

Publications for Stephen Twigg

2019

Piotrowicz, A., McGill, M., Overland, J., Molyneaux, L., Johnson, N., Twigg, S. (2019). An on-line support tool to reduce exercise-related hypoglycaemia and improve confidence to exercise in type 1 diabetes. *Journal of Diabetes and Its Complications*, 33(9), 682-689. [More Information]

Martinez-Huenchullan, S., Ban, L., Olaya, L., Maharjan, B., Williams, P., Tam, C., McLennan, S., Twigg, S. (2019). Constant-Moderate and High-Intensity Interval Training Have Differential Benefits on Insulin Sensitive Tissues in High-Fat Fed Mice. *Frontiers in Physiology*, 10, 1-17. [More Information]

Scully, T., Scott, C., Firth, S., Pintar, J., Twigg, S., Baxter, R. (2019). Contrasting effects of IGF binding protein-3 expression in mammary tumor cells and the tumor microenvironment. *Experimental Cell Research*, 374(1), 38-45. [More Information]

Yeap, B., Hui, J., Knuiman, M., Handelsman, D., Flicker, L., Divitini, M., Arscott, G., McLennan, S., Twigg, S., Almeida, O., et al (2019). Cross-sectional associations of sex hormones with leucocyte telomere length, a marker of biological age, in a community-based cohort of older men. *Clinical Endocrinology*, 90(4), 562-569. [More Information]

Zhang, H., Hamson, E., Koczorowska, M., Tholen, S., Chowdhury, S., Bailey, C., Lay, A., Twigg, S., Lee, Q., Roediger, B., O'Rourke, M., McCaughan, G., Keane, F., Gorrell, M., et al (2019). Identification of novel natural substrates of fibroblast activation protein- α by differential degradomics and proteomics. *Molecular and Cellular Proteomics*, 18(1), 65-85. [More Information]

Dì;½Ambrosio, P., Tran, D., Verrall, C., Attard, C., Fiatarone Singh, M., Ayer, J., d'Udekem, Y., Twigg, S., Celermajer, D., Cordina, R. (2019). Prevalence and risk factors for low bone density in adults with a Fontan circulation. *Congenital Heart Disease*. [More Information]

Johnson, N., Barwick, A., Searle, A., Spink, M., Twigg, S., Chuter, V. (2019). Self-reported physical activity in community-dwelling adults with diabetes and its association with diabetes complications. *Journal of Diabetes and Its Complications*, 33(1), 33-38. [More Information]

2018

Twigg, S., Escalada, J., Stella, P., Merino-Trigo, A., Lavallo-Gonzalez, F., Cariou, B., Meneghini, L. (2018). Association of Patient Profile with Glycemic Control and Hypoglycemia with Insulin Glargine 300 U/mL in Type 2 Diabetes: A Post Hoc Patient-Level Meta-Analysis. *Diabetes Therapy*, 9(5), 2043-2053. [More Information]

x">[More Information]

Zhang, H., Brewer, K., Jeffrey, G., Twigg, S., McCaughan, G., Williams, K., Adams, L., Gorrell, M. (2018). Circulating Fibroblast Activation Protein activity as a liver fibrosis biomarker in NAFLD. *Journal of Hepatology*, 66(1), S666-S667. [More Information]

Martinez Huenchullan, S., Maharjan, B., Williams, P., Tam, C., McLennan, S., Twigg, S. (2018). Differential metabolic effects of constant moderate versus high intensity interval training in high-fat fed mice: possible role of muscle adiponectin. *Physiological Reports*, 6(4), 1-16. [More Information]

Williams, K., Burns, K., Twigg, S. (2018). Differing clinical phenotype for higher alanine-aminotransferase (ALT) compared with high-risk NAFLD fibrosis score in type 2 diabetes mellitus. *Journal of Diabetes and Its Complications*, 32(3), 321-324. [More Information]

Scully, T., Scott, C., Firth, S., Sedger, L., Pintar, J., Twigg, S., Baxter, R. (2018). Enhancement of mammary tumor growth by IGFBP-3 involves impaired T cell accumulation. *Endocrine-Related Cancer*, 25(2), 111-122. [More Information]

