

Publications for Philip Poronnik

2019

Ly, N., Tesch, G., Nikolic-Paterson, D., Poronnik, P. (2019). Proximal tubular epithelial cells preferentially endocytose covalently-modified albumin compared to native albumin. *Nephrology*, 24(1), 121-126. [More Information]

Ahmadpour, N., Randall, H., Choksi, H., Gao, A., Vaughan, C., Poronnik, P. (2019). Virtual Reality interventions for acute and chronic pain management. *International Journal of Biochemistry and Cell Biology*, 114(September 2019), 105568. [More Information]

2018

Hammang, C., Gough, P., Liu, W., Jiang, E., Ross, P., Cook, J., Poronnik, P. (2018). Life sciences in virtual reality first-year students learning as creators. *International Conference on Computer Graphics and Interactive Techniques in Australasia and Southeast Asia (SIGGRAPH ASIA 2018)*, New York: Association for Computing Machinery (ACM). [More Information]

Han, Y., Ly, N., Tesch, G., Poronnik, P., Nikolic-Paterson, D. (2018). Reduced tubular degradation of glomerular filtered plasma albumin is a common feature in acute and chronic kidney disease. *Clinical and Experimental Pharmacology and Physiology*, 45(3), 241-249. [More Information]

McLaughlin, P., Baglin, J., Chester, A., Davis, P., Saha, S., Mills, A., Poronnik, P., Hinton, T., Lawson, J., Hadgraft, R. (2018). The global canopy: Propagating discipline-based global mobility. In Timothy Hall, Tonia Gray, Greg Downey, Michael Singh (Eds.), *The Globalisation of Higher Education, Developing Internationalised Education Research and Practice*, (pp. 79-100). Cham: Palgrave Macmillan. [More Information]

2017

Gan, W., Zavortink, M., Ludick, C., Templin, R., Webb, R., Webb, R., Ma, W., Poronnik, P., Parton, R., Gaisano, H., Thorn, P., et al (2017). Cell polarity defines three distinct domains in pancreatic (beta)-cells. *Journal of Cell Science*, 130(1), 143-151. [More Information]

Ross, P., Poronnik, P. (2017). Deficit and decline in Australian science; when shall we learn? *Australian Zoologist*, 38(3), 422-429. [More Information]

Nagarajan, S., Brandon, A., McKenna, J., Shtein, H., Nguyen, T., Suryana, E., Poronnik, P., Cooney, G., Saunders, D., Hoy, A. (2017). Insulin and diet-induced changes in the ubiquitin-modified proteome of rat liver. *PLoS One*, 12(3), 1-14. [More Information]

Hinton, T., Yeoman, P., Ashor, L., Poronnik, P. (2017). Spaces enabling change: X-lab and science education 2020. In L. Carvalho, P. Goodyear, M. de Laat (Eds.), *Place-based spaces for networked learning*, (pp. 207-224). New York: Routledge. [More Information]

2016

Tang, L., Day, M., Engelen, L., Poronnik, P., Bauman, A., Kay, J. (2016). Daily and hourly adherence: towards understanding activity tracker accuracy. *2016 34th Annual CHI Conference on Human Factors in Computing Systems (CHI 2016)*, New York: Association for Computing Machinery (ACM). [More Information]

Martens, W., Poronnik, P., Saunders, D. (2016). Hypothesis-Driven Sonification of Proteomic Data Distributions Indicating Neurodegradation in Amyotrophic Lateral Sclerosis. *22nd Annual International Conference on Auditory Display (ICAD 2016)*, Canberra: International Community for Auditory Display (ICAD).

Camera, D., Coleman, H., Parkington, H., Jenkins, T., Pow, D., Boase, N., Kumar, S., Poronnik, P. (2016). Learning, memory and long-term potentiation are altered in Nedd4 heterozygous mice. *Behavioural Brain Research*, 303, 176-181. [More Information]

Crossley, J., Poronnik, P., Quinell, R., Thoms, D., Oakford, J., Ollerenshaw, S. (2016). *True Life*. Westfield, Pitt St, Sydney, Australia: Vivid Sydney.

