

Publications for Susan McLennan

2018

Martinez Huenchullan, S., Maharjan, B., Williams, P., Tam, C., McLennan, S., Twigg, S. (2018). Differential metabolic effects of constant moderate versus high intensity interval training in high-fat fed mice: possible role of muscle adiponectin. *Physiological Reports*, 6(4), 1-16. [More Information]

Martinez Huenchullan, S., Maharjan, B., Williams, P., Tam, C., McLennan, S., Twigg, S. (2018). Skeletal muscle adiponectin induction depends on diet, muscle type/activity, and exercise modality in C57BL/6 mice. *Physiological Reports*, 6(19), 1-9. [More Information]

2017

Malone, M., Johani, K., Jensen, S., Gosbell, I., Dickson, H., McLennan, S., Hu, H., Vickery, K. (2017). Effect of cadexomer iodine on the microbial load and diversity of chronic non-healing diabetic foot ulcers complicated by biofilm in vivo. *The Journal of Antimicrobial Chemotherapy*, 72, 2093-2101. [More Information]

Olaya, L., Hyett, J., McLennan, S. (2017). Effects of sample processing and storage on the integrity of cell-free miRNAs in maternal plasma. *Prenatal Diagnosis*, 37(8), 744-749. [More Information]

Abdollahi, M., Ng, T., Rezaeizadeh, A., Aamidor, S., Twigg, S., Min, D., McLennan, S. (2017). Insulin treatment prevents wounding associated changes in tissue and circulating neutrophil MMP-9 and NGAL in diabetic rats. *PLoS One*, 12(2), e0170951. [More Information]

McLennan, S., Min, D., Wang, X., Twigg, S. (2017). Method for Analysis of Matrix Degradation by CCN2 Through the MMP/TIMP System. *Methods in Molecular Biology*, CCN2 Proteins: Methods and Protocols vol.1489, 523-532. [More Information]

Martinez Huenchullan, S., McLennan, S., Verhoeven, A., Twigg, S., Tam, C. (2017). The emerging role of skeletal muscle extracellular matrix remodelling in obesity and exercise. *Obesity Reviews*, 18, 776-790. [More Information]

Martinez Huenchullan, S., McLennan, S., Ban, L., Morsch, M., Twigg, S., Tam, C. (2017). Utility and reliability of non-invasive muscle function tests in high-fat-fed mice. *Experimental Physiology*, 102(7), 773-778. [More Information]

2016

Lee, A., Rode, A., Nicoll, A., Maczurek, A., Lim, L., Lim, S., Angus, P., Kronborg, I., Arachchi, N., Gorelik, A., Warner, F., McCaughan, G., McLennan, S., Shackel, N., et al (2016). Circulating CD147 predicts mortality in advanced

hepatocellular carcinoma. *Journal of Gastroenterology and Hepatology*, 31(2), 459-466. [More Information]

Yeap, B., Knuiman, M., Divitini, M., Hui, J., Arscott, G., Handelsman, D., McLennan, S., Twigg, S., McQuillan, B., Hung, J., et al (2016). Epidemiological and mendelian randomization studies of dihydrotestosterone and estradiol and leukocyte telomere length in men. *The Journal of Clinical Endocrinology and Metabolism*, 101(3), 1299-1306. [More Information]

Ban, L., Shackel, N., McLennan, S. (2016). Extracellular vesicles: A new frontier in biomarker discovery for non-alcoholic fatty liver disease. *International Journal of Molecular Sciences*, 17(3), 1-14. [More Information]

Min, D., Brooks, B., Wong, J., Aamidor, S., Seehoo, R., Sutanto, S., Harrisberg, B., Yue, D., Twigg, S., McLennan, S. (2016). Monocyte CD163 is altered in association with diabetic complications: possible protective role. *Journal of Leukocyte Biology*, 100(6), 1375-1383. [More Information]

Januszewski, A., Sutanto, S., McLennan, S., O'Neal, D., Keech, A., Twigg, S., Jenkins, A. (2016). Shorter telomeres in adults with Type 1 diabetes correlate with diabetes duration, but only weakly with vascular function and risk factors. *Diabetes Research and Clinical Practice*, 117, 4-11. [More Information]