Twigg, S. (2018). Regulation and bioactivity of the CCN family of genes and proteins in obesity and diabetes. *Journal of Cell Communication and Signaling*, 12(1), 359-368. [More Information]

Martinez Huenchullan, S., Maharjan, B., Williams, P., Tam, C., McLennan, S., Twigg, S. (2018). Skeletal muscle adiponectin induction depends on diet, muscle type/activity, and exercise modality in C57BL/6 mice. *Physiological Reports*, 6(19), 1-9. [More Information]

2017

Middleton, T., Wong, J., Molyneaux, L., Brooks, B., Yue, D., Twigg, S., Wu, T. (2017). Cardiac effects of sulfonylurea-related hypoglycemia. *Diabetes Care*, 40(5), 663-670. [More Information]

Hsieh, A., Twigg, S., Chua, E. (2017). Changing trends for diagnostic methods in Graves disease in Australia: an immunological diagnosis as the emerging preference. *Internal Medicine Journal*, 47(12), 1464-1465. [More Information]

Constantino, M., Molyneaux, L., Wu, T., Twigg, S., Wong, J., Yue, D. (2017). Data collection on retinopathy as a public health tool: the Hubble telescope equivalent of looking back in time. *Journal of Diabetes and Its Complications*, 31(4), 721-725. [More Information]

Twigg, S., Kazemi, M., Craig, M. (2017). Flash continuous glucose monitoring and its IMPACT to REPLACE blood glucose monitoring in the management of type 1 and type 2 diabetes. *U S Endocrinology*, 13(2), 57-62. [More Information]

Abdollahi, M., Ng, T., Rezaeizadeh, A., Aamidor, S., Twigg, S., Min, D., McLennan, S. (2017). Insulin treatment prevents wounding associated changes in tissue and circulating neutrophil MMP-9 and NGAL in diabetic rats. *PLoS One*, 12(2), e0170951. [More Information]

McLennan, S., Min, D., Wang, X., Twigg, S. (2017). Method for Analysis of Matrix Degradation by CCN2 Through the MMP/TIMP System. *Methods in Molecular Biology*, CCN Proteins: Methods and Protocols vol.1489, 523-532. [More Information]

Lanting, S., Twigg, S., Johnson, N., Baker, M., Caterson, I., Chuter, V. (2017). Non-invasive lower limb small arterial measures co-segregate strongly with foot complications in people with diabetes. *Journal of Diabetes and Its Complications*, 31(3), 589-593. [More Information]

Shankara-Narayana, N., Kean, A., Ewans, L., Ohnesorg, T., Ayers, K., Watson, G., Vasilaras, A., Sinclair, A., Twigg, S., Handelsman, D. (2017). Painful ovulation in a 46,XX SRY -ve adult male with SOX9 duplication. *Endocrinology, Diabetes & Metabolism Case Reports*, June 2017, 1-7. [More Information]

Lanting, S., Barwick, A., Twigg, S., Johnson, N., Baker, M., Chiu, S., Caterson, I., Chuter, V. (2017). Post-occlusive reactive hyperaemia of skin microvasculature and foot complications in type 2 diabetes. *Journal of Diabetes and Its Complications*, 31(8), 1305-1310. [More Information]

Martinez Huenchullan, S., McLennan, S., Verhoeven, A., Twigg, S., Tam, C. (2017). The emerging role of skeletal muscle extracellular matrix remodelling in obesity and exercise. *Obesity Reviews*, 18, 776-790. [More Information]

Martinez Huenchullan, S., McLennan, S., Ban, L., Morsch, M., Twigg, S., Tam, C. (2017). Utility and reliability of non-invasive muscle function tests in high-fat-fed mice. *Experimental Physiology*, 102(7), 773-778. [More Information]

2016

Al-Saeed, A., Constantino, M., Molyneaux, L., D'Souza, M., Limacher-Gisler, F., Luo, C., Wu, T., Twigg, S., Yue, D., Wong, J. (2016). An Inverse Relationship Between Age of Type 2 Diabetes Onset and Complication Risk and Mortality: The Impact of Youth-Onset Type 2 Diabetes. *Diabetes Care*, 39(5), 823-829. [More Information]