Briffa, J., Grinfeld, E., Poronnik, P., McAinch, A., Hryciw, D. (2016). Uptake of leptin and albumin via separate pathways in proximal tubule cells. *International Journal of Biochemistry and Cell Biology*, 79, 194-198. [More Information]

2015

Briffa, J., Grinfeld, E., Mathai, M., Poronnik, P., McAinch, A., Hryciw, D. (2015). Acute leptin exposure reduces megalin expression and upregulates TGF β 1 in cultured renal proximal tubule cells. *Molecular And Cellular Endocrinology*, 401, 25-34. [More Information]

Lee, A., Slattery, C., Nikolic-Paterson, D., Hryciw, D., Wilk, S., Wilk, E., Zhang, Y., Valova, V., Robinson, P., Kelly, D., Poronnik, P. (2015). Chloride channel ClC-5 binds to aspartyl aminopeptidase to regulate renal albumin endocytosis. *American Journal of Physiology: Renal Physiology*, 308(7), F784-F792. [More Information]

Briffa, J., Grinfeld, E., Jenkin, K., Mathai, M., Poronnik, P., McAinch, A., Hryciw, D. (2015). Diet induced obesity in rats reduces NHE3 and Na⁺/K⁺-ATPase expression in the kidney. *Clinical and Experimental Pharmacology and Physiology*, 42(10), 1118-1126. [More Information]

Poronnik, P., Nikolic-Paterson, D. (2015). Renal physiology: The proximal tubule and albuminuria-at last a starring role. *Nature Reviews Nephrology*, 11, 573-575. [More Information]

2014

Huang, C., Day, M., Poronnik, P., Pollock, C., Chen, X. (2014). Inhibition of KCa3.1 suppresses TGF-Beta1 induced MCP-1 expression in human proximal tubular cells through Smad3, p38 and ERK1/2 signaling pathways. *International Journal of Biochemistry and Cell Biology*, 47(1), 1-10. [More Information]

Ekberg, J., Boase, N., Rychkov, G., Manning, J., Poronnik, P., Kumar, S. (2014). Nedd4-2 (NEDD4L) controls intracellular Na⁺-mediated activity of voltage-gated sodium channels in primary cortical neurons. *Biochemical Journal*, 457(1), 27-31. [More Information]

Hinton, T., Yeoman, P., Carvalho, L., Parisio, M., Day, M., Byrne, S., Bell, A., Donohoe, K., Radford, J., Tregloan, P., Poronnik, P., Goodyear, P. (2014). Participating in the communication of science: Identifying relationships between laboratory space designs and students' activities. *International Journal of Innovation in Science and Mathematics Education*, 22(5), 30-42.

Briffa, J., Grinfeld, E., McAinch, A., Poronnik, P., Hryciw, D. (2014). Short term exposure to elevated levels of leptin reduces proximal tubule cell metabolic activity. *Molecular And Cellular Endocrinology*, 382(1), 38-45. [More Information]

Camera, D., Boase, N., Kumar, S., Pow, D., Poronnik, P. (2014). Subtle gait abnormalities in Nedd4 heterozygous mice. *Behavioural Brain Research*, 260, 15-24. [More Information]

2013

Briffa, J., McAinch, A., Poronnik, P., Hryciw, D. (2013). Adipokines as a link between obesity and chronic kidney disease. *American Journal of Physiology: Renal Physiology*, 305(12), F1629-F1636. [More Information]

Jenkin, K., McAinch, A., Briffa, J., Zhang, Y., Kelly, D., Pollock, C., Poronnik, P., Hryciw, D. (2013). Cannabinoid Receptor 2 Expression in Human Proximal Tubule Cells is Regulated by Albumin Independent of ERK1/2 Signaling. *Cellular Physiology and Biochemistry*, 32(5), 1309-1319. [More Information]

Donovan, P., Poronnik, P. (2013). Nedd4 and Nedd4-2: Ubiquitin ligases at work in the neuron. *International Journal of Biochemistry and Cell Biology*, 45(3), 706-710. [More Information]

Kruger, W., Monteith, G., Poronnik, P. (2013). NHERF-1 regulation of EGF and neurotensin signalling in HT-29 epithelial cells. *Biochemical and Biophysical Research Communications*, 432(4), 568-573. [More Information]

Ross, P., Poronnik, P. (2013). Science education in Australia:

time of change. In Daniel Lunney, Pat Hutchings and Harry F. Recher (Eds.), *Grumpy Scientists: the Ecological Conscience of a Nation*, (pp. 59-66). Australia: Royal Zoological Society of New South Wales. [More Information]

Slattery, C., Jang, Y., Kruger, W., Hryciw, D., Lee, A., Poronnik, P. (2013). $\hat{\text{I}}^3$ -Secretase inhibition promotes fibrotic effects of albumin in proximal tubular epithelial cells. *British Journal of Pharmacology*, 169(6), 1239-1251. [More Information]