2015

Song (Wen Chao), W., McLennan, S., Tam, C., Williams, P., Baxter, R., Twigg, S. (2015). CCN2 requires TGF- β 2 signalling to regulate CCAA T/enhancer binding proteins and inhibit fat cell differentiation. *Journal of Cell Communication and Signaling*, 9(1), 27-36. [More Information]

Williams, K., Vieira de Ribeiro, A., Prakoso, E., Veillard, A., Shackel, N., Brooks, B., Bu, Y., Cavanagh, E., Raleigh, J., McLennan, S., McCaughan, G., Keane, F., Gorrell, M., Twigg, S., et al (2015). Circulating Dipeptidyl Peptidase-4 Activity Correlates with Measures of Hepatocyte Apoptosis and Fibrosis in NAFLD in Type 2 Diabetes Mellitus and Obesity: A Dual Cohort Cross-Sectional Study. *Journal of Diabetes*, 7(6), 809-819. [More Information]

Duly, A., Alani, B., Huang, E., Yee, C., Haber, P., McLennan, S., Seth, D. (2015). Effect of multiple binge alcohol on diet-induced liver injury in a mouse model of obesity. *Nutrition and Diabetes*, 5, 1-9. [More Information]

Tu, T., Calabro, S., Lee, A., Maczurek, A., Budzinska, M., Warner, F., McLennan, S., Shackel, N. (2015). Hepatocytes in liver injury: victim, bystander, or accomplice in progressive

fibrosis? *Journal of Gastroenterology and Hepatology*, 30(12), 1696-1704. [More Information]

Williams, K., Vieira de Ribeiro, A., Prakoso, E., Veillard, A., Shackel, N., Bu, Y., Brooks, B., Cavanagh, E., Raleigh, J., McLennan, S., McCaughan, G., Keane, F., Twigg, S., Gorrell, M., et al (2015). Lower serum fibroblast activation protein shows promise in the exclusion of clinically significant liver fibrosis due to non-alcoholic fatty liver disease in diabetes and obesity. *Diabetes Research and Clinical Practice*, 108(3), 466-472. [More Information]

Tam, C., Power, J., Markovic, T., Yee, C., Morsch, M., McLennan, S., Twigg, S. (2015). The effects of high-fat feeding on physical function and skeletal muscle extracellular matrix. *Nutrition and Diabetes*, 5, 1-4. [More Information]

Tam, C., Power, J., Markovic, T., Yee, C., Morsch, M., McLennan, S., Twigg, S. (2015). The effects of high-fat feeding on physical function and skeletal muscle extracellular matrix. *Nutrition and Diabetes*, 5(12), 1-4. [More Information]

Henshaw, F., Boughton, P., Lo, L., McLennan, S., Twigg, S. (2015). Topically Applied Connective Tissue Growth Factor (CTGF)/CCN2 Improves Diabetic Preclinical Cutaneous Wound Healing: Potential Role for CTGF in Human Diabetic Foot Ulcer Healing. *Journal of Diabetes Research*, 2015, 1-10. [More Information]

2014

Calabro, S., Maczurek, A., Morgan, A., Tu, T., Wen, V., Yee, C., Mridha, A., Lee, M., D'Avigdor, W., Locarnini, S., McCaughan, G., Warner, F., McLennan, S., Shackel, N. (2014). Hepatocyte Produced Matrix Metalloproteinases Are Regulated by CD147 in Liver Fibrogenesis. *PloS One*, 9(7), 1-15. [More Information]

McGrath, K., Li, X., Whitworth, P., Kasz, R., Tan, J., McLennan, S., Celermajer, D., Barter, P., Rye, K., Heather, A. (2014). High density lipoproteins improve insulin sensitivity in high-fat diet-fed mice by suppressing hepatic inflammation. *Journal of Lipid Research*, 55(3), 421-430. [More Information]

Tu, T., Budzinska, M., Maczurek, A., Cheng, R., Di Bartolomeo, A., Warner, F., McCaughan, G., McLennan, S., Shackel, N. (2014). Novel aspects of the liver microenvironment in hepatocellular carcinoma pathogenesis and development. *International Journal of Molecular Sciences*, 15(6), 9422-9458. [More Information]