Yeap, B., Knuiaman, M., Divitini, M., Hui, J., Arcsott, G., Handelsman, D., McLennan, S., Twigg, S., McQuillan, B., Hung, J., et al (2016). Epidemiological and mendelian randomization studies of dihydrotestosterone and estradiol and leukocyte telomere length in men. *The Journal of Clinical*

Endocrinology and Metabolism, 101(3), 1299-1306. [More Information]

Lee, A., Brooks, B., Simmons, L., Kilborn, M., Wong, J., Twigg, S., Yue, D. (2016). Hypoglycaemia and QT interval prolongation: Detection by simultaneous Holter and continuous glucose monitoring. *Diabetes Research and Clinical Practice*, 113, 211-214. [More Information]

Scully, T., Firth, S., Scott, C., de Silva, H., Pintar, J., Chan-Ling, T., Twigg, S., Baxter, R. (2016). Insulin-like growth factor binding protein-3 links obesity and breast cancer progression. *Oncotarget*, 7(34), 55491-55505. [More Information]

Williams, K., Sullivan, D., Veillard, A., O'Brien, R., George, J., Jenkins, A., Young, S., Ehnholm, C., Duffield, A., Twigg, S., Keech, A. (2016). Low alanine aminotransferase levels and higher number of cardiovascular events in people with Type 2 diabetes: analysis of the Fenofibrate Intervention and Event Lowering in Diabetes (FIELD) study. *Diabetic Medicine*, 33(3), 356-364. [More Information]

Min, D., Brooks, B., Wong, J., Aamidor, S., Seehoo, R., Sutanto, S., Harrisberg, B., Yue, D., Twigg, S., McLennan, S. (2016). Monocyte CD163 is altered in association with diabetic complications: possible protective role. *Journal of Leukocyte Biology*, 100(6), 1375-1383. [More Information]

Twigg, S., Daja, M., O'Leary, B., Adena, M. (2016). Once-daily liraglutide (1.2 mg) compared with twice-daily exenatide (10 µg) in the treatment of type 2 diabetes patients: An indirect treatment comparison meta-analysis. *Journal of Diabetes*, 8(6), 866-876. [More Information]

Williams, K., Sullivan, D., Nicholson, G., George, J., Jenkins, A., Januszewski, A., GebSKI, V., Manning, P., Tan, Y., Donoghoe, M., Buizen, L., Twigg, S., Keech, A., et al (2016). Opposite associations between alanine aminotransferase and $\hat{\text{F}}^3$ -glutamyl transferase levels and all-cause mortality in type 2 diabetes: Analysis of the Fenofibrate Intervention and Event Lowering in Diabetes (FIELD) study. *Metabolism: Clinical and Experimental*, 65(5), 783-793. [More Information]

Januszewski, A., Sutanto, S., McLennan, S., O'Neal, D., Keech, A., Twigg, S., Jenkins, A. (2016). Shorter telomeres in adults with Type 1 diabetes correlate with diabetes duration, but only weakly with vascular function and risk factors. *Diabetes Research and Clinical Practice*, 117, 4-11. [More Information]

2015

Lee, A., Twigg, S. (2015). A mitotic cause of Whipple's triad: Non-islet cell tumour hypoglycaemia in incurable low-grade malignancy. *BMJ Case Reports*, 2015, 1-3. [More Information]

Williams, K., Burns, K., Constantino, M., Shackel, N., Prakoso, E., Wong, J., Wu, T., George, J., McCaughan, G., Twigg, S. (2015). An association of large-fibre peripheral nerve

dysfunction with non-invasive measures of liver fibrosis secondary to non-alcoholic fatty liver disease in diabetes. *Journal of Diabetes and Its Complications*, 29(8), 1240-1247. [More Information]

Song (Wen Chao), W., McLennan, S., Tam, C., Williams, P., Baxter, R., Twigg, S. (2015). CCN2 requires TGF- β signalling to regulate CCAA T/enhancer binding proteins and inhibit fat cell differentiation. *Journal of Cell Communication and Signaling*, 9(1), 27-36. [More Information]

Caillaud, C., Mechta, M., Ainge, H., Madsen, A., Ruell, P., Mas, E., Bisbal, C., Mercier, J., Twigg, S., Mori, T., et al (2015). Chronic erythropoietin treatment improves diet-induced glucose intolerance in rats. *Journal of Endocrinology*, 225(2), 77-88. [More Information]

