

Publications for Roger Dampney

2018

Dampney, R. (2018). Emotion and the Cardiovascular System: Postulated Role of Inputs From the Medial Prefrontal Cortex to the Dorsolateral Periaqueductal Gray. *Frontiers in Neuroscience*, 12, 1-8. [More Information]

Dampney, R., Michelini, L., Pan, H. (2018). Regulation of sympathetic vasomotor activity by the hypothalamic paraventricular nucleus in normotensive and hypertensive states. *American Journal of Physiology - Heart and Circulatory Physiology*, 315(5), H1200-H1214. [More Information]

2017

Dampney, R. (2017). Resetting of the baroreflex control of sympathetic vasomotor activity during Natural Behaviors: description and conceptual model of central mechanisms. *Frontiers in Neuroscience*, 11, 1-8. [More Information]

2016

Dampney, R. (2016). Brain control of body temperature: Central command vs feedback. *High Temperature*, 3(3), 362-363. [More Information]

Silvani, A., Calandra-Buonaura, G., Dampney, R., Cortelli, P. (2016). Brain-heart interactions: Physiology and clinical implications. *Philosophical Transactions of the Royal Society A*, 374(2067), 1-22. [More Information]

Dampney, R. (2016). Central neural control of the cardiovascular system: Current perspectives. *Advances in Physiology Education*, 40(3), 283-296. [More Information]

Muller-Ribeiro, F., Goodchild, A., McMullan, S., Fontes, M., Dampney, R. (2016). Coordinated autonomic and respiratory responses evoked by alerting stimuli: Role of the midbrain colliculi. *Respiratory Physiology and Neurobiology*, 226, 87-93. [More Information]

2015

Silvani, A., Calandra-Buonaura, G., Bennaroch, E., Dampney, R., Cortelli, P. (2015). Bidirectional interactions between the baroreceptor reflex and arousal: an update. *Sleep Medicine*, 16(2), 210-216. [More Information]

Beig, M., Horiuchi, J., Dampney, R., Carrive, P. (2015). Both Ox1R and Ox2R orexin receptors contribute to the cardiorespiratory response evoked from the perifornical hypothalamus. *Clinical and Experimental Pharmacology and*

Physiology, 42(10), 1059-1067. [More Information]

Morris, B., Dampney, R. (2015). Brain-stem microRNAs implicated in hypertension. *Physiological Genomics*, 49(7), 386-387. [More Information]

Dampney, R. (2015). Central mechanisms regulating coordinated cardiovascular and respiratory function during stress and arousal. *American Journal of Physiology - Regulatory Integrative and Comparative Physiology*, 309(5), R429-R443. [More Information]

2014

Müller-Ribeiro, F., Dampney, R., McMullan, S., Fontes, M., Goodchild, A. (2014). Disinhibition of the midbrain colliculi unmasks coordinated autonomic, Respiratory, And somatomotor responses to auditory and visual stimuli. *American Journal of Physiology: Regulatory, Integrative and Comparative Physiology*, 307(8), R1025-R1035. [More Information]

Furlong, T., McDowall, L., Horiuchi, J., Polson, J., Dampney, R. (2014). The effect of air puff stress on c-Fos expression in rat hypothalamus and brainstem: central circuitry mediating sympathoexcitation and baroreflex resetting. *European Journal of Neuroscience*, 39(9), 1429-1438. [More Information]

2013

Alessandro, S., Dampney, R. (2013). Central control of cardiovascular function during sleep. *American Journal of Physiology - Heart and Circulatory Physiology*, 305(12), H1683-H1692. [More Information]

Chalmers, J., Angus, J., Graham, R., Carmody, J., Dampney, R., Jennings, G., Korner, N. (2013). Paul Ivan Korner 1925-2012. *Historical Records of Australian Science*, 24(2), 251-282. [More Information]

Dampney, R., Furlong, T., Horiuchi, J., Iigaya, K. (2013). Role of dorsolateral periaqueductal grey in the coordinated regulation of cardiovascular and respiratory function. *Autonomic Neuroscience: Basic and Clinical*, 175(1-2), 17-25. [More Information]

2012

Iigaya, K., Horiuchi, J., McDowall, L., Lam, A., Sediqi, Y., Polson, J., Carrive, P., Dampney, R. (2012). Blockade of orexin receptors with Almorexant reduces cardiorespiratory responses evoked from the hypothalamus but not baro- or chemoreceptor reflex responses. *American Journal of Physiology: Regulatory, Integrative and Comparative Physiology*, 303(10), R1011-

R1022. [More Information]