Keane, F., Yao, T., Seelk, S., Gall, M., Chowdhury, S., Poplawski, S., Lai, J., Li, Y., Wu, W., Farrell, P., Vieira de Ribeiro, A., Osborne, B., Yu, M., Seth, D., Haber, P., Wang, C., Thomson, S., Twigg, S., McLennan, S., McCaughan, G., Gorrell, M., et al (2014). Quantitation of fibroblast activation protein (FAP)-specific protease activity in mouse, baboon and human fluids and organs. *FEBS Open Bio*, 4, 43-54. [More Information]

Scott, C., Bonner, J., Min, D., Boughton, P., Stokes, R., Cha, K., Walters, S., Masolowski, K., Sierro, F., Grey, S., Twigg, S., McLennan, S., Gunton, J. (2014). Reduction of ARNT in myeloid cells causes immune suppression and delayed wound healing. *American Journal of Physiology: Cell Physiology*, 307(4), C349-C357. [More Information]

Farrell, G., Mridha, A., Yeh, M., Arsov, T., Van Rooyen, D., Brooling, J., Nguyen, T., Heydet, D., Delghingaro-Augusto, V., Nolan, C., Shackel, N., McLennan, S., et al (2014). Strain dependence of diet-induced NASH and liver fibrosis in obese mice is linked to diabetes and inflammatory phenotype. *Liver International*, 34(7), 1084-1093. [More Information]

Henshaw, F., Bolton, T., Nube, V., Hood, A., Veldhoen, D., Pfrunder, L., McKew, G., Macleod, C., McLennan, S., Twigg, S. (2014). Topical application of the bee hive protectant propolis is well tolerated and improves human diabetic foot ulcer healing in a prospective feasibility study. *Journal of Diabetes and Its Complications*, 28(6), 850-857. [More Information]

2013

Boughton, E., McLennan, S. (2013). Biomimetic scaffolds for skin tissue and wound repair. In Andrew J Ruys (Eds.), *Biomimetic biomaterials: Structure and applications*, (pp. 153-180). Cambridge: Woodhead Publishing Ltd. [More Information]

McLennan, S., Abdollahi, M., Twigg, S. (2013). Connective tissue growth factor, matrix regulation, and diabetic kidney disease. *Current Opinion In Nephrology And Hypertension*, 22(1), 85-92. [More Information]

Tan, J., McLennan, S., Williams, P., Rezaeizadeh, A., Lo, L., Bonner, J., Twigg, S. (2013). Connective tissue growth factor/CCN-2 is upregulated in epididymal and subcutaneous fat depots in a dietary-induced obesity model. *American Journal of Physiology - Endocrinology and Metabolism*, 304(12), E1291-E1302. [More Information]

Williams, K., Shackel, N., Gorrell, M., McLennan, S., Twigg, S. (2013). Diabetes and Nonalcoholic Fatty Liver Disease: A Pathogenic Duo. *Endocrine Reviews*, 34(1), 84-129. [More Information]

McLennan, S., Warner, F., Shackel, N. (2013). The role of CD147 in Liver Injury - "The truth is in the details" - letter to the editor. *Journal of Hepatology*, 58(4), 836-837. [More Information]

2012

Min, D., Brooks, B., Wong, J., Salomon, R., Bao, W., Harrisberg, B., Twigg, S., Yue, D., McLennan, S. (2012). Alterations in Monocyte CD16 in Association with Diabetes Complications. *Mediators of Inflammation*, 2012, 1-10. [More Information]

Twigg, S., McLennan, S. (2012). Managing diabetes complications in the clinical arena. In Louise A. Baur, Stephen

M. Twigg, Roger S. Magnusson (Eds.), *A Modern Epidemic: Expert Perspectives on Obesity and Diabetes*, (pp. 353-371). Sydney, Australia: Sydney University Press.