Williams, K., Vieira de Ribeiro, A., Prakoso, E., Veillard, A., Shackel, N., Brooks, B., Bu, Y., Cavanagh, E., Raleigh, J., McLennan, S., McCaughan, G., Keane, F., Gorrell, M., Twigg, S., et al (2015). Circulating Dipeptidyl Peptidase-4 Activity Correlates with Measures of Hepatocyte Apoptosis and Fibrosis in NAFLD in Type 2 Diabetes Mellitus and Obesity: A Dual Cohort Cross-Sectional Study. *Journal of Diabetes*, 7(6), 809-819. [More Information]

Rhou, Y., Henshaw, F., McGill, M., Twigg, S. (2015). Congestive heart failure presence predicts delayed healing of foot ulcers in diabetes: An audit from a multidisciplinary high-risk foot clinic. *Journal of Diabetes and Its Complications*, 29(4), 556-562. [More Information]

Alharbi, T., Constantino, M., Molyneaux, L., Wu, T., Twigg, S., Yue, D., Wong, J. (2015). Ethnic specific differences in survival of patients with type 2 diabetes: Analysis of data collected from an Australian multi-ethnic cohort over a 25 year period. *Diabetes Research and Clinical Practice*, 107(1), 130-138. [More Information]

Williams, K., Vieira de Ribeiro, A., Prakoso, E., Veillard, A., Shackel, N., Bu, Y., Brooks, B., Cavanagh, E., Raleigh, J., McLennan, S., McCaughan, G., Keane, F., Twigg, S., Gorrell, M., et al (2015). Lower serum fibroblast activation protein shows promise in the exclusion of clinically significant liver fibrosis due to non-alcoholic fatty liver disease in diabetes and obesity. *Diabetes Research and Clinical Practice*, 108(3), 466-472. [More Information]

Lee, A., Twigg, S. (2015). Opioid-induced secondary adrenal insufficiency presenting as hypercalcaemia. *Endocrinology, Diabetes & Metabolism Case Reports*, 2015, 1-5. [More Information]

Pham-Short, A., Donaghue, K., Ambler, G., Phelan, H., Twigg, S., Craig, M. (2015). Screening for Celiac Disease in Type 1 Diabetes: A Systematic Review. *Pediatrics*, 136(1), e170-e176. [More Information]

Nutrition and Diabetes, 5, 1-4. [More Information]

Tam, C., Power, J., Markovic, T., Yee, C., Morsch, M., McLennan, S., Twigg, S. (2015). The effects of high-fat feeding on physical function and skeletal muscle extracellular matrix. *Nutrition and Diabetes*, 5(12), 1-4. [More Information]

Twigg, S., Wong, J. (2015). The imperative to prevent diabetes complications: A broadening spectrum and an increasing burden despite improved outcomes. *Medical Journal of Australia*, 202(6), 300-306. [More Information]

Henshaw, F., Boughton, P., Lo, L., McLennan, S., Twigg, S. (2015). Topically Applied Connective Tissue Growth Factor (CTGF)/CCN2 Improves Diabetic Preclinical Cutaneous Wound Healing: Potential Role for CTGF in Human Diabetic Foot Ulcer Healing. *Journal of Diabetes Research*, 2015, 1-10. [More Information]

2014

Hsieh, A., Ong, P., Molyneaux, L., McGill, M., Constantino, M., Wu, T., Wong, J., Yue, D., Twigg, S. (2014). Age of diabetes diagnosis and diabetes duration associate with glycated haemoglobin. *Diabetes Research and Clinical Practice*, 104(1), e1-e4. [More Information]

Azzi, M., Constantino, M., Pont, L., McGill, M., Twigg, S., Krass, I. (2014). Medication Safety: an audit of medication discrepancies in transferring type 2 diabetes mellitus (T2DM) patients from Australian primary care to tertiary ambulatory care. *International Journal for Quality in Health Care*, 26(4), 397-403. [More Information]