Iigaya, K., Muller-Ribeiro, F., Horiuchi, J., McDowall, L., Nalivaiko, E., Fontes, M., Dampney, R. (2012). Synchronized activation of sympathetic vasomotor, cardiac, and respiratory outputs by neurons in the midbrain colliculi. *American Journal of Physiology - Regulatory Integrative and Comparative Physiology*, 303(6), R599-R610. [More Information]

2011

Horiuchi, J., Atik, A., Iigaya, K., McDowall, L., Killinger, S., Dampney, R. (2011). Activation of 5-hydroxytryptamine 1a receptors suppresses cardiovascular responses evoked from the paraventricular nucleus. *American Journal of Physiology - Regulatory Integrative and Comparative Physiology*, 301(4), R1088-R1097. [More Information]

Dampney, R. (2011). Arcuate nucleus - a gateway for insulin's action on sympathetic activity. *Journal of Physiology*, 589(9), 2109-2110. [More Information]

Dampney, R. (2011). The hypothalamus and autonomic regulation: An overview. In Ida J. Llewellyn-Smith and Anthony J.M. Verberne (Eds.), *Central Regulation of Autonomic Functions*, (pp. 47-61). New York: Oxford University Press.

2010

Brooks, V., Dampney, R., Heesch, C. (2010). Pregnancy and the endocrine regulation of the baroreceptor reflex. *American Journal of Physiology - Regulatory Integrative and Comparative Physiology*, 299, R439-R451. [More Information]

Iigaya, K., Horiuchi, J., McDowall, L., Dampney, R. (2010). Topographical specificity of regulation of respiratory and renal sympathetic activity by the midbrain dorsolateral periaqueductal gray. *American Journal of Physiology - Regulatory Integrative and Comparative Physiology*, 299(3), R853-R861. [More Information]

2009

Dampney, R. (2009). Blood pressure regulation by C1 neurons in the rostral ventrolateral medulla: new light on the subject. *Journal of Physiology*, 587(23), 5513. [More Information]

Horiuchi, J., McDowall, L., Dampney, R. (2009). Vasomotor and respiratory responses evoked from the dorsolateral periaqueductal grey are mediated by the dorsomedial hypothalamus. *Journal of Physiology*, 587(Pt21), 5149-5162. [More Information]

2008

Dampney, R. (2008). Brain Angiotensin and Heart Failure. Further Evidence for a Critical Role of Mitogen-Activated Protein Kinases. *Hypertension*, 52(4), 621-2. <a

Dampney, R. (2008). Cardiovascular and Respiratory Reflexes: Physiology and Pharmacology. In Phillip A Low (Eds.), *Clinical Autonomic Disorders*, (pp. 43-56). Baltimore: Lippincott Williams and Wilkins, Inc (Wolters Kluwer Health).

Dampney, R., Horiuchi, J., McDowall, L. (2008). Hypothalamic mechanisms coordinating cardiorespiratory function during exercise and defensive behaviour. *Autonomic Neuroscience: Basic and Clinical*, 142, 3-10. [More Information]

Dampney, R. (2008). Is the RVLM a key site for sex-related differences in blood pressure regulation? Focus on Sex differences in angiotensin signaling in bulbospinal neurons..". *American Journal of Physiology: Regulatory, Integrative and Comparative Physiology*, 295(4), R1147-8. [More Information]

Horiuchi, J., McDowall, L., Dampney, R. (2008). Role of 5-HT1A receptors in the lower brainstem on the cardiovascular response to dorsomedial hypothalamus activation. *Autonomic Neuroscience: Basic and Clinical*, 142(1-2), 71-76. [More Information]

2007

Tan, P., Killinger, S., Horiuchi, J., Dampney, R. (2007). Baroreceptor reflex modulation by circulating angiotensin II is mediated by AT1 receptors in the nucleus tractus solitarius. *American Journal of Physiology - Regulatory Integrative and Comparative Physiology*, 293(6), R2267-R2278. [More Information]

Dampney, R., Tan, P., Sheriff, M., Fontes, M., Horiuchi, J. (2007). Cardiovascular effects of angiotensin II in the rostral ventrolateral medulla: the push-pull hypothesis. *Current Hypertension Reports*, 9(3), 222-227. [More Information]

Polson, J., Dampney, R., Boscan, P., Pickering, A., Paton, J. (2007). Differential baroreflex control of sympathetic drive by angiotensin II in the nucleus tractus solitarii. *American Journal of Physiology - Regulatory Integrative and Comparative Physiology*, 293(5), R1954-R1960. [More Information]

McDowall, L., Horiuchi, J., Dampney, R. (2007). Effects of disinhibition of neurons in the dorsomedial hypothalamus on central respiratory drive. *American Journal of Physiology - Regulatory Integrative and Comparative Physiology*, 293(4), 1728-1735. [More Information]

2006

Dampney, R. (2006). Angiotensin type 1A receptors on glial cells in rostral ventrolateral medulla and hypertension. *Hypertension*, 47(6), 1052-3. [More Information]

