretins in chronic liver disease. *Journal of Gastroenterology and Hepatology*, 23(2), 166-167. [More Information]

Neuman, M., Sha, K., Esguerra, R., Zakhari, S., Winkler, R., Hilzenrat, N., Wyse, J., Cooper, C., Seth, D., Gorrell, M., Haber, P., McCaughan, G., et al (2008). Inflammation and Repair in Viral Hepatitis C. *Digestive Diseases and Sciences*, 53(6), 1468-1487. [More Information]

Tran, D., Christiansen, D., Winterhalter, A., Brooks, A., Gorrell, M., Lilienfeld, B., Seebach, J., Sandrin, M., Sharland, A. (2008). Porcine cells express more than one functional ligand for the human lymphocyte activating receptor NKG2D. *Xenotransplantation*, 15(5), 321-332. [More Information]

Park, J., Knott, H., Nadvi, N., Collyer, C., Wang, X., Church, W., Gorrell, M. (2008). Reversible Inactivation of Human Dipeptidyl Peptidases 8 and 9 by Oxidation. *The Open Enzyme Inhibition Journal*, 1, 52-60.

Ajami, K., Pitman, M., Wilson, C., Park, J., Menz, R., Starr, A., Cox, J., Abbott, C., Overall, C., Gorrell, M. (2008). Stromal cell-derived factors 1{alpha} and 1{beta}, inflammatory protein-10 and interferon-inducible T cell chemo-attractant are novel substrates of dipeptidyl peptidase 8. *FEBS Letters*, 582(5), 819-825. [More Information]

Manos, J., Arthur, J., Rose, B., Tingpej, P., Fung, C., Curtis, M., Webb, J., Hu, H., Kjelleberg, S., Gorrell, M., Bye, P., Harbour, C. (2008). Transcriptome analyses and biofilm-forming characteristics of a clonal *Pseudomonas aeruginosa* from the cystic fibrosis lung. *Journal of Medical Microbiology*, 57(12), 1454-1465. [More Information]

2007

Abbott, C., Gorrell, M. (2007). Dipeptidyl Peptidases (Dpp9). *Patent No. 1337629, 7276365*. Austria, Belgium, Cyprus, Denmark, Finland, France, Germany, Greece, Ireland, Italy,

Luxembourg, Monaco, Netherlands, Portugal, Spain, Sweden, Switzerland, Turkey, United Kingdom.

Gorrell, M., Warner, F. (2007). Fooling the liver: Malaria incognito. *Hepatology*, 45(3), 826-826. [More Information]

McCaughan, G., Shackel, N., Williams, R., Seth, D., Haber, P., Gorrell, M. (2007). Genomics, gene arrays and proteomics in the study of liver disease. In Juan Rodes, Jean-Pierre Benhamou, Andres Blei, Juerg Reichen, and Mario Rizzetto (Eds.), *The Textbook of Hepatology: From Basic Science to Clinical Practice*, (pp. 398-420). USA: Blackwell Publishers. [More Information]

Gorrell, M. (2007). Liver fibrosis: The hepatocyte revisited. *Hepatology*, 46(5), 1659-61. [More Information]

Huang, X., McCaughan, G., Shackel, N., Gorrell, M. (2007). Up-regulation of proproliferative genes and the ligand/receptor pair placental growth factor and vascular endothelial growth factor receptor 1 in hepatitis C cirrhosis. *Liver International*, 27(7), 960-968. [More Information]

2006

Banavar, M., Kable, E., Braet, F., Wang, X., Gorrell, M., Cox, G. (2006). Detection of Collagen by Second Harmonic Microscopy as a Diagnostic Tool for Liver Fibrosis. *Multiphoton Microscopy in the Biomedical Sciences VI*, Bellingham, Washington, USA: SPIE - International Society for Optical Engineering. [More Information]

Park, J., Ajami, K., Yu, M., Gorrell, M. (2006). Dipeptidyl peptidase 8 has post-proline dipeptidyl aminopeptidase and prolyl endopeptidase activities. *Advances in Experimental Medicine and Biology*, 575, 93-102. [More Information]

Abbott, C., Gorrell, M. (2006). Dipeptidyl Peptidases (Dpp8). *Patent No. 1214344, 7148338*. Austria, Belgium, Cyprus, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, Monaco, Netherlands, Portugal, Spain, Sweden, Switzerland, United Kingdom.

Yu, M., Wang, X., Ajami, K., McCaughan, G., Gorrell, M. (2006). DP8 and DP9 have extra-enzymatic roles in cell adhesion, migration and apoptosis. *Advances in Experimental Medicine and Biology*, 575, 63-72. [More Information]

Wang, X., Yu, M., McCaughan, G., Gorrell, M. (2006). Extra-enzymatic roles of DPIV and FAP in cell adhesion and migration on collagen and fibronectin. *Advances in Experimental Medicine and Biology*, 575, 213-222. [More Information]

Yu, M., Wang, X., McCaughan, G., Gorrell, M. (2006). Extraenzymatic functions of the dipeptidyl peptidase IV-related proteins DP8 and DP9 in cell adhesion, migration and apoptosis. *FEBS Journal*, 273(11), 2447-2460. [More Information]

Seth, D., Hogg, P., Gorrell, M., McCaughan, G., Haber, P. (2006). Identification of novel therapeutic targets for alcoholic

liver disease. *International Society for Biomedical Research on Alcoholism World congress on Alcohol Research (ISBRA 2006)*, Maryland: Wiley-Blackwell Publishing.

Seth, D., Gorrell, M., Cordoba, S., McCaughan, G., Haber, P. (2006). Intrahepatic gene expression in human alcoholic hepatitis. *Journal of Hepatology*, 45(2), 306-320. [More Information]

Chen, T., Ajami, K., McCaughan, G., Gai, W., Gorrell, M., Abbott, C. (2006). Molecular characterization of a novel dipeptidyl peptidase like 2-short form (DPL2-s) that is highly expressed in the brain and lacks dipeptidyl peptidase activity. *Biochimica et Biophysica Acta*, 1764 (1), 33-43. [More Information]