Keane, F., Yao, T., Seelk, S., Gall, M., Chowdhury, S., Poplawski, S., Lai, J., Li, Y., Wu, W., Farrell, P., Vieira de Ribeiro, A., Osborne, B., Yu, M., Seth, D., Haber, P., Wang, C., Thomson, S., Twigg, S., McLennan, S., McCaughan, G., Gorrell, M., et al (2014). Quantitation of fibroblast activation protein (FAP)-specific protease activity in mouse, baboon and human fluids and organs. *FEBS Open Bio*, 4, 43-54. [More Information]

Scott, C., Bonner, J., Min, D., Boughton, P., Stokes, R., Cha, K., Walters, S., Masolowski, K., Sierro, F., Grey, S., Twigg, S., McLennan, S., Gunton, J. (2014). Reduction of ARNT in myeloid cells causes immune suppression and delayed wound healing. *American Journal of Physiology: Cell Physiology*, 307(4), C349-C357. [More Information]

Hsieh, A., Twigg, S. (2014). The enigma of the dead-in-bed syndrome: Challenges in predicting and preventing this devastating complication of type 1 diabetes. *Journal of Diabetes and Its Complications*, 28, 585-587. [More Information]

Shun, C., Donaghue, K., Phelan, H., Twigg, S., Craig, M. (2014). Thyroid autoimmunity in Type 1 diabetes: systematic review and meta-analysis. *Diabetic Medicine*, 31(2), 126-135. [More Information]

Information]

Henshaw, F., Bolton, T., Nube, V., Hood, A., Veldhoen, D., Pfrunder, L., McKew, G., Macleod, C., McLennan, S., Twigg, S. (2014). Topical application of the bee hive protectant propolis is well tolerated and improves human diabetic foot ulcer healing in a prospective feasibility study. *Journal of Diabetes and Its Complications*, 28(6), 850-857. [More Information]

2013

Hibbert, E., Lambert, T., Carter, J., Learoyd, D., Twigg, S., Clarke, S. (2013). A randomized controlled pilot trial comparing the impact of access to clinical endocrinology video demonstrations with access to usual revision resources on medical student performance of clinical endocrinology skills. *BMC Medical Education*, 13(1), 1-10. [More Information]

Klocker, A., Phelan, H., Twigg, S., Craig, M. (2013). Blood β -hydroxybutyrate vs. urine acetoacetate testing for the prevention and management of ketoacidosis in Type 1 diabetes: a systematic review. *Diabetic Medicine*, 30(7), 818-824. [More Information]

Tsoutsman, T., Wang, X., Garchow, K., Riser, B., Twigg, S., Semsarian, C. (2013). CCN2 plays a key role in extracellular matrix gene expression in severe hypertrophic cardiomyopathy and heart failure. *Journal of Molecular and Cellular Cardiology*, 62, 164-178. [More Information]

McLennan, S., Abdollahi, M., Twigg, S. (2013). Connective tissue growth factor, matrix regulation, and diabetic kidney disease. *Current Opinion In Nephrology And Hypertension*, 22(1), 85-92. [More Information]

Tan, J., McLennan, S., Williams, P., Rezaeizadeh, A., Lo, L., Bonner, J., Twigg, S. (2013). Connective tissue growth factor/CCN-2 is upregulated in epididymal and subcutaneous fat depots in a dietary-induced obesity model. *American Journal of Physiology - Endocrinology and Metabolism*, 304(12), E1291-E1302. [More Information]

Williams, K., Shackel, N., Gorrell, M., McLennan, S., Twigg, S. (2013). Diabetes and Nonalcoholic Fatty Liver Disease: A Pathogenic Duo. *Endocrine Reviews*, 34(1), 84-129. [More Information]

Monkaresi, H., Calvo, R., Chow, K., Mullan, B., Lam, M., Twigg, S., Cook, D. (2013). Intelligent Diabetes Lifestyle Coach. *25th Australian Computer-Human Interaction Conference: Augmentation, Application, Innovation, Collaboration (OzCHI 2013)*, New York: Association for Computing Machinery (ACM).