Sheriff, M., Fontes, M., Killinger, S., Horiuchi, J., Dampney, R. (2006). Blockade of AT1 receptors in the rostral ventrolateral medulla increases sympathetic activity under hypoxic conditions. *American Journal of Physiology - Regulatory*

Integrative and Comparative Physiology, 290(3), R733-R740. [More Information]

McDowall, L., Dampney, R. (2006). Calculation of the Threshold and Saturation Points of Sigmoidal Baroreflex Function Curves. *American Journal of Physiology - Heart and Circulatory Physiology*, 291(4), H2003-H2007. [More Information]

Horiuchi, J., McDowall, L., Dampney, R. (2006). Differential control of cardiac and sympathetic vasomotor activity from the dorsomedial hypothalamus. *Clinical and Experimental Pharmacology and Physiology*, 33(12), 1265-1268. [More Information]

McDowall, L., Horiuchi, J., Killinger, S., Dampney, R. (2006). Modulation of the baroreceptor reflex by the dorsomedial hypothalamic nucleus and perifornical area. *American Journal of Physiology - Regulatory Integrative and Comparative Physiology*, 290(4), R1020-R1026. [More Information]

Horiuchi, J., Dampney, R. (2006). Sympathetic descending pathway and neuro-transmitters of the cardiovascular response during acute stress. *The 29th Annual Meeting of the Japan Neuroscience Society*, Ireland: Elsevier Ireland Ltd.

2005

Horiuchi, J., Wakabayashi, S., Dampney, R. (2005). Activation of 5-Hydroxytryptamine 1A Receptors Suppresses the Cardiovascular Response Evoked From the Dorsomedial Hypothalamic Nucleus. *Hypertension*, 46(1), 173-179. [More Information]

Tan, P., Potas, J., Killinger, S., Horiuchi, J., Goodchild, A., Pilowsky, P., Dampney, R. (2005). Angiotensin II evokes hypotension and renal sympathoinhibition from a highly restricted region in the nucleus tractus solitarius. *Brain Research*, 1036 (1-2), 70-76. [More Information]

McDowall, L., Killinger, S., Dampney, R. (2005). Baroreflex modulation rather than inhibition by disinhibition of nuclei in the vicinity of the hypothalamic defence area. *26th Annual Scientific Meeting of the High Blood Pressure Research Council of Australia*, England: Blackwell Publishing Professionals.

Sheriff, M., Fontes, M., Killinger, S., Dampney, R. (2005). Blockade of angiotensin type 1 receptors (AT1) in the rostral ventrolateral medulla increases sympathetic activity under hypoxic conditions. *35th International Congress of Physiological Sciences*, United States: Federation of American Societies for Experimental Biology.

Dampney, R., Sheriff, M., Horiuchi, J., Killinger, S., Carrive, P. (2005). Effect of chronic angiotensin II infusion on the cardiovascular response to disinhibition of the paraventricular and dorsomedial hypothalamic nuclei. *35th International Congress of Physiological Sciences*, United States: Federation of American Societies for Experimental Biology.

Dampney, R., Horiuchi, J., Killinger, S., Sheriff, M., Tan, P., McDowall, L. (2005). Long-term regulation of arterial blood pressure by hypothalamic nuclei: some critical questions. *Clinical and Experimental Pharmacology and Physiology*, 32(5-6), 419-425. [More Information]

Dampney, R. (2005). Neural mechanisms in obesity-related hypertension. *Experimental Physiology*, 90(5), 671-671.

Horiuchi, J., Wakabayashi, S., Dampney, R. (2005). Role of 5-HT1A receptors in the cardiovascular response elicited from the dorsomedial hypothalamic nucleus in the rat. *35th International Congress of Physiological Sciences*, United States: Federation of American Societies for Experimental Biology.

McDowall, L., Horiuchi, J., Killinger, S., Dampney, R. (2005). The dorsomedial hypothalamic nucleus and perifornical area modulate rather than inhibit the baroreflex in rats. *35th International Congress of Physiological Sciences*, United States: Federation of American Societies for Experimental Biology.

Tan, P., Dampney, R. (2005). The role of AT1 receptors in the area postrema in the modulation of the cardiac and sympathetic components of the baroreflex by circulating angiotensin II. *Clinical and Experimental Pharmacology and Physiology*, 32(7), A2-A2.