2012

Lee, A., Anderson, A., Beasley, S., Barnett, N., Poronnik, P., Pow, D. (2012). A new splice variant of the glutamate-aspartate transporter: Cloning and immunolocalization of GLAST1c in rat, pig and human brains. *Journal of Chemical Neuroanatomy*, 43(1), 52-63. [More Information]

Lee, A., Anderson, A., Rayfeild, A., Stevens, M., Poronnik, P., Meabon, J., Cook, D., Pow, D. (2012). Localisation of novel forms of glutamate transporters and the cystine-glutamate antiporter in the choroid plexus: Implications for CSF glutamate homeostasis. *Journal of Chemical Neuroanatomy*, 43(1), 64-75. [More Information]

Hryciw, D., Ekberg, J., Lee, A., Lensink, I., Kumar, S., Guggino, W., Cook, D., Pollock, C., Poronnik, P. (2012). Nedd4-2 is required for constitutive albumin endocytosis in proximal tubule cells. *35th International Congress of Physiological Sciences*, United States: Federation of American Societies for Experimental Biology.

Hryciw, D., Kruger, W., Briffa, J., Slattery, C., Bolithon, A., Lee, A., Poronnik, P. (2012). Sgk-1 is a positive regulator of constitutive albumin uptake in renal proximal tubule cells. *Cellular Physiology and Biochemistry*, 30(5), 1215-1226. [More Information]

Hryciw, D., Jenkin, K., Simcocks, A., Grinfeld, E., McAinch, A., Poronnik, P. (2012). The interaction between megalin and ClC-5 is scaffolded by the Na⁺-H⁺ exchanger regulatory factor 2 (NHERF2) in proximal tubule cells. *International Journal of Biochemistry and Cell Biology*, 44(5), 815-823. [More Information]

2011

Slattery, C., Jenkin, K., Lee, A., Simcocks, A., McAinch, A., Poronnik, P., Hryciw, D. (2011). Na⁺-H⁺ exchanger regulatory factor 1 (NHERF1) PDZ scaffold binds an internal binding site in the scavenger receptor megalin. *Cellular Physiology and Biochemistry*, 27(2), 171-178. [More Information]

2010

Hu, H., O'Mullane, L., Parry, M., Campbell, C., Hosoda, Y., Poronnik, P., Dinudom, A., Cook, D. (2010). Negative regulation of Ca²⁺ influx during P2Y2 purinergic receptor activation is mediated by G $\hat{\text{I}}^3$ -subunits. *Cell Calcium*, 47(1), 55-64. [More Information]

Lee, A., Lingwood, B., Bjorkman, T., Miller, S., Poronnik, P., Barnett, N., Colditz, P., Pow, D. (2010). Rapid loss of glutamine synthetase from astrocytes in response to hypoxia: Implications for excitotoxicity. *Journal of Chemical Neuroanatomy*, 39(3), 211-220. [More Information]

2009

Kruger, W., Yun, C., Monteith, G., Poronnik, P. (2009). Muscarinic-induced recruitment of plasma membrane Ca²⁺-ATPase involves PSD-95/Dlg/Zo-1-mediated interactions. *Journal of Biological Chemistry*, 284(3), 1820-1830. [More Information]

2008

Slattery, C., Lee, A., Zhang, Y., Kelly, D., Thorn, P., Nikolic-Paterson, D., Tesch, G., Poronnik, P. (2008). In vivo visualization of albumin degradation in the proximal tubule. *Kidney International*, 74(11), 1480-1486. [More Information]

Schuetz, F., Kumar, S., Poronnik, P., Adams, D. (2008). Regulation of the voltage-gated K⁺ channels KCNQ2/3 and KCNQ3/5 by serum- and glucocorticoid-regulated kinase-1. *American Journal of Physiology: Cell Physiology*, 295(1), C73-C80. [More Information]

Stevens, V., Saad, S., Poronnik, P., Fenton Lee, C., Polhill, T., Pollock, C. (2008). The role of SGK-1 in angiotensin II-mediated sodium reabsorption in human proximal tubular cells. *Nephrology, Dialysis, Transplantation*, 23(6), 1834-1843. [More Information]

He, Y., Hryciw, D., Carroll, M., Myers, S., Whitbread, A., Kumar, S., Poronnik, P., Hooper, J. (2008). The ubiquitin-protein ligase Nedd4-2 differentially interacts with and regulates members of the tweety family of chloride ion channels. *Journal of Biological Chemistry*, 283(35), 24000-24010. [More Information]