2011

Wang, X., McLennan, S., Twigg, S. (2011). CCN-2 is up-regulated by and mediates effects of matrix bound advanced glycated end-products in human renal mesangial cells. *Journal of Cell Communication and Signaling*, 5(3), 193-200. [More Information]

Lo, L., McLennan, S., Williams, P., Bonner, J., Chowdhury, S., McCaughan, G., Gorrell, M., Yue, D., Twigg, S. (2011). Diabetes is a progression factor for hepatic fibrosis in a high fat fed mouse obesity model of non-alcoholic steatohepatitis. *Journal of Hepatology*, 55(2), 435-444. [More Information]

2010

Thomson, S., McLennan, S., Hennessy, A., Boughton, P., Bonner, J., Zoellner, H., Yue, D., Twigg, S. (2010). A novel primate model of delayed wound healing in diabetes: dysregulation of connective tissue growth factor. *Diabetologia*, 53, 572-583. [More Information]

Bao, W., Min, D., Twigg, S., Shackel, N., Warner, F., Yue, D., McLennan, S. (2010). Monocyte CD147 is induced by advanced glycation end products and high glucose concentration: possible role in diabetic complications. *American Journal of Physiology: Cell Physiology*, 299(5), C1212-C1219. [More Information]

Wang, X., McLennan, S., Allen, T., Twigg, S. (2010). Regulation of pro-inflammatory and pro-fibrotic factors by CCN2/CTGF in H9c2 cardiomyocytes. *Journal of Cell Communication and Signaling*, 4(1), 15-23. [More Information]

Ban, C., Twigg, S., Franjic, B., Brooks, B., Celermajer, D., Yue, D., McLennan, S. (2010). Serum MMP-7 is increased in diabetic renal disease and diabetic diastolic dysfunction. *Diabetes Research and Clinical Practice*, 87(3), 335-341. [More Information]

2009

Wang, X., McLennan, S., Allen, T., Tsoutsman, T., Semsarian, C., Twigg, S. (2009). Adverse effects of high glucose and free fatty acid on cardiomyocytes are mediated by connective tissue growth factor. *American Journal of Physiology: Cell Physiology*, 297(6), c1490-c1500. [More Information]

Liu, Y., Min, D., Bolton, T., Nube, V., Twigg, S., Yue, D., McLennan, S. (2009). Increased Matrix Metalloproteinase-9 Predicts Poor Wound Healing in Diabetic Foot Ulcers. *Diabetes Care*, 32(1), 117-119. [More Information]

Min, D., Lyons, G., Bonner, J., Twigg, S., Yue, D., McLennan, S. (2009). Mesangial cell-derived factors alter monocyte activation and function through inflammatory pathways: possible pathogenic role in diabetic nephropathy. *American Journal of Physiology: Renal Physiology*, 297(5), F1229-F1237. [More

Information]

Wong, J., McLennan, S., Molyneaux, L., Min, D., Twigg, S., Yue, D. (2009). Mitochondrial DNA content in peripheral blood monocytes: relationship with age of diabetes onset and diabetic complications. *Diabetologia*, 52, 1953-1961. [More Information]

2008

Tan, J., McLennan, S., Song (Wen Chao), W., Lo, L., Bonner, J., Williams, P., Twigg, S. (2008). Connective tissue growth factor inhibits adipocyte differentiation. *American Journal of Physiology: Cell Physiology*, 295(3), C740-C751. [More Information]

Brooks, B., McLennan, S., Twigg, S., Yue, D. (2008). Detection and characterisation of microcirculatory abnormalities in the skin of diabetic patients with microvascular complications. *Diabetes and Vascular Disease Research*, 5(1), 30-35. [More Information]

McLennan, S., Min, D., Zaman, S. (2008). Matrix metalloproteinases: their role in poor wound healing in diabetes. *Wound Practice & Research*, 16, 116-120.

Thomson, S., McLennan, S., Kirwan, P., Heffernan, S., Hennessy, A., Yue, D., Twigg, S. (2008). Renal connective tissue growth factor correlates with glomerular basement membrane thickness and prospective albuminuria in a non-human primate model of diabetes: possible predictive marker for incipient diabetic nephropathy. *Journal of Diabetes and Its Complications*, 22(4), 284-294. [More Information]

McLennan, S., Bonner, J., Milne, S., Lo, L., Charlton, A., Kurup, S., Jia, J., Yue, D., Twigg, S. (2008). The anti-inflammatory agent Propolis improves wound healing in a rodent model of experimental diabetes. *Wound Repair and Regeneration*, 16, 706-713. [More Information]

Brooks, B., Heffernan, S., Thomson, S., McLennan, S., Twigg, S., Yue, D. (2008). The Effects of Diabetes and Aminoguanidine Treatment on Endothelial Function in a Primate Model of Type 1 Diabetes. *American Journal of Primatology*, 70(8), 796-802. [More Information]