2004

Horiuchi, J., Killinger, S., Dampney, R. (2004). Contribution To Sympathetic Vasomotor Tone Of Tonic Glutamatergic Inputs To Neurons In The Rvlm. *American Journal of Physiology - Regulatory Integrative and Comparative Physiology*, 287(6), R1335-R1343. [More Information]

Horiuchi, J., McAllen, R., Allen, A., Killinger, S., Fontes, M., Dampney, R. (2004). Descending vasomotor pathways from the dorsomedial hypothalamic nucleus: role of medullary raphe and RVLm. *American Journal of Physiology - Regulatory Integrative and Comparative Physiology*, 287(4), R824-R832. [More Information]

Potas, J., Dampney, R. (2004). Evidence That Venoconstriction Reverses The Phase Ii Sympathoinhibitory And Bradycardic Response To Haemorrhage. *Autonomic Neuroscience: Basic and Clinical*, 111(1), 1-6. [More Information]

Potas, J., Briscoe, H., Horiuchi, J., Killinger, S., Dampney, R. (2004). Renal Sympathetic And Cardiac Changes Associated With Anaphylactic Hypotension. *Autonomic Neuroscience: Basic and Clinical*, 112(1-2), 25-30. [More Information]

2003

Marsh, A., Fontes, M., Killinger, S., Pawlak, D., Polson, J., Dampney, R. (2003). Cardiovascular responses evoked by Leptin acting on neurons in the ventromedial and dorsomedial hypothalamus. *Hypertension*, 42(4), 488-493. [More Information]

Dampney, R., Horiuchi, J. (2003). Functional organisation of central cardiovascular pathways: studies using c-fos gene expression. *Progress in Neurobiology*, 71(5), 359-384. [More Information]

Dampney, R., Polson, J., Potts, P., Hirooka, Y., Horiuchi, J. (2003). Functional organization of brain pathways subserving the baroreceptor reflex: studies in conscious animals using the immediate early gene expression. *Cellular and Molecular Neurobiology*, 23(4/5), 597-616. [More Information]

Information]

Dampney, R., Horiuchi, J., Tagawa, T., Fontes, M., Potts, P., Polson, J. (2003). Medullary and supramedullary mechanisms regulating sympathetic vasomotor tone. *Acta Physiologica*, 177(3), 209-218. [\[More Information\]](http://dx.doi.org/10.1046/j.1365-201X.2003.01070.x)

Potas, J., Dampney, R. (2003). Sympathoinhibitory pathway from caudal midline medulla to RVLM is independent of baroreceptor reflex pathway. *American Journal of Physiology - Regulatory Integrative and Comparative Physiology*, 284(4), R1071-R1078.

2002

Dampney, R., Coleman, M., Fontes, M., Hirooka, Y., Horiuchi, J., Li, Y., Polson, J., Potts, P., Tagawa, T. (2002). Central mechanisms underlying short and long term regulation of the cardiovascular system. *Clinical and Experimental Pharmacology and Physiology*, 29(4), 261-268. [\[More Information\]](http://dx.doi.org/10.1046/j.1440-1681.2002.03640.x)

Horiuchi, J., Dampney, R. (2002). Evidence for tonic disinhibition of RVLM sympathoexcitatory neurons from the caudal pressor area. *Autonomic Neuroscience: Basic and Clinical*, 99(2), 102-110. [\[More Information\]](http://dx.doi.org/10.1016/S1566-0702(02)00114-5)

Polson, J., Mrljak, S., Potts, P., Dampney, R. (2002). Fos expression in spinally projecting neurons after hypotension in the conscious rabbit. *Autonomic Neuroscience: Basic and Clinical*, 100(1-2), 10-20. [\[More Information\]](http://dx.doi.org/10.1016/S1566-0702(02)00143-1)

Dampney, R., Fontes, M., Horiuchi, J., Potts, P., Tagawa, T., Hirooka, Y. (2002). Role of angiotensin II receptors in the regulation of vasomotor neurons in the ventrolateral medulla. *Clinical and Experimental Pharmacology and Physiology*, 29(5-6), 467-472. [\[More Information\]](http://dx.doi.org/10.1046/j.1440-1681.2002.03658.x)

2001

Fontes, M., Tagawa, T., Polson, J., Dampney, R., Cavanagh, S. (2001). Descending pathways mediating cardiovascular response from dorsomedial hypothalamic nucleus. *American Journal of Physiology - Heart and Circulatory Physiology*, 280(6), H2891-H2901.

Dampney, R., Evans, R., Ventura, S., Ludbrook, J. (2001). Neural mechanisms in the cardiovascular responses to acute central hypovolaemia. *Clinical and Experimental Pharmacology and Physiology*, 28, 479-487. [\[More Information\]](http://dx.doi.org/10.1046/j.1440-1681.2001.03473.x)

1985

Goodchild, A., Dampney, R. (1985). A vasopressor cell group in the rostral dorsomedial medulla of the rabbit. *Brain Research*, 360(1-2), 24-32. [\[More Information\]](http://dx.doi.org/10.1016/0006-8993(85)91216-8)
