“Our passion is ideas. Study with us and experience your own knowledge in action.”

Professor Annamarie Jagose
Dean, Faculty of Arts and Social Sciences
You’re about to embark on a new adventure in learning. The best thing is that you’re taking that step in a year in which the University of Sydney is launching a completely transformed curriculum.

Years in the planning, the new Sydney Undergraduate Experience is the most comprehensive and forward-looking curriculum redesign the University has ever undertaken.

When you study with us, you will gain expertise in your chosen subject areas. However, you will also acquire a raft of skills that will serve you well in a rapidly changing world: cross-disciplinary problem-solving; advanced critical thinking; effectiveness in cross-cultural contexts; and a talent for leadership, entrepreneurship and personal resilience.

Our faculty encompasses the following diverse areas:
- School of Economics
- School of Languages and Cultures
- School of Literature, Art and Media
- School of Philosophical and Historical Inquiry
- School of Social and Political Sciences
- Sydney College of the Arts
- Sydney School of Education and Social Work.

Ranked 15th in the world for studies in the arts and humanities,* the Faculty of Arts and Social Sciences is home to some of the world’s most outstanding scholars, who are passionately engaged in contemporary concerns.

Whether in the classroom or on an industry placement or international exchange, you will have the opportunity to bring your arts and social sciences training to bear on some of the most complex, multidimensional issues and questions of the 21st century.

Our passion is ideas. Study with us and experience your own knowledge in action.

Professor Annamarie Jagose
Dean, Faculty of Arts and Social Sciences

---

*QS World University Rankings by Subject 2017
Joining our faculty is not just about studying – we prepare you for life beyond university in many other ways.

The University of Sydney’s graduates have been rated the most sought after in Australia and ranked fourth worldwide in the inaugural QS Graduate Employability Rankings 2017.

The faculty is ranked 15th in the world for arts and humanities by the latest QS rankings. Many of the subjects you will study have also received outstanding rankings,* including:

- Archaeology: 20th in the world
- Development Studies: 18th in the world
- Education: 11th in the world
- English Language and Literature: 18th in the world and first in Australia
- History: 21st in the world
- Linguistics: 27th in the world
- Modern Languages: 29th in the world
- Politics and International Studies: 23rd in the world
- Sociology: 23rd in the world.

*QS World University Rankings by Subject 2017
Career opportunities

The world is constantly changing and so is the employment landscape. Study with us to acquire the skills that will prepare you for careers you can imagine now – and for those that don’t exist yet.

You will develop disciplinary expertise as well as essential skills for the workplace, including:
- innovative approaches to problem solving
- an aptitude for logical argument
- curiosity
- inventiveness
- critical thinking
- an ability to synthesise information quickly
- highly effective communication skills.

Our faculty works hard to build partnerships with corporate, government and not-for-profit organisations so you can gain important on-the-job experience.

ArtSS Career-Ready

ArtSS Career-Ready gives you a unique opportunity to undertake placements with some of Australia’s most prestigious organisations.

Exclusive to the University of Sydney, this program partners with companies such as Accenture, ACON, Allianz, BT Investment Management, Challenger, Commonwealth Bank, Edelman, KPMG, Macquarie Bank, NBC Universal, NSW Government, PwC, Sydney Opera House, Telstra, and Westpac.

Our Career Planning Program gives you the opportunity to take part in professional development workshops and attend events where you will hear from successful arts and social sciences graduates and learn about different career pathways.

Placement opportunities

A wide range of student placements and internships allows many of our students to count professional experience towards their degree. The opportunity to contribute to an organisation and make connections in professional fields gives you scope to develop knowledge and skills in practical contexts and to explore possible options for after graduation.

You will receive academic guidance at the same time, and assessments are designed to connect theory with real-world practice. For more information, visit our webpages:
- sydney.edu.au/arts/internships
- sydney.edu.au/education_social_work/professional_experiences

“I’ve had the opportunity to undertake two ArtSS Career-Ready placements during my degree. At KPMG I could really tap into my humanities background and encourage people to look at problems in different ways. At Westpac, I worked in project management and financial analysis, and they loved my contribution so much that I have now been working there for two years.”

Harriet Goers
Arts and Social Sciences and Economics student
Study overseas

Two streams in the combined Bachelor of Arts/Bachelor of Advanced Studies degree involve compulsory exchange study. Find out more about the Languages program available to Dalyell Scholars students and the stream in International and Global Studies on pages 16 and 18.

You will also have the opportunity to study overseas as part of many of our other degrees, undertaking semester-long or short-term exchange programs and overseas practicum. This is your chance to enjoy an amazing international experience, add to your skills and broaden your perspective, all while studying.

We offer more than 230 exchange partnerships to many parts of the world, including Canada, China, France, India, Japan, Spain, Sweden, the UK and United States.

Learn more about where our international study program can take you:
− sydney.edu.au/arts/international

Further study

We offer a wide range of study options after you complete your undergraduate degree. You can acquire a professional qualification, pursue more advanced studies in the discipline of your choice, or investigate a new area of study.

More than 30 options include career-launching postgraduate programs such as the Master of Teaching, Master of Economics or Master of International Relations, as well as programs that emphasise curiosity-driven further learning, such as the Master of Creative Writing and Master of Cultural Studies. Find out more:
− sydney.edu.au/courses

Scholarships

The University of Sydney has more than 700 scholarships schemes on offer and thousands of recipients. Check our website to see what you might be eligible for.
− sydney.edu.au/scholarships

“I have been amazed by the wonderful opportunities and scholarships that are available to students. I have undertaken a language exchange program at Peking University in Beijing, studied medieval Indian history in Mumbai and will also spend six months in Indonesia for my compulsory exchange.”

Maxine Williams
International and Global Studies student
The world is changing, and university education needs to change too.

We’ve reimagined the Sydney Undergraduate Experience – the way we teach and the way you’ll learn – to prepare you for a future full of possibilities.

YOUR DEGREE

We offer unparalleled choice

At Sydney you’ll have access to a breadth and depth of excellence in disciplines and professional fields that is unparalleled in Australia.

Follow your interests.

All of them.

We have created a new level of flexibility with a shared pool of majors and minors so you can expand your education with a second field of study.

For instance, you will be able to study art history without having to give up your interest in marketing; combine your major in politics with the study of criminology; or study psychology and take a major in economics.

Broaden your skills

You can widen your skills in entrepreneurial thinking, persuasive communication, project management and ethical reasoning by taking short, on-demand and workshop-supported courses in our Open Learning Environment.
YOUR EXPERIENCE

**Academic rigour**
Gain a deep understanding of your chosen disciplines of study and learn from those who are leaders in their fields.

**Global perspectives**
Set yourself up to go anywhere in the world by gaining the skills and understanding to work effectively across cultural boundaries. Go on exchange, study a language, or undertake projects in distinctive cultural settings here and overseas.

**Cross-disciplinary learning**
Study across or work with other disciplines to build your skills and tackle some of the most complex challenges of our time.

**Real-world projects**
Bridge the gap between theory and application by working on real-world industry, community, research and entrepreneurship projects.

YOUR FUTURE

You will leave university with the confidence and ability to think critically, collaborate productively, and influence the world.

sydney.edu.au/ug-experience
INTRODUCING THE COMBINED BACHELOR OF ADVANCED STUDIES

Taken in combination with a three-year degree, the new Bachelor of Advanced Studies supercharges your undergraduate experience at Sydney.

In the Faculty of Arts and Social Sciences, you can combine this degree with the Bachelor of Arts, Bachelor of Economics and the Bachelor of Visual Arts.

We offer four specialist streams within the Bachelor of Arts/Bachelor of Advanced Studies, allowing for high-level work in languages, international and global studies, media and communications, and politics and international relations.

Bachelor of Advanced Studies combined degrees give you the opportunity to:
- design your own degree by combining studies from a range of disciplines
- build on your expertise with advanced coursework and project work
- complete a second major (see the shared pool of majors list on pages 42 and 43).

This combined degree focuses on disciplinary depth and cross-disciplinary problem-solving for real-world industry, community and research challenges. It will develop your entrepreneurship and leadership skills, broaden your opportunities and prepare you for future success.

Exclusive to high-achieving students with an ATAR (or equivalent) of 98+, the Dalyell Scholars program is an opportunity to challenge yourself alongside your most promising and talented peers.