Constantino, M., Molyneaux, L., Limacher-Gisler, F., Al-Saaed, A., Luo, C., Wu, T., Twigg, S., Yue, D., Wong, J. (2013). Long-Term Complications and Mortality in Young-Onset Diabetes: Type 2 diabetes is more hazardous and lethal than type 1 diabetes. *Diabetes Care*, 36(12), 3863-3869. [More Information]

2012

Baur, L., Twigg, S., Magnusson, R. (2012). *A Modern Epidemic: Expert Perspectives on Obesity and Diabetes*. Sydney, Australia: Sydney University Press.

Min, D., Brooks, B., Wong, J., Salomon, R., Bao, W., Harrisberg, B., Twigg, S., Yue, D., McLennan, S. (2012). Alterations in Monocyte CD16 in Association with Diabetes Complications. *Mediators of Inflammation*, 2012, 1-10. [More Information]

de Silva, H., Firth, S., Twigg, S., Baxter, R. (2012). Interaction Between IGF Binding Protein-3 and TGF β in the Regulation of Adipocyte Differentiation. *Endocrinology*, 153(10), 4799-4807. [More Information]

Twigg, S., McLennan, S. (2012). Managing diabetes complications in the clinical arena. In Louise A. Baur, Stephen M. Twigg, Roger S. Magnusson (Eds.), *A Modern Epidemic: Expert Perspectives on Obesity and Diabetes*, (pp. 353-371). Sydney, Australia: Sydney University Press.

Ly, L., Twigg, S., Tran, D., Nguyen, K. (2012). Most type 1 diabetes presenting as diabetic ketoacidosis in Vietnamese people is negative for pancreatic islet cell autoantibodies. *Diabetes Research and Clinical Practice*, 96(3), e63-e65. [More Information]

Jiwa, M., Meng, X., Sriram, D., Hughes, J., Colagiuri, S., Twigg, S., Skinner, T., Shaw, T. (2012). The management of Type 2 diabetes: A survey of Australian general practitioners. *Diabetes Research and Clinical Practice*, 95(3), 326-332. [More Information]

d'Emden, M., Shaw, J., Colman, P., Colagiuri, S., Twigg, S., Jones, G., Goodall, I., Schneider, H., Australian Diabetes Society, A., Royal College of Pathologists of Australasia, R., Cheung, N., et al (2012). The role of HbA1c in the diagnosis of diabetes mellitus in Australia. *Medical Journal of Australia*, 197(4), 220-221. [More Information]

2011

Zimmet, P., Campbell, L., Toomath, R., Twigg, S., Wittert, G., Proietto, J. (2011). Bariatric surgery to treat severely obese patients with type 2 diabetes: A consensus statement. *Obesity Research & Clinical Practice*, 5(1), e71-e78. [More Information]

Wang, X., McLennan, S., Twigg, S. (2011). CCN-2 is up-regulated by and mediates effects of matrix bound advanced glycosylated end-products in human renal mesangial cells. *Journal of Cell Communication and Signaling*, 5(3), 193-200. [More Information]

Jones, G., Barker, G., Goodall, I., Schneider, H., Shephard, M., Twigg, S. (2011). Change of HbA1c reporting to the new SI units. *Medical Journal of Australia*, 195(1), 45-46. [More Information]

Lo, L., McLennan, S., Williams, P., Bonner, J., Chowdhury, S., McCaughan, G., Gorrell, M., Yue, D., Twigg, S. (2011). Diabetes is a progression factor for hepatic fibrosis in a high fat fed mouse obesity model of non-alcoholic steatohepatitis. *Journal of Hepatology*, 55(2), 435-444. [More Information]

Information]

Hart, S., Abraham, S., Franklin, R., Twigg, S., Russell, J. (2011). Hypoglycaemia following a mixed meal in eating disorder patients. *Postgraduate Medical Journal*, 87(1028), 405-409. [More Information]

Twigg, S., Craig, M., Cheung, N., Donaghue, K., Jenkins, A., Conn, J., Cameron, F. (2011). *National Evidence-Based Clinical Care Guidelines for Type 1 Diabetes in Children, Adolescents and Adults*. Australia: Australian Government Department of Health and Age, Australia.