2007

McLennan, S., Kelly, D., Schache, M., Waltham, M., Dy, V., Langham, R., Yue, D., Gilbert, R. (2007). Advanced glycation end products decrease mesangial cell MMP-7: A role in matrix accumulation in diabetic nephropathy? *Kidney International*, 72(4), 481-488. [More Information]

Jamieson, H., Cogger, V., Twigg, S., McLennan, S., Warren, A., Cheluvappa, R., Hilmer, S., Fraser, R., Le Couteur, D. (2007). Alterations in liver sinusoidal endothelium in a baboon model of type 1 diabetes. *Diabetologia*, 50(9), 1969-1976. [More Information]

Xu, L., McLennan, S., Lo, L., Natfaji, A., Bolton, T., Liu, Y., Twigg, S., Yue, D. (2007). Bacterial load predicts healing rate

in neuropathic diabetic foot ulcers. *Diabetes Care*, 30(2), 378-380. [More Information]

Thomson, S., McLennan, S., Hennessy, A., Bonner, J., Zoellner, H., Yue, D., Twigg, S. (2007). Dysregulated inflammation predicts reduced connective tissue growth factor expression in a baboon wound healing model of type 1 diabetes. *The 43rd Annual Meeting of the European Association for the Study of Diabetes (EASD)*, Germany: Springer-Verlag.

McLennan, S., McGill, M., Twigg, S., Yue, D. (2007). Improving wound-healing outcomes in diabetic foot ulcers. *Expert Review of Endocrinology & Metabolism*, 2, 205-213.

2006

Min, D., Lyons, G., Jia, J., Lo, L., McLennan, S. (2006). 2-Methoxy-2,4-diphenyl-3(2H)-furanone-labeled gelatin zymography and reverse zymography: a rapid real-time method for quantification of matrix metalloproteinases-2 and -9 and tissue inhibitors of metalloproteinases. *Electrophoresis*, 27(2), 357-364. [More Information]

Young, A., McLennan, S., Smith, S., Smith, M., Melrose, J., Cake, M., Flannery, C., Sonnabend, D., Little, C. (2006). Changes in expression and immunolocalization of proteoglycan 4 / lubricin in cartilage in an ovine model of early osteoarthritis. *49th Annual Meeting of the Orthopaedic Research Society*, United states: Orthopaedic Research Society.

Thomson, S., McLennan, S., Twigg, S. (2006). Growth factors in diabetic complications. *Expert Review of Clinical Immunology*, 2(3), 403-18. [More Information]

McLennan, S., Jia, J., Milne, S., Lo, L., Bonner, J., Yue, D., Twigg, S. (2006). Propolis, the anti-inflammatory bee hive protectant improves wound healing in experimental diabetes. *42nd Annual Meeting of the European Association for the Study of Diabetes (EASD)*, Germany: Springer-Verlag.

Young, A., McLennan, S., Smith, M., Smith, S., Cake, M., Read, R., Melrose, J., Sonnabend, D., Flannery, C., Little, C. (2006). Proteoglycan 4 downregulation in a sheep meniscectomy model of early osteoarthritis. *Arthritis Research and Therapy*, 8(2), 1-6. [More Information]

2004

McLennan, S., Wang, X., Moreno, V., Yue, D., Twigg, S. (2004). Connective Tissue Growth Factor Mediates High Glucose Effects On Matrix Degradation Through Tissue Inhibitor Of Matrix Metalloproteinase Type 1: Implications For Diabetic Nephropathy. *Endocrinology*, 145(12), 5646-5655. [More Information]

2002

Prasan, A., McCarron, H., White, M., McLennan, S., Tchen, A., Hambly, B., Jeremy, R. (2002). Duration of ischaemia determines matrix metalloproteinase-2 activation in the reperfused rabbit heart. *Proteomics*, 2, 1204-1210.

2000

Birrell, A., Heffernan, S., Anselin, A., McLennan, S., Church, D., Gillin, A., Yue, D. (2000). Functional and structural abnormalities in the nerves of Type 1 diabetic baboons:

aminoguanidine treatment does not improve nerve function. *Diabetologia*, 43, 110-116.