The program enables you to draw on the rich interdisciplinary depth and breadth on offer at the University, cultivating the leadership and professional expertise to join the ranks of our distinguished global alumni.

The Dalyell Scholars program allows you to collaborate and network with like-minded world influencers.

In addition to completing distinctive Dalyell units of study with other high achievers, you will have access to enrichment opportunities including:
- acceleration to master’s level study
- access to specialised Language (Arts) and Mathematical Sciences (Science) programs
- exclusive research and entrepreneurship programs
- direct access to industry-based project learning
- tailored mentoring and professional skills development to enhance your study and career opportunities
- international experiences to develop your global perspective, including a global mobility scholarship.

The following courses in arts and social sciences, education and social work are available through the Dalyell Scholars program.
- B Arts
- B Arts/B Advanced Studies
- B Arts/B Advanced Studies (Dalyell Scholars including Languages)†
- B Arts/B Advanced Studies (International and Global Studies)
- B Arts/B Advanced Studies (Media and Communications)
- B Arts/B Advanced Studies (Politics and International Relations)
- B Arts/B Social Work
- B Economics
- B Economics/B Advanced Studies
- B Education (Secondary: Humanities and Social Sciences)/B Arts
- B Education (Secondary: Mathematics)/B Science
- B Education (Secondary: Science)/B Science

For a full list of Dalyell courses visit:

CHOOSE YOUR PATH
YOUR STUDY OPTIONS

At the Faculty of Arts and Social Sciences, you can choose from more than 20 undergraduate degree programs.

We offer the following degrees:

**Humanities and Social Sciences**
- B Arts
- B Arts/B Advanced Studies
- B Arts/B Advanced Studies (Dalyell Scholars including Languages)
- B Arts/B Advanced Studies (International and Global Studies)
- B Arts/B Advanced Studies (Media and Communications)
- B Arts/B Advanced Studies (Politics and International Relations)
- B Arts (Dual Degree, Sciences Po, France)

**Economics**
- B Economics
- B Economics/B Advanced Studies
- B Economics (Dual Degree, Sciences Po, France)

**Education**
- B Education (Early Childhood)
- B Education (Health and Physical Education)
- B Education (Primary)
- B Education (Secondary: Humanities and Social Sciences)/B Arts
- B Education (Secondary: Mathematics)/B Science
- B Education (Secondary: Science)/B Science

**Social Work**
- B Arts/B Social Work
- B Social Work

**Visual Arts**
- B Visual Arts
- B Visual Arts/B Advanced Studies.

**Cross-disciplinary study**
Students studying the Bachelor of Arts, Bachelor of Economics, Bachelor of Visual Arts and all combined Bachelor of Advanced Studies degrees are also able to add breadth to their studies through the innovative pool of shared majors and minors (see pages 42 and 43 for more information).

**Combined degrees**
You can link the skills you acquire in the faculty with complementary disciplines taught across the University, including engineering, law, medicine, nursing and science. Learn more about our undergraduate degrees:
- sydney.edu.au/courses

**Dual degree program with Sciences Po**
This distinctive dual degree program offers the opportunity to study with two world-renowned institutions for the humanities and social sciences – the University of Sydney and Sciences Po (the Paris Institute of Political Studies) in France.

Your experience begins with two years in France at one of Sciences Po’s three regional campuses, where core courses in the social sciences are complemented by electives in the humanities. Courses are taught in English, and you will also have the opportunity for language study.

You will then continue with two years of study at the University of Sydney, where you can pursue studies begun in France and develop expertise in the wide range of disciplines offered by the Faculty of Arts and Social Sciences.

You will graduate with a Bachelor of Arts degree from Sciences Po and either a Bachelor of Arts or a Bachelor of Economics from the University of Sydney.

Learn more about the dual degree program:
- sydney.edu.au/arts/sciences-po
Our Bachelor of Arts provides an outstanding liberal arts education. It prepares you to meet the challenges of the modern workforce, where expertise, inventiveness, logic and critical thinking come to the fore.

Combining a BA with the Bachelor of Advanced Studies in this new four-year degree gives you the opportunity to deepen your knowledge and skills, add further breadth to your University qualification by studying subjects from a range of disciplines, and apply your skills and disciplinary knowledge to real-world problems.

You will explore your passions, interests and ambitions as you complete a double major. You can choose both majors from our broad choice across more than 45 subject areas in the humanities and social sciences (see pages 44 to 48), or select a second major from the University’s shared pool (see pages 42 and 43).

In the fourth year of the degree you will undertake advanced coursework and a substantial real-world industry, community, entrepreneurship or research project. As you develop a personal portfolio of expertise and high-level skills you broaden your opportunities and prepare yourself for future success.

“I chose to study archaeology because I love history and I love the idea of being able to engage and interact with the past. I didn’t want to pursue a career that involved sitting still, but rather one with the opportunity to travel, learn and be challenged. I’ve been able to step outside the classroom and explore the archaeology and architecture of Greece and gain real fieldwork experience in Tasmania.”

Grace Kane
Arts and Social Sciences student

Indicative ATAR/IB cut-off: 80/28
UAC code: 513205
Duration: 4 years full time
Exclusive to students enrolled in the prestigious Dalyell Scholars stream in the Bachelor of Arts/Bachelor of Advanced Studies, the Languages program will allow you to focus your studies on language acquisition and experiences.

Through the Languages program you will broaden your understanding of languages and culture, opening up a diverse range of global career opportunities. A standout feature of the program is the subsidised exchange component that enables you to spend one or two semesters studying at a university in the country of your primary language.

Distinctive Dalyell units and a suite of enrichment opportunities will complement your studies. You will also complete a second major and in your final year will undertake advanced coursework and a substantial project.

For more information about the Dalyell Scholars program visit:
- sydney.edu.au/dalyell-scholars

Career opportunities
In addition to the broad range of careers available to graduates of our Bachelor of Arts degree, the Languages program will prepare you to work in a range of areas that use language skills, including as a translator or a teacher of languages in international organisations or for foreign language-based media outlets.

Indicative ATAR/IB cut-off: 98/40
UAC code: 513221
Duration: 4 years full time

Sample course structure: Bachelor of Arts/Bachelor of Advanced Studies
(Dalyell Scholars including Languages stream, two modern language majors, advanced study in Multilingual Translation)
BACHELOR OF ARTS/BACHELOR OF ADVANCED STUDIES
(POLITICS AND INTERNATIONAL RELATIONS)

This degree covers all aspects of political, cultural and economic relations at both the domestic and international levels. It explores the world-shaping political forces that extend far beyond national boundaries and impact our lives in unexpected ways.

You will graduate with a double major in Politics and International Relations, which you complete in the first three years of the degree, and work with a team of leading academics and researchers to identify and evaluate current affairs and issues that shape global politics.

Fourth year focuses entirely on the practical study of Politics and International Relations. You can complete advanced coursework and a substantial project or undertake a dedicated internship program to gain first-hand experience in real-life projects with one of our partner organisations.

Career opportunities

Current affairs journalist, government and public service administrator, non-government or private sector administrator, policy researcher and consultant, political adviser, think tank participant.

Indicative ATAR/IB cut-off: 95/37
UAC code: 513220
Duration: 4 years full time

“The well-rounded nature of study at the University of Sydney is fantastic. I have had the opportunity to go on exchange to Switzerland, where I took classes at the United Nations and improved my fluency in spoken and written French. I have also undertaken an internship at the China Studies Centre, where I developed my academic research skills and gained a deeper understanding of Chinese politics.”

Sophia Sun Zou
Chinese, French and Government and International Relations student
A program in International and Global studies gives you a rigorous understanding of the paradoxes and complex interconnections of globalisation.

This unique course of study equips you with the ability to work in a global society. Its core major enables you to relate localities to global trends, while your chosen specialisation and language training provide the regional expertise and linguistic competence necessary to work in a range of organisations with an international scope and communicate effectively across cultural and linguistic boundaries.

You will:
- complete a core program in International and Global Studies, including advanced coursework and a substantial final-year project
- undertake a modern language minor
- complete a second major (which may be an extension of the language minor)
- study abroad at one of our leading partner universities to diversify your study and provide first-hand international experience
- have the opportunity to undertake an internship, which will further position you to operate effectively as a global citizen and compete successfully in the international marketplace.