2007

Pollock, C., Poronnik, P. (2007). Albumin transport and processing by the proximal tubule: physiology and pathophysiology. *Current Opinion In Nephrology And Hypertension*, 16(4), 359-364. [More Information]

Qi, W., Chen, X., Poronnik, P., Pollock, C. (2007). Transforming growth factor-beta/connective tissue growth factor axis in the kidney. *International Journal of Biochemistry and Cell Biology*, 40(1 available online 20 Jan 2007), 9-13. [More Information]

2006

Hryciw, D., Ekberg, J., Ferguson, C., Lee, A., Wang, D., Parton, R., Pollock, C., Yun, C., Poronnik, P. (2006). Regulation of albumin endocytosis by PSD95/Dlg/ZO-1 (PDZ) scaffolds - Interaction of Na⁺-H⁺ exchange regulatory factor-2 with ClC-5. *Journal of Biological Chemistry*, 281(23), 16068-16077. [More Information]

Qi, W., Chen, X., Poronnik, P., Pollock, C. (2006). The renal cortical fibroblast in renal tubulointerstitial fibrosis. *International Journal of Biochemistry and Cell Biology*, 38(1), 1-5. [More Information]

2005

Hryciw, D., Ekberg, J., Pollock, C., Poronnik, P. (2005). ClC-5: A chloride channel with multiple roles in renal tubular albumin uptake. *International Journal of Biochemistry and Cell Biology*, 38(7), 1036-1042. [More Information]

Saad, S., Stevens, V., Wassef, L., Poronnik, P., Kelly, D., Gilbert, R., Pollock, C. (2005). High glucose transactivates the EGF receptor and up-regulates serum glucocorticoid kinase in the proximal tubule. *Kidney International*, 68(3), 985-997. [More Information]

Qi, W., Twigg, S., Chen, X., Polhill, T., Poronnik, P., Gilbert, R., Pollock, C. (2005). Integrated actions of transforming growth factor-beta(1) and connective tissue growth factor in renal fibrosis. *American Journal of Physiology: Renal Physiology*, 288(4), F800-F809. [More Information]

Zafiriou, S., Stanners, S., Saad, S., Polhill, T., Poronnik, P., Pollock, C. (2005). Pioglitazone Inhibits Cell Growth and Reduces Matrix Production in Human Kidney Fibroblasts. *Journal of the American Society of Nephrology*, 16(3), 638-645. [More Information]

Hryciw, D., Pollock, C., Poronnik, P. (2005). PKC- ζ -mediated remodeling of the actin cytoskeleton is involved in constitutive albumin uptake by proximal tubule cells. *American Journal of Physiology: Renal Physiology*, 288(6), F1227-F1235. [More Information]

Ekberg, J., Fotia, A., Adams, D., Cook, D., Kumar, S., Poronnik, P. (2005). Sgk-1 and Nedd4/4-2 regulation of voltage-sensitive sodium channels. *35th International Congress of Physiological Sciences*, United States: Federation of American Societies for Experimental Biology.

2004

McGinn, C., Poronnik, P., Gallery, E., Pollock, C. (2004). A Method For The Isolation Of Glomerular And Tubulointerstitial Endothelial Cells. Comparison Of Characteristics With human umbilical vein endothelial cell model. *Nephrology*, 9(4), 229-237. [More Information]

Field, M., Jackson, C., Pollock, C., Poronnik, P., Young, B., Qi, W. (2004). Human Cortical Fibroblast Responses To High Glucose And Hypoxia. *Nephron Journals, Nephron Physiology: Volume 96(4)*, 121-129. [More Information]

Hryciw, D., Lee, E., Pollock, C., Poronnik, P. (2004). Molecular Changes In Proximal Tubule Function In Diabetes Mellitus. *Clinical and Experimental Pharmacology and Physiology*, 31(5-6), 372-379. [More Information]

href="http://dx.doi.org/10.1111/j.1440-1681.2004.04001.x">[More Information]

Hryciw, D., Ekberg, J., Lee, A., Lensink, I., Kumar, S., Guggino, W., Cook, D., Pollock, C., Poronnik, P. (2004). Nedd4-2 Functionally Interacts With Clc-5: Involvement In Constitutive Albumin Endocytosis In Proximal Tubule Cells. *Journal of Biological Chemistry*, 279(53), 54996-55007. [More Information]