Jones, G., Barker, G., Goodall, I., Schneider, H., Shephard, M., Twigg, S. (2011). Reply: Change of glycated haemoglobin (HbA1c) reporting to the new SI units. *Medical Journal of Australia*, 195(9), 514-515. [More Information]

Twigg, S., Irvine, S., Laesk, A., Perbal, B. (2011). Report on the 6th international workshop of the CCN family of genes. *Journal of Cell Communication and Signaling*, 5(1), 1-3. [More Information]

Perera, N., Molyneaux, L., Constantino, M., McGill, M., Yue, D., Twigg, S., Ross, G. (2011). Suboptimal Performance of Blood Glucose Meters in an Antenatal Diabetes Clinic. *Diabetes Care*, 34(2), 335-337. [More Information]

Perera, N., Stewart, P., Williams, P., Chua, E., Yue, D., Twigg, S. (2011). The danger of using inappropriate point-of-care glucose meters in patients on icodextrin dialysis. *Diabetic Medicine*, 28(10), 1272-1276. [More Information]

Perera, N., Harding, A., Constantino, M., Molyneaux, L., McGill, M., Chua, E., Twigg, S., Ross, G., Yue, D. (2011). Triple-B (basal-bolus-booster) subcutaneous insulin regimen: A pragmatic approach to managing hospital inpatient hyperglycaemia. *Practical Diabetes*, 28(6), 266-269. [More Information]

2010

Thomson, S., McLennan, S., Hennessy, A., Boughton, P., Bonner, J., Zoellner, H., Yue, D., Twigg, S. (2010). A novel primate model of delayed wound healing in diabetes: dysregulation of connective tissue growth factor. *Diabetologia*, 53, 572-583. [More Information]

Chadban, S., Howell, M., Twigg, S., Thomas, M., Cass, A., Campbell, D., Tong, A., Tong, A., Colagiuri, R., Colagiuri, S., Craig, J., et al (2010). Assessment of kidney function in type 2 diabetes. *Nephrology*, 15(S1), S146-S161. [More Information]

Wong, J., Molyneaux, L., Constantino, M., Twigg, S., Yue, D. (2010). Beyond ONTARGET: Angiotensin-Converting Enzyme Inhibition and Angiotensin II Receptor Blockade in Combination, a Lesser Evil in Some? *Diabetes, Obesity and Metabolism*, 12(12), 1072-1078. [More Information]

Chadban, S., Howell, M., Twigg, S., Thomas, M., Jerums, G., Cass, A., Campbell, D., Nicholls, K., Tong, A., Mangos, G., et

al (2010). Cost-effectiveness and socioeconomic implications of prevention and management of chronic kidney disease in type 2 diabetes. *Nephrology*, 15(Sup 1), S195-S203. [More Information]

Wang, B., Herman-Edelstein, M., Koh, P., Burns, W., Jandeleit-Dahm, K., Watson, A., Saleem, M., Goodall, G., Twigg, S., Cooper, M., et al (2010). E-Cadherin Expression Is Regulated by miR-192/215 by a Mechanism That Is Independent of the Profibrotic Effects of Transforming Growth Factor- β . *Diabetes*, 59(7), 1794-1802. [More Information]

Fulcher, G., Colagiuri, S., Phillips, P., Prins, J., Sinha, A., Twigg, S., Dalton, B. (2010). Insulin Intensification for People with Type 2 Diabetes: A Practical Approach. *Australasian Medical Journal*, 3(12), 808-813. [More Information]

Bao, W., Min, D., Twigg, S., Shackel, N., Warner, F., Yue, D., McLennan, S. (2010). Monocyte CD147 is induced by advanced glycation end products and high glucose concentration: possible role in diabetic complications. *American Journal of Physiology: Cell Physiology*, 299(5), C1212-C1219. [More Information]

Tu, E., Bagnall, R., Duflou, J., Lynch, M., Twigg, S., Semsarian, C. (2010). Post-mortem pathologic and genetic studies in "dead in bed syndrome" cases in type 1 diabetes mellitus. *Human Pathology*, 41(3), 392-400. [More Information]

Chadban, S., Howell, M., Twigg, S., Thomas, M., Jerums, G., Cass, A., Campbell, D., Nicholls, K., Tong, A., Mangos, G., et al (2010). Prevention and management of chronic kidney disease in type 2 diabetes. *Nephrology*, 15(S1), S162-S194. [More Information]