**Career opportunities**

Community development program manager, diplomat, foreign aid worker, foreign correspondent, human rights advocate, international business consultant, policy adviser, trade negotiator.

**Indicative ATAR/IB cut-off:** 92/34

**UAC code:** 513210

**Duration:** 4 years full time

“The future belongs to those who believe in the beauty of their dreams.”

Eleanor Roosevelt (1884–1962)
politician, diplomat, activist, first lady
BACHELOR OF ARTS/BACHELOR OF ADVANCED STUDIES (MEDIA AND COMMUNICATIONS)

This stream of the Bachelor of Arts and Bachelor of Advanced Studies will provide you with a broad array of skills tailored to meet the needs of the fast-changing media and communications landscape.

Gain real-world experience in media writing, radio, video and digital media production, and media relations as well as a scholarly and critical education in media and communications theory and practice. You will also undertake a second major from a range of disciplines and advanced coursework and complete a substantial final-year project.

You will undertake a compulsory internship where you will get hands-on experience and make valuable contacts. Internships are available in a variety of areas, including national and international journalism placements, public relations and advertising agencies, national television and radio, and major print and online media. This practical work experience in your chosen field of interest can give you a definite edge over other graduates as you seek professional employment after graduation.

Career opportunities

Creative lead, digital journalist, events and marketing executive, media adviser, multimedia producer, native content editor, production coordinator, social media editor, staff writer, web producer.

Indicative ATAR/IB cut-off: 95/37
UAC code: 513215
Duration: 4 years full time
“I can honestly say that no one who graduated from my university cohort expected to end up where they have. I would probably have never thought of starting my own business, which just goes to show you never know what path your career is going to take or where you want to end up.

After working in a number of roles across the creative media industry, a couple of my previous colleagues and I started up our own company – Hey Sippy. We do content marketing and production because brands these days need really good storytellers.”

Theodora Chan  
Arts (Media and Communications) (Honours) graduate  
Co-Founder and Content Director, Hey Sippy

Sample course structure: Bachelor of Arts/Bachelor of Advanced Studies  
(Media and Communications (MECO) stream, majors in Media Studies and English)
BACHELOR OF ARTS

Whether you want to learn a new language or study a new culture, explore great books, ideas or minds, discover the past, analyse the present or consider the shape of the world’s future, the Bachelor of Arts will expand your horizons and challenge you to think outside the box.

Offering broad choice across more than 45 subject areas in the humanities and social sciences, no two arts degrees are quite the same. You will study a major and a minor, choosing both from our broad choice across the humanities and social sciences (see pages 44 to 48), or selecting your minor from the University’s shared pool (see pages 42 and 43).

Whatever your focus, when you undertake our Bachelor of Arts degree you will be guided by the expertise of an internationally respected group of educators. With arts and humanities at the University of Sydney consistently recognised as among the top 20 faculties globally in academic rankings,* our Bachelor of Arts degree is both highly regarded and well supported by research leaders.

Study with the Faculty of Arts and Social Sciences will hone your analytical skills and help you become an independent thinker, able to form and articulate judgements based on argument and evidence. Our graduates are in high demand from a broad range of employers, with career options as varied as the degree itself. Our alumni are invariably known for their ability to challenge assumptions, communicate effectively, research diligently and synthesise complex information to reach their goals.

As a reflection of our global outlook, you will be encouraged to take advantage of extensive exchange opportunities with leading universities overseas. A number of our majors offer internship placements, enabling you to develop your networks and gain invaluable work experience before graduation.

“I chose to study at the University of Sydney because I knew that in addition to fantastic academic engagement, I would also have opportunities to improve my leadership skills, meet extraordinary people and grow to harness my full potential.

I get to delve into the nuances of subject areas that I have a strong passion for and can’t experience anywhere else, and I can get involved with fantastic clubs and societies on campus with broad or niche interests alongside like-minded individuals.”

Jacob Masina
Arts and Social Sciences student

Career opportunities
Examples depend on majors and include anthropologist, archaeologist, archivist, art historian, business administrator or manager, editor or publisher, foreign affairs and trade officer, government policy officer, historian, heritage specialist, information specialist, journalist, language specialist, media and communications officer, museum or gallery curator, researcher, sociologist.

Indicative ATAR/IB cut-off: 80/28
UAC code: 513200
Duration: 3 years full time
A program in Economics gives you an excellent grounding in economic theory and statistics. You will complete at least one major from economics, agricultural and resource economics, financial economics or econometrics.

You will also complete a second major from these options, those offered by the University of Sydney Business School or from the shared pool, creating a study profile that reflects your expertise in a range of disciplines.

In your final year you will also undertake advanced coursework and a community, industry, research or entrepreneurship project that builds on the skills and knowledge developed in the Bachelor of Economics.

High-achieving students will have the opportunity to complete the highly regarded honours program in economics. This program is central to the strength of Economics at the University of Sydney, providing expert training in applied economics, economic theory and econometrics.

Whichever path you take, the four-year degree will equip you with key capabilities for industry, community and research challenges, preparing you for future success in fields such as banking, financial markets and consulting in both the private and public sectors.

**Career opportunities**

Accountant, banker, business consultant, business information systems analyst, economic analyst, economist, financial manager, government or NGO worker, human resource manager, industrial relations specialist, researcher, social policy adviser.

Indicative ATAR/IB cut-off: 90/33

UAC code: 513230

Duration: 4 years full time

**Assumed knowledge:**

Mathematics. From 2019, this course will require a prerequisite of Mathematics (Band 4).
“My time at the University of Sydney gave me an outstanding grounding to step into the world with confidence and passion. In particular, the honours program facilitated by the School of Economics was formative in my academic development. Learning from outstanding professors, lecturers and peers was an enjoyable experience that opened my eyes to the possibilities of economics and heavily shaped the way I think today.”

Tom Williamson
Economics (Honours) graduate and 2017 NSW Rhodes Scholar

“I really enjoy the flexibility of the Economics degree; there are my core units that I am required to take, but I can also choose subjects from other faculties. This means I am able to get an understanding of many disciplines, from commercial law to psychology. I have been able to study all of them.

It has been great to be able to gain the technical and statistical capabilities from my economics studies and also develop important interpersonal and people skills through taking a second major in industrial relations and human resource management.”

Natalie Krstevski
Economics and Industrial Relations and Human Resource Management student
BACHELOR OF ECONOMICS

This three-year degree is one of the leading undergraduate economics programs in Australia.

The program introduces you to a diverse, fascinating discipline that addresses a range of big issues in modern life and plays a central role in shaping the broad framework of society at every level. It provides undergraduate training in theoretical and applied aspects of modern economics, econometrics and financial economics.

Although primarily interested in explaining the behaviour of individuals, economics also addresses the collective behaviour of businesses and industries, governments and countries, and the globe as a whole. The discipline is crucial to understanding and solving the major problems and challenges the world faces today, such as global warming, poverty, development, and recession.

The Bachelor of Economics requires you to complete a core major from one of the following areas:
- Economics
- Econometrics
- Financial Economics
- Agricultural and Resource Economics.

Sample course structure: Bachelor of Economics (program in Economics, majors in Economics and Finance)

“I was interested in Economics at Sydney because I knew the School of Economics had produced some really impressive alumni, like former Governor of the Reserve Bank Glenn Stevens. When I looked into the program I really liked the range of courses on offer, which made me confident that I’d be able to find courses that were really interesting.

Since studying here my degree has opened me up to a variety of fields that hadn’t even occurred to me. I enjoyed Economics in high school because I was interested in growth and unemployment – I never guessed that I’d end up studying crime, marriage and the environment from an economic perspective.”

James Stratton
Economics student

A minor or second major can be taken from the core majors, those offered by the Business School, or from the shared pool.

Subject areas offered by the Business School include:
- Accounting
- Banking
- Business Analytics
- Business Information Systems
- Business Law
- Finance
- Industrial Relations and Human Resource Management
- International Business
- Management
- Marketing.

Career opportunities

Accountant, banker, business consultant, business information systems analyst, economic analyst, economist, financial manager, human resource manager, industrial relations specialist, researcher, social policy adviser.