Zafiriou, S., Stanners, S., Polhill, T., Poronnik, P., Pollock, C. (2004). Pioglitazone Increases Renal Tubular Cell Albumin Uptake But Limits Proinflammatory And Fibrotic Responses. *Kidney International*, 65(5), 1647-1653. [More Information]

Carpenter, L., Mitchell, C., Xu, Z., Poronnik, P., Both, G., Biden, T. (2004). Pkc Alpha Is Activated But Not Required During Glucose-Induced Insulin Secretion From Rat Pancreatic Islets. *Diabetes*, 53(1), 53-60. [More Information]

Fotia, A., Ekberg, J., Adams, D., Cook, D., Poronnik, P., Kumar, S. (2004). Regulation Of Neuronal Voltage-Gated Sodium Channels By The Ubiquitin-Protein Ligases Nedd4 And Nedd4-2. *Journal of Biological Chemistry*, 279(28), 28930-28935. [More Information]

Polhill, T., Saad, S., Poronnik, P., Fulcher, G., Pollock, C. (2004). Short-Term Peaks In Glucose Promote Renal Fibrogenesis Independently Of Total Glucose Exposure. *American Journal of Physiology: Renal Physiology*, 287(2), F268-F273. [More Information]

McGinn, C., Poronnik, P., Gallery, E., Pollock, C. (2004). The Effects Of High Glucose And Atorvastatin On Endothelial Cell Matrix Production. *Diabetic Medicine*, 21(10), 1102-1107. [More Information]

2003

Drumm, K., Lee, E., Stanners, S., Gassner, B., Gekle, M., Poronnik, P., Pollock, C. (2003). Albumin and Glucose effects on Cell Growth Parameters, Albumin Uptake and Na⁺/H⁺-Exchanger Isoform 3 in OK Cells. *Cellular Physiology and Biochemistry*, 13(4), 199-206. [More Information]

Hryciw, D., Wang, Y., Devuyst, O., Pollock, C., Poronnik, P., Guggino, W. (2003). Cofilin Interacts with Clc-5 and Regulates Albumin Uptake in Proximal Tubule Cell Lines. *Journal of Biological Chemistry*, 278(41), 40169-40176. [More Information]

Lee, E., Pollock, C., Drumm, K., Barden, J., Poronnik, P. (2003). Effects of pathophysiological concentrations of albumin on NHE3 activity and cell proliferation in primary cultures of human proximal tubule cells. *American Journal of Physiology: Renal Physiology*, 258(4), F748-F757.

McGinn, C., Saad, S., Poronnik, P., Pollock, C. (2003). High glucose-mediated effects on endothelial cell proliferation occur via p38 MAP kinase. *American Journal of Physiology - Endocrinology and Metabolism*, 285, E708-E717.

Weinhaus, A., TABIIN, M., Poronnik, P., PALMA, C., Cook,

D., Tuch, B. (2003). Insulin secretagogues, but not glucose, stimulate an increase in (Ca²⁺)_i in the fetal human and porcine Beta-cell. *The Journal of Clinical Endocrinology and Metabolism*, 88(6), 2753-2759. [More Information]

2002

Parry, M., O'Mullane, L., Barden, J., Cook, D., Poronnik, P. (2002). Antisense co-suppression of Galphaq & Galpha11 demonstrates that both isoforms mediate M3-receptor-activated Ca²⁺ signalling in intact epithelial cells. *Pfluegers Archiv: European journal of physiology*, 444(5), 644-653. [More Information]

Poronnik, P., Parry, M., O'Mullane, L., Cook, D. (2002). Use of adenoviruses to study isoform specificity of G-protein-receptor-coupled Ca²⁺ signaling in intact epithelial cells. *Cell Biochemistry and Biophysics*, 36(2-3), 221-233. [More Information]

2001

Chambers, L., Black, J., Poronnik, P., Johnson, P. (2001). Functional effects of protease-activated receptor-2 stimulation on human airway smooth muscle. *American Journal of Physiology: Lung Cellular and Molecular Physiology*, 281.

2000

Parry, M., O'Mullane, L., Barden, J., Cook, D., Poronnik, P. (2000). Purinergic responses in HT29 colonic epithelial cells are mediated by G protein β -subunits. *Cell Calcium*, 27(5), 247-255. [More Information]

Parry, M., Poronnik, P., O'Mullane, L., Cook, D. (2000). Studying heterotrimeric g-protein-linked signal transduction using replication-deficient adenoviruses. *Immunology and Cell Biology*, 78(4), 375-386. [More Information]