Indicative ATAR/IB cut-off: 90/33
UAC code: 513225
Duration: 3 years full time
Assumed knowledge: Mathematics.
From 2019, this course will require a prerequisite of Mathematics (Band 4).
BACHELOR OF EDUCATION
(EARLY CHILDHOOD)

This course from the Sydney School of Education and Social Work will give you a professional qualification to teach children from birth to five years in early childhood education settings.

Our innovative four-year teacher education program incorporates introductory and advanced curriculum units, a strong social justice and leadership focus, placement experiences in early childhood settings that exceed minimum requirements, scope to develop and apply research skills in an honours strand, and opportunities to develop strong practical and research skills.

You will study specialist units in early childhood education and development, complemented by generalist units in education and professional studies, as well as elective units of study in the sciences, social sciences and humanities offered by the Faculty of Arts and Social Sciences, the Faculty of Science, and the University of Sydney Business School.

In second year you will begin observing and interacting with small groups of young children (ages three to five). In third year you will undertake professional experience in an early childhood setting with children from birth to three years. By fourth year you will be competent to teach in an early learning centre using your professional judgement and autonomy. Your final, fourth-year, 30-day internship will be complemented by a practitioner inquiry research project, in which you focus on an area of specialisation.

For a full course outline, see: sydney.edu.au/courses
Early childhood education is an important profession that requires extensive theoretical and practical knowledge. I am dedicated to using my knowledge to help children grow to their full potential and to make others aware of the importance of this period for infants, toddlers and preschool children.”

Samantha King
Early Childhood Education student

Career opportunities
Teaching in a range of early learning centres and preschools (birth–5 years). Qualified early childhood teachers are in high demand and early childhood education is a high priority for both federal and state governments in Australia. This qualification is not suitable for teachers seeking employment in the Kindergarten to Year 6 school sector.

Indicative ATAR/IB cut-off: 77/27
UAC code: 513240
Duration: 4 years full time
Professional recognition: This is an Australian Children’s Education and Care Quality Authority (ACECQA) approved qualification. The course is recognised nationally and internationally.
BACHELOR OF EDUCATION
(HEALTH AND PHYSICAL EDUCATION)

This four-year specialist degree will give you a professional qualification to teach in primary or secondary schools in the area of personal development, health and physical education (PDHPE), along with a second teaching area of specialisation.

Service learning and community engagement are key features of this degree. In all four years of the course you will be given service learning opportunities and work with educational, health and sporting organisations. Totalling 140 hours, this will supplement your professional experience placement in schools.

Professional experience placements (totalling 80 days) begin in the first year of the course and the amount of responsibility and duration of the placements progressively increases until the final placement, when you will be competent to teach under minimal supervision.

Our Health and Physical Education program, established in 1939, is considered one of the best in Australia. If you have a real passion for health, sport and the science of movement, this is the perfect course for you. It offers a range of unique experiences, including the opportunity to specialise in PDHPE and an additional teaching area. Once you complete the degree, you will be qualified to work in a variety of fields.

For a full course outline, see: sydney.edu.au/courses

Career opportunities
Teaching in primary or secondary schools or careers in corporate training and human resource settings, community health, coaching, recreation and sport.

Prerequisite: Band 5 in English (not English as a Second Language), and a Band 5 in two other HSC subjects.

Professional recognition: NSW Education Standards Authority, NSW Department of Education, Association of Independent Schools of NSW, Catholic Education Office. The course is recognised nationally and internationally.

Indicative ATAR/IB cut-off: 80/28
UAC code: 513245
Duration: 4 years full time
BACHELOR OF EDUCATION (PRIMARY)

Inspire our next generation in this professional qualification to teach in a primary school with children aged five to 12 years.

Gain extensive professional experience at schools throughout this four-year program, with school placements commencing in your first year. These begin with observing and interacting with small groups of primary school students, and later expand to include patterns of classroom interaction, teacher-developed curriculum materials and whole-school activities. When you undertake professional experience in fourth year, you will be fully competent to teach without close supervision.

This degree covers all the key learning areas (primary subject areas), with special attention to the mandatory areas of Aboriginal education, teaching English to speakers of other languages (TESOL) and special education.

Throughout your studies you will take generalist units of study in education and professional studies, along with units in the sciences, social sciences and humanities, offered by the Faculty of Arts and Social Sciences, the Faculty of Science, and the University of Sydney Business School.

Students who demonstrate high achievement in mathematics through secondary school or the first-year mathematics content may also elect to undertake a specialisation study pathway in mathematics.

For a full course outline, see:
− sydney.edu.au/courses

Career opportunities

Teacher, corporate trainer and development manager, curriculum consultant, educational administrator, educational researcher, government policy adviser.

Indicative ATAR/IB cut-off: 85/31
UAC code: 513250
Duration: 4 years full time
Prerequisite: Band 5 in English (not English as a Second Language), and a Band 5 in two other HSC subjects.
Recommended studies: Mathematics
Professional recognition: NSW Education Standards Authority, NSW Department of Education and Communities, Association of Independent Schools of NSW, Catholic Education Office. The course is also recognised nationally and internationally.

“The opportunity to study in Umeå, Sweden, as part of my degree was an amazing experience. I learnt many valuable lessons from the Swedish school system that I will carry into my teaching career, and I also learnt a lot about myself as a teacher and as a person. Overseas placements are an excellent opportunity to be exposed to different school systems around the world and to step outside your teaching comfort zone.”

Claire Kenway
Primary Education student
BACHELOR OF EDUCATION
(SECONDARY: HUMANITIES AND SOCIAL SCIENCES)/
BACHELOR OF ARTS

This five-year combined degree will give you a professional qualification to teach in secondary schools in the areas of humanities and social sciences.

You will gain a strong practical and theoretical preparation for teaching. The course covers professional teaching, special education, international education, and information and communications technology.

School observations and practice teaching are integral components of the professional experiences in this degree. Professional teaching experiences and internships are offered in partnership with participating schools and will provide you with the opportunity to develop your teaching skills and professional understanding of how to work in schools.

In your first year you will engage in a broad tertiary education, studying units from the Sydney School of Education and Social Work and the Faculty of Arts and Social Sciences.

You may choose your major from one of the following teaching areas: Aboriginal studies, Commerce, Economics, English, Drama, History (modern or ancient), Languages: Arabic, Chinese, French, German, Hebrew (modern or classical), Indonesian, Italian, Japanese, Korean, Latin, Modern Greek or Spanish.

You will also complete at least two years of study, which can be extended to a minor, in a second teaching area chosen from the list above, or from mathematics, business studies, teaching English to speakers of other languages (TESOL), or geography.

Career opportunities
Teacher in areas including English, drama, history, mathematics, TESOL, geography, economics and languages, corporate trainer and development manager, curriculum consultant, educational administrator, educational researcher, government policy adviser, human resource manager.

Indicative ATAR/IB cut-off: 80/28
UAC code: 513255
Duration: 5 years full time
Professional recognition: NSW Education Standards Authority, NSW Department of Education and Communities, Association of Independent Schools of NSW, Catholic Education Office. The course is also recognised nationally and internationally.

Passionate about music? The Bachelor of Music (Music Education) offered by the Sydney Conservatorium of Music will prepare you for a career as a music teacher in both the primary and secondary school environment.
Sample course structure: Bachelor of Education (Secondary: Humanities and Social Sciences)/Bachelor of Arts (major in first teaching area, minor in second teaching area)

“The practical experience available to Education students is one of the best parts of the degree. I have spent time in rural NSW observing classes and have also completed a placement in Indonesia. Teaching in Indonesia really tested my ability to adapt and be versatile when preparing for and conducting lessons. The conditions were completely different to those at home, so I had to come up with new approaches and ways to teach and learn. The teaching strategies I learnt will be of enormous help when I am working with English as a second language classes and also prepare me for other opportunities I have to live and work overseas.”

Fiona Duong
Education and Arts and Social Sciences student
BACHELOR OF EDUCATION
(SECONDARY: MATHEMATICS)/
BACHELOR OF SCIENCE

This course will give you a professional qualification to teach in secondary schools in mathematics or science.

In this five-year degree you will acquire a strong practical and theoretical preparation for teaching. The course covers professional teaching, special education, international education, and information and communications technology.

You will need to complete a Bachelor of Science major in mathematics. You may also opt to study a second teaching method in science. Science teaching areas offered include biology, chemistry, earth and environmental science, geography, and physics. One year of chemistry or physics is compulsory if you intend to teach science.

School observation and practice teaching are integral components of the professional experiences in this degree. This professional experience is offered in partnership with participating schools and will provide you with the opportunity to develop your teaching skills and professional understanding.

In your fifth year you can take various education units of study, including Teaching International English, Meeting the Needs of Cultural Diversity, and Responding to Diverse Needs in Schools.

For a full course outline, see:
− sydney.edu.au/courses

Career opportunities
Mathematics or science teacher, curriculum consultant, corporate trainer, educational researcher, government and business administrator.

Indicative ATAR/IB cut-off: 80/28
UAC code: 513260
Duration: 5 years full time

Assumed knowledge:
HSC Mathematics Extension 1* (depending on subjects chosen).
From 2019, this course will require a prerequisite of Mathematics (Band 4).

Professional recognition:
The NSW Education Standards Authority, NSW Department of Education and Communities, Association of Independent Schools of NSW, Catholic Education Office. The course is recognised nationally and internationally.

* We strongly encourage students who have not completed HSC Mathematics Extension 1 to undertake a mathematics bridging course.

“As a student, I loved being part of a community that dedicated itself as a matter of principle to considering the big issues that our society and culture face. Since then, I’ve always sought to be the kind of teacher who cares about students first and subjects second.”

Eddie Woo
Education (Secondary: Mathematics) (Honours) graduate
Head Teacher in Mathematics at Cherrybrook High School and founder of Wootube
BACHELOR OF EDUCATION (SECONDARY: SCIENCE)/ BACHELOR OF SCIENCE

This five-year combined degree gives you a professional qualification to teach science in secondary schools.

You will acquire a strong practical and theoretical preparation for teaching. The course covers professional teaching, special education, international education, and information and communications technology.

The course requires you to complete a major in a science teaching area. Science teaching areas available include biology, chemistry, earth and environmental science, geography, and physics. You also need to complete at least two years of a second science teaching area, which can include mathematics. All students need to take one year of mathematics and chemistry or physics as part of this course.

School observation and practice teaching are integral components of the professional experience in this degree. This professional experience is offered in partnership with participating schools and will provide you with the opportunity to develop your teaching skills and professional understanding.

In fifth year you can choose from various education units, including Teaching International English, Meeting the Needs of Cultural Diversity, and Responding to Diverse Needs in Schools.

For a full course outline, see: sydney.edu.au/courses

Career opportunities

Science or mathematics teacher, curriculum consultant, educational researcher, corporate trainer.

Indicative ATAR/IB cut-off: 80/28
UAC code: 513265
Duration: 5 years full time
Assumed knowledge: HSC Mathematics Extension 1* (depending on subjects chosen). From 2019, this course will require a prerequisite of Mathematics (Band 4).

* Students intending to teach mathematics and have not completed HSC Mathematics Extension 1 are strongly encouraged to undertake a mathematics bridging course.
BACHELOR OF SOCIAL WORK

This course prepares you for employment in a diverse and changing field, in which your capacity to transfer knowledge and skills across contexts will be essential.

You can change lives for the better through a broad variety of work with vulnerable children, people with disabilities, refugees, senior citizens, victims of war or crime and families affected by drugs or alcohol.

This internationally recognised four-year program allows you to qualify as a professional social worker while also taking two years of tertiary studies in other areas of interest such as sociology, diversity studies or gender studies.

Combining studies in social policy and social work, you will develop skills to promote social change, problem solve in human relationships, and empower and liberate people to enhance wellbeing. You will gain strong negotiating skills, a nuanced understanding of cultural contexts and sensitivity to various religious beliefs.

In the last two years of the degree you will undertake two fieldwork placements over 140 days, supervised by highly skilled and experienced practitioners. These placements provide the opportunity to apply your knowledge and gain hands-on experience working in different and dynamic environments.

For a full course outline, see: sydney.edu.au/courses

Career opportunities

Aged care worker, children and families support worker, community worker in programs for people with disabilities, migrant and refugee liaison officer, international development worker, social policy adviser.

Indicative ATAR/IB cut-off: 80/28
UAC code: 513270
Duration: 4 years full time
Professional recognition: Australian Association of Social Workers.

“I wanted to study social work because I was attracted to the idea that as a social worker you can have an impact on every client relationship. With this career path, technology can’t solve issues – it requires professional problem-solving skills.

A degree in social work will give me the opportunity to have a life-changing impact on an intimate scale through counselling clients, and also potentially on a larger scale through engaging with the public to promote goals for human rights.”

Kasumi Higewake
Social Work student
BACHELOR OF ARTS/ BACHELOR OF SOCIAL WORK

This five-year degree offers a comprehensive and flexible combined degree program that qualifies you as an accredited social worker, while also allowing you to enhance your qualification with majors and minors that complement the Bachelor of Social Work.

These include sociology, social policy, diversity studies, gender studies or philosophy, offered through the Bachelor of Arts.

You’ll undertake integrated studies in social sciences, social policy and social work theory and practice, with a strong emphasis on Australian and comparative social welfare studies.

In the last two years of the degree all students undertake the professional social work program, which includes two fieldwork placements supervised by highly skilled and experienced practitioners in a variety of settings.

We develop field education learning expectations across the program and aim to develop values, skills and knowledge for levels from beginner to a practitioner capable of meeting the Australian Association of Social Workers (AASW) Practice Standards.

Career opportunities
Aged care worker, children and families support worker, community worker in programs for people with disabilities, migrant and refugee liaison officer, international development worker, social policy adviser.

Indicative ATAR/IB cut-off: 80/28
UAC code: 513275
Duration: 5 years full time
Professional recognition: Australian Association of Social Workers.

BACHELOR OF VISUAL ARTS/
BACHELOR OF ADVANCED STUDIES

This exciting and diverse combined degree offers the opportunity to develop your visual arts specialisation with advanced coursework and a community, industry, research or entrepreneurship project. You will also complete a major from the shared pool (see pages 42 and 43), creating a study profile that reflects your expertise in a range of disciplines.

The hands-on focus of the Bachelor of Visual Arts will allow you to develop the conceptual, theoretical and technical skills you will need to succeed as a practising artist or in a range of careers in the creative industries. Taught by practising artists, writers, and curators, you will benefit from their extensive professional experience and arts industry networks.

Our flexible course structure allows you to build a course in contemporary art that is adapted to your personal strengths and aspirations while also offering the breadth and opportunities for development of a wide range of skills that will equip you for the modern workplace.

The Bachelor of Visual Arts/Bachelor of Advanced Studies is a combined degree offered by Sydney College of the Arts (SCA), Sydney’s premier training ground for contemporary visual artists for more than 40 years.
Career opportunities

Artist, arts journalist, commercial art director, craftsperson, creative director, cultural officer or program manager, curator, digital producer, educator (with further tertiary qualifications), film producer or filmmaker, innovation manager, web and interaction designer.

Sample course structure: Bachelor of Visual Arts/ Bachelor of Advanced Studies
(specialising in Photomedia and majoring in Film Studies)

Indicative ATAR/IB cut-off: Entry to the Bachelor of Visual Arts/Bachelor of Advanced Studies requires you to meet the academic requirements of an accepted Year 12 qualification (or equivalent) and submit a portfolio of artwork.

UAC code: 513295

Duration: 4 years full time

Recommended studies: Visual Arts, Design and Technology.

“At Sydney College of the Arts I was taught by artists and academics in a learning environment that fostered an open-minded approach to creative practice and research. Developing my expertise within this artistic community and network opened up lots of opportunities to exhibit work in galleries, at public events and in public spaces.

Having my honours work selected for the 2017 Artereal Gallery Mentorship Award has given me an exciting opportunity to work directly with the gallery’s experienced team and work towards my own exhibition in their space later this year.”

Kai Wasikowski
Visual Arts (Honours) graduate
Practising artist
This hands-on degree is focused on providing you with the conceptual, theoretical and technical skills you need to succeed as a practising artist or in a range of careers in the creative industries.

It offers a wide range of electives in contemporary art and a number of studio specialisations. You will be encouraged to work across disciplinary boundaries to realise your ideas, and you’ll gain a thorough grounding in the skills and history of your chosen specialisation.

You will be taught by practising artists, writers, and curators, and benefit from their extensive professional experience and arts industry networks. A strong theory and history component hones your research and critical skills so you can develop your creative projects to their full potential. Your studies will be supported by technical facilities, workshops and digital laboratories.

You can study the Bachelor of Visual Arts as a three-year full-time course or a six-year part-time course. Our flexible course structure allows you to build a course in contemporary art that is adapted to your personal strengths and aspirations.

Career opportunities

Artist, arts writer, craftsperson, curator, digital artist, educator (with further tertiary qualifications), exhibition designer, filmmaker, illustrator, painter, product designer, sound artist, web and multimedia designer.

Indicative ATAR/IB cut-off: Entry to the Bachelor of Visual Arts requires you to meet the academic requirements of an accepted year 12 qualification (or equivalent) and submit a portfolio of artwork.

UAC code: 513290
Duration: 3 years full time
Recommended studies: Visual Arts, Design and Technology.

“My experience at SCA has been invaluable. The freedom of a self-directed course has given me the confidence and skills to engage with exhibitions outside uni, which is really useful as a new graduate in the industry. This could not have been possible without the mutual respect and guidance of the faculty, both within and outside my painting studio.

I have also had the opportunity to experiment across a diverse selection of interdisciplinary mediums that have expanded my practice. This holistic approach to a contemporary art education is unique to SCA, with staff encouraging students to think critically and creatively about their work.”

Mikaela Stafford
Visual Arts student
SHARED POOL OF MAJORS AND MINORS

The shared pool of majors and minors gives a new level of flexibility to our degrees, allowing you to expand your education with a second field of study.

For instance, you will be able to enjoy studying English while also pursuing an interest in geography; combine your major in French and Francophone studies with finance; or develop expertise in ancient history while studying music. See pages 44 to 48 for in-depth details of arts and social sciences majors.

The shared pool is available to all students studying the Bachelor of Arts, Bachelor of Economics and Bachelor of Visual Arts, as well as all Bachelor of Advanced Studies degrees. The majors listed in the shared pool can also be taken as minors.

Combine your primary major with a major or minor in one of the areas below.*

- Biblical Studies and Classical Hebrew
- Celtic Studies (minor)
- Chinese Studies
- Criminology (minor)
- Cultural Studies
- Digital Cultures
- Diversity Studies (minor)
- Econometrics
- Economic Policy
- Economics
- Education
- English
- European Studies
- Film Studies
- Financial Economics

- Ancient History
- Anthropology
- Arabic Language and Cultures
- Archaeology
- Art History
- Asian Studies
- Australian Literature (minor)

Business
- Accounting**
“The flexibility of my degree allowed me to spend my first year exploring my broad interests and trying out my options to determine which subject areas were right for me and could lead to a career path that I could see myself pursuing.

From learning linguistics field methods and practising Italian speaking skills with native speakers to getting real-life experience in a working research laboratory, I have gained the skills and experience that I believe will have a real impact on my future career prospects.”

Jayden O’Brien
Italian Studies and Neuroscience student

*The full shared pool of majors and minors may not be available to students studying education or social work degrees. sydney.edu.au/courses

**Completion of the Accounting major is not sufficient for associate membership to CPA Australia or Chartered Accountants Australia New Zealand (CAANZ). A direct professional accreditation pathway covering all the required core knowledge criteria is only available through the Bachelor of Commerce and Bachelor of Economics.
## ARTS AND SOCIAL SCIENCES MAJORS AND MINORS IN DEPTH

With such a diverse range of majors and minors, whatever your academic or professional ambitions, you can pursue your interests with us.

<table>
<thead>
<tr>
<th>Major/minor</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Agricultural and Resource Economics</td>
<td>A major in Agricultural and Resource Economics provides you with a valuable understanding of commodity markets and the economics of agricultural production. As a graduate you will have excellent employment prospects to work as an applied economist in commodities and futures markets, merchant and trading banks, government departments, large agribusiness firms, corporate farms, and in the media as an economic journalist.</td>
</tr>
<tr>
<td>American Studies</td>
<td>Experience a wide range of US-focused units and benefit from the expertise of Australia’s largest group of academics working on the US. Informed by our dedicated United States Studies Centre, American Studies offers a unique perspective on history, culture, society and politics. This pioneering major fosters a creative approach to the construction and meaning of American identity and power.</td>
</tr>
<tr>
<td>Ancient Greek</td>
<td>An Ancient Greek major allows you to read, in the original, works of immense cultural and literary significance by the great writers of the ancient Mediterranean world. The study of philosophy, history, drama, lyric, epic, the novel, and oratory begins in Greece, and Greek contributions to world literature are undisputed models of perfection in every later age.</td>
</tr>
<tr>
<td>Ancient History</td>
<td>Embark on a captivating discovery of the Ancient Greek and Roman civilisations through the evidence of myths, images, inscriptions, artefacts, written history and literature. Experience the interplay between the past and the present through a re-examination of the classical world and learn to appreciate its historical and cultural importance.</td>
</tr>
<tr>
<td>Anthropology</td>
<td>The study of humankind, Anthropology covers both what we have in common and how we differ in the world today. Learn about the changing ways of life in China, Southeast Asia, Latin America, Indigenous Australia and the Pacific Islands. As a graduate you will have a sophisticated understanding of cultural difference in a globalised world, and the capacity to analyse cross-cultural settings. These are important skills for employment in a wide range of public, private, and non-profit organisations.</td>
</tr>
<tr>
<td>Arabic Language and Cultures</td>
<td>Arabic is the fifth most widely spoken language in the world. It is one of the official languages of the United Nations and the religious language of 1.5 billion Muslims, as well as millions of Christians and Jewish people. Political and economic developments in the Arab world and parts of the Middle East have made understanding, speaking, reading and writing Arabic an increasingly valuable skill.</td>
</tr>
<tr>
<td>Archaeology</td>
<td>Learn how to reconstruct ancient cultures from the material residues of their activities and how to interpret archaeological evidence to influence the present. Gain an understanding of the methods and thinking with which archaeologists interpret past lives. Answer the most crucial questions about prehistoric and historic societies, and experience a far-reaching focus on Australia, the broader Near East and classical Mediterranean societies.</td>
</tr>
<tr>
<td>Art History</td>
<td>In today’s image-saturated world, the ability to critically interpret the visual appearance of a given object is highly relevant. Study art history to gain skills in understanding and interpreting visual communication, expression and innovation. Explore the rich and fascinating history of creating, viewing and experiencing works of art and architecture. Understand and recognise how art is a profound and persistent human impulse.</td>
</tr>
<tr>
<td>Asian Studies</td>
<td>In the Asian Century, the task of understanding the region is of vital importance. This major will help you develop a critical insight into the world of Asia by exploring the most important cultural, historical, social and political trends and issues in relation to China, Japan, Korea, Southeast Asia and South Asia.</td>
</tr>
<tr>
<td>Major/minor</td>
<td>Description</td>
</tr>
<tr>
<td>-----------------------------------</td>
<td>------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td><strong>Australian Literature (minor)</strong></td>
<td>Gain a broad understanding of the history and characteristics of Australian literature. Learn about writing in and about Australia, as well as Australian writers in their various national and international contexts.</td>
</tr>
<tr>
<td><strong>Biblical Studies and Classical Hebrew</strong></td>
<td>A major in Biblical Studies and Classical Hebrew will allow you to explore some of the foundational texts and histories of Western civilisation. Encountering the Bible in translation or learning to read these texts in Hebrew, you will consider the themes and message of the biblical books, experiment with new approaches to texts and ideas and challenge common assumptions.</td>
</tr>
<tr>
<td><strong>Celtic Studies (minor)</strong></td>
<td>Celtic Studies focuses on the study of language, history and culture of the Celtic-speaking peoples, from prehistory to the present. Develop skills and knowledge on a subject that is highly significant to European and Australian cultural heritage.</td>
</tr>
<tr>
<td><strong>Chinese Studies</strong></td>
<td>Chinese Studies delivers a solid understanding of Chinese society and culture and the foundational language skills essential to function with confidence in the Chinese-speaking world. In addition to the full range of units of study offered by the department, you will have the opportunity to go on exchange or attend an Intensive Summer Program at Peking University.</td>
</tr>
<tr>
<td><strong>Criminology (minor)</strong></td>
<td>Criminology is devoted to the study of crime, deviance, social control and the legal system. Examine central criminological topics such as policing, youth justice, criminal justice, sentencing, prisons and punishment, crime and media, Indigenous justice, forensics, and human rights.</td>
</tr>
<tr>
<td><strong>Cultural Studies</strong></td>
<td>Cultural Studies is concerned with how we understand ourselves, others and our place in the world. Learn about the forms and meanings of everyday life, focusing on questions of identity, meaning, representation, policy formations and power. Equip yourself to be an informed and engaged critical thinker on issues such as popular culture, media, gender, sexuality, globalisation and consumer culture.</td>
</tr>
<tr>
<td><strong>Digital Cultures</strong></td>
<td>This is an innovative major that critically investigates the Internet, new media and digital technologies and examines the roles these play in contemporary life. Explore intelligent, interactive, mobile and networked technologies and become a skilled communicator and critical analyst of new technologies and digital media in Australian and global contexts.</td>
</tr>
<tr>
<td><strong>Diversity Studies (minor)</strong></td>
<td>Diversity Studies offers you an applied understanding of cultural diversity in its many forms. Learn about the experiences of various groups of people, including Indigenous peoples, migrants, people of colour, women, and those of non-normative sexualities or identities. This minor will equip you with a wide range of frameworks for social justice and policy work in a variety of professions.</td>
</tr>
<tr>
<td><strong>Econometrics</strong></td>
<td>Econometrics is a diverse and fascinating discipline focusing on issues that shape the broad framework of society.HONE high-level quantitative skills to deal with the huge data sets that have resulted from information technology and learn how to analyse energy demand, greenhouse gas emissions, international trade flows or consumer behaviour.</td>
</tr>
<tr>
<td><strong>Economic Policy</strong></td>
<td>This major focuses on developing the theoretical economic and statistical skills to effectively understand and implement economic policy. Gain a framework for the systematic analysis of policy, an understanding of the rationales for government economic activity and a method for comparing proposed policies using economic tools of analysis. Pursue a career as a policy analyst, economic commentator or journalist, or adviser in the government or NGO sectors.</td>
</tr>
<tr>
<td><strong>Economics</strong></td>
<td>Offered by one of Australia's highly ranked centres in economics, this major conveys a valuable understanding of the context of business and government and the technical skills required to analyse economic and social data and events. Develop key capabilities for business fields such as financial markets, marketing, transport and logistics, international trade and consulting or the media.</td>
</tr>
<tr>
<td><strong>Education</strong></td>
<td>While not designed to prepare you for a career in teaching, this major will help you develop an understanding of education as a social phenomenon through historical, psychological, philosophical and sociological perspectives. You will examine the relationship between education and politics, social organisation, and economic development, across different societies and cultures.</td>
</tr>
<tr>
<td><strong>English</strong></td>
<td>An English major will introduce you to a wide range of literary and cultural works that extend from medieval times to the present day. You will encounter the richness, breadth and depth of the department’s research and teaching culture, allowing you to customise your study according to your interests. Study in Australia’s number one ranked department for English language and literature* and prepare for a career in teaching, the media, public and community service, academia, and in any vocation that demands intellectual versatility, effective communication skills and critical thinking.</td>
</tr>
<tr>
<td><strong>European Studies</strong></td>
<td>Europe comprises one-tenth of the world’s population, and is one of the world’s largest economies. Multidisciplinary in outlook, this major examines aspects of European life, including economics, politics and the social sciences. Career pathways include international relations, international law, business, communications and journalism.</td>
</tr>

<thead>
<tr>
<th>Major/minor</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Film Studies</td>
<td>Film studies opens us to other worlds and other ways of seeing. This major develops critical visual literacy, equips you with a range of skills for understanding and analysing cinema as a vital and yet everyday part of modern life, and expands your knowledge of the social, cultural, aesthetic and political dimensions of cinema in different contexts and at different times.</td>
</tr>
<tr>
<td>Financial Economics</td>
<td>Financial Economics offers a detailed investigation of the economic models used in finance and imparts the econometric skills needed to apply these models to financial markets and other economic data. Acquire a deep understanding of the key concepts of economics, with a focus on contemporary issues of Australian and international importance and develop skills in an area of high demand for employers.</td>
</tr>
<tr>
<td>French and Francophone Studies</td>
<td>Experience the rich history and cultural diversity of the official language of 29 countries (la Francophonie), spoken by more than 300 million people worldwide. Prepare for work in fields as diverse as international relations and trade, journalism, IT, teaching, the arts and entertainment industry, as well in a range of international non-government organisations.</td>
</tr>
<tr>
<td>Gender Studies</td>
<td>Gender Studies allows you to explore how sex and gender are understood and lived in their own and other cultures. It provides an important framework for considering wide-ranging social issues, including marriage equality, new forms of intimacy, gendered forms of labour, violence, race and representational practices. It is an important complement to degrees specialising in law or legal studies, the sciences, the arts, government and policy-making, and international relations.</td>
</tr>
<tr>
<td>Germanic Studies</td>
<td>A major in Germanic Studies involves the study of both German language and culture including literature, film, history and society. Through exchange programs in Berlin, Vienna, Munich, Cologne, Freiburg and Constance you can experience exciting opportunities to enhance language proficiency and deepen your understanding of German culture.</td>
</tr>
</tbody>
</table>
| Global Studies*                   | Equip yourself with the tools to understand the paradoxes and complex inter-connections of globalisation. Explore issues such as the rapid growth of wealth in some parts of the world accompanied by the impoverishment of others; the large-scale mobility of workers, migrants, and refugees; the rise of global civil society (NGOs); and the challenges and opportunities of online information.  

*Only available to International and Global Studies program or Arts/Law students |
<p>| Hebrew (modern)                   | This holistic language learning program covers listening, speaking, reading, writing and cultural awareness. It will develop and expand your proficiency in these five language and cultural skills with the opportunity to complete some of your studies at the Hebrew University in Jerusalem. |
| History                           | The largest history major in Australia equips you to understand change, to look at things from different perspectives, and to assess diverse kinds of information. It offers a variety of topics, from sexuality and war to politics and culture, the history of ideas and the history of food; and it spans the Middle Ages to the present, from Australia and China to the United States and Europe. You will have the opportunity to customise your study according to your interests. |
| Indigenous Studies                | Develop a deep understanding of Aboriginal and Torres Strait Islander cultures, histories and knowledge systems, drawing on history, anthropology, sociology, literature, linguistics, film and health studies. Be taught by Indigenous and non-Indigenous academics from across the University and experts from the wider community, and develop your knowledge on the many voices, perspectives and priorities of Indigenous peoples and communities. |
| Indonesian Studies                | A complex and exciting country, Indonesia is so close to Australia yet different in so many ways. Drawing on our extensive links in Indonesia and with the Indonesian community in Australia, you can experience a highly integrated and contemporary program covering history, politics, geography, anthropology, language and culture. |
| International Comparative Literary Studies | Learn from academics with disciplinary backgrounds in literature, film studies, theatre studies, cultural studies, translation studies, and social sciences, and with expertise in European, Asian, and Middle Eastern traditional and modern cultures. This major is personally rewarding and helps to prepare you for a range of career paths in publishing, advertising, media industries, government and non-government organisations, and academic research. |
| International Relations           | International Relations is the study of the international political and economic system. Explore the historical development of that system, understand the actors, institutions, and processes of international politics and develop a critical insight into the forces governing the behaviour of states, the factors that lead to military conflict or peaceful co-operation, and the current trends towards a world that is more globally integrated and fragmented. |
| Italian Studies                   | Select from a wide range of language and culture units from one of the largest Italian departments in Australia and benefit by spending a semester with one of our Italian partner universities. Develop high levels of linguistic aptitude and deep understanding of Italian authors, thinkers and literary and intellectual movements from the Middle Ages to the present. |</p>

<tbody>
<tr>
<td>Japanese Studies</td>
<td>One of the oldest programs of its kind in the English-speaking world, Japanese Studies offers consideration of a rich history and culture, as well as a rewarding language experience. Benefit from an in-country exchange with our large network of partner universities in Japan and prepare for employment in education, government, media, international relations and the private sector.</td>
</tr>
<tr>
<td>Jewish Civilisation, Thought and Culture</td>
<td>Explore two millennia of Jewish civilisation focusing on the historical evolution of Judaism, and how Jewish identity has been moulded by key Jewish thinkers and the Jewish historical experience. Gain insight into the rich cultural heritage of a small minority and their significant contributions to broader world culture in both the Christian and later Muslim worlds.</td>
</tr>
<tr>
<td>Korean Studies</td>
<td>Korea is a dynamic nation standing at the epicentre of Northeast Asia. Korean Studies provides a broad foundation in Korean language as well as history, linguistics, culture and society and media and communication. Equip yourself with crucial communication skills and an in-depth knowledge of this intriguing nation.</td>
</tr>
<tr>
<td>Latin</td>
<td>Learn to read works of immense cultural and literary significance by the iconic writers of ancient Rome. Latin is the direct ancestor of nearly 50 modern languages and a major contributor to the vocabulary of many others, including English. It was also the language of European literature, history, science, medicine, diplomacy and law for nearly 2000 years. The Latin major opens up intellectual vistas vital for exploring the past or navigating the present.</td>
</tr>
<tr>
<td>Linguistics</td>
<td>Find out what language is like and identify ways to use this knowledge in understanding communication, culture, social life, and the human mind. Each of the world’s 6000 languages is a rich and textured system. From the Amazon to Africa, Southeast Asia to Indigenous Australia, learn how we use language for thinking, gathering information and structuring our societies.</td>
</tr>
</tbody>
</table>
| Media Studies*             | Gain an education in the history and theory of media production and communications, and develop professional skills in print, audio, video, online media and public relations. Learn about media production, the structure of the media and communications industries, the media’s role in culture and politics, globalisation, and legal and ethical issues in the field.  
*Only available to Media and Communications program or Arts/Law students |
<p>| Modern Greek Studies        | Study one of the oldest languages and cultures at Australia’s largest department of Modern Greek and Byzantine Studies. Select from a range of language and culture units, benefit from an intensive in-country program and prepare for employment in education, translation and interpreting, media, government and the private sector. |
| Music                      | Offered through the renowned Sydney Conservatorium of Music, this major gives you the tools to engage in the interpretation, analysis, performance and writing of popular music, music for film and television and digital media, classical music and various forms of music worldwide. |
| Philosophy                 | Philosophy explores fundamental and important questions such as ‘What is consciousness?’, ‘Are we free agents?’, ‘What makes an action right or wrong?’, ‘How should we live?’ and ‘What is truth?’ Cultivate critical thinking and intellectual perception crucial for adapting to fast-changing social, political and academic environments. Learn how to think precisely, deliberate carefully, and communicate ideas in vivid and persuasive ways. |
| Political Economy           | Political Economy focuses on the links between the economy, society and political interests. It deals with important challenges such as economic instability and uneven development, employment and inequitable income distribution, the globalisation of economic activity, and environmental sustainability. Enhance your understanding of the modern economy by exploring the dynamics of corporate globalisation, the concentration of economic activity, wealth and opportunities, and the trade-offs between health, education and social services. |
| Politics                   | Politics is the study of the nature of governments and the distribution of power at the domestic level. Gain the knowledge, theoretical understandings, and practical skills to engage with politics at the domestic level. As a graduate you will have the skills desired by public, private and non-profit organisations, domestically and in different political contexts across the world. |
| Sanskrit (minor)            | Through the study of Sanskrit language, the most important classical language of the Indian subcontinent, you can explore the various intellectual, literary and artistic traditions that have shaped South Asia (India, Pakistan, Bangladesh, Sri Lanka, Nepal and Bhutan), Central Asia, Southeast Asia and Tibet and played a profound role in forming Asia as a whole. |
| Social Policy (minor)       | Social Policy analyses how different policies affect the social and economic welfare of individuals, families and communities. Explore the principles of social policy and its enactments in different national contexts. Policy areas include: health; work; employment; youth services; housing; urban and regional planning and development; women; Indigenous people and communities; multiculturalism; environmental and climate change. |</p>
<table>
<thead>
<tr>
<th>Major/minor</th>
<th>Description</th>

</thead>
<tbody>
<tr>
<td>Socio-Legal Studies</td>
<td>Socio-Legal Studies is the study of legal ideas, practices and institutions in their social and historical contexts. Examine the institutions that make and enforce laws - parliament, the courts and the police. Learn about legal practices and their impact, including arrest and imprisonment, the use of CCTV surveillance, regulating business, enforcing human rights and prosecuting international war crimes. Understand the impact of the legal system in different communities and consider how the law operates across different countries and regions.</td>
</tr>
<tr>
<td>Sociology</td>
<td>Sociology is the study of human behaviour, beliefs and identity in the context of social interaction, institutions and change. Learn how society shapes us, how we shape society, how the 'modern' world came about, and how it might develop in the future. Think like a sociologist and consider the key questions in religion, media, sport, environmental issues, social movements, inequality, class, gender, power and identity.</td>
</tr>
<tr>
<td>Spanish and Latin American Studies</td>
<td>Spanish is the official language of 21 countries and is spoken by more than 400 million people. Studying Spanish will equip you with a deep knowledge of the language and offer you the tools to examine and understand politics, society and culture in the Spanish-speaking world. Our exchange programs with universities in Spain and Latin America will enhance your learning experience by offering invaluable in-country exposure to these societies and cultures.</td>
</tr>
<tr>
<td>Studies in Religion</td>
<td>Analyse the concepts that people and communities prioritise in their lives to explain their existence. Acquire the skills to understand the central role of religion in broader socio-cultural practice and investigate the ways in which humans have attributed value to their lives, societies, and other important ideals, from family to nation, individuality and the afterlife.</td>
</tr>
<tr>
<td>Theatre and Performance Studies</td>
<td>Theatre and Performance Studies looks at a broad range of aesthetic, social and everyday performances: across theatre, dance or ‘live art’ and the stage, to the performative dimensions of politics, sport, cinema and popular culture. Explore a range of different approaches to performance making; engage with professional artists-in-residence; and learn how to document performative events and how to build these observations into a detailed critical analysis.</td>
</tr>
<tr>
<td>Visual Arts</td>
<td>Offered through Sydney College of the Arts, this major will provide you with creative, conceptual and technical skills that can be applied across a wide range of disciplines. As the creative economy expands, skills in both digital and traditional processes, and ways of thinking and communicating through image-based media are essential for many professions.</td>
</tr>
<tr>
<td>Writing Studies (minor)</td>
<td>Drawing from established research in a wide range of fields, Writing Studies will teach you to combine various research methods including rhetorical, discourse and textual analysis; and to examine written, spoken and visual texts at various stages of production from conception to transmission and consumption.</td>
</tr>
</tbody>
</table>

There are a number of opportunities for students in the Bachelor of Arts or Bachelor of Arts/Bachelor of Advanced Studies degrees to complement or extend their studies. You can pair a major in the humanities or social sciences with a program in Psychology, or explore the opportunities offered by the shared pool.

<table>
<thead>
<tr>
<th>Major/minor</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Psychology</td>
<td>Psychology is the scientific study of human behaviour and mental processes. Investigate the way we behave as individuals and as social beings, interrogate the way we act and the way we think, and explore our interaction with the physical world and with each other.</td>
</tr>
</tbody>
</table>

Students who specialise in modern languages can pursue an interest in multilingual translation in the final year of the combined Bachelor of Arts/Bachelor of Advanced Studies.

<table>
<thead>
<tr>
<th>Major/minor</th>
<th>Description</th>

HOW TO APPLY
DOMESTIC STUDENTS

1. Choose your course
Visit sydney.edu.au/courses

2. Check the entry requirements
Admission to the University of Sydney is highly competitive. You need to meet specific academic requirements before we can make an unconditional offer of admission.

For most undergraduate courses, entry is based on your Australian Tertiary Admission Rank (ATAR) or equivalent.

For some courses, including medicine, visual arts and the Sciences Po dual degrees, there may be additional selection criteria, such as an interview or portfolio. For details, visit:

- sydney.edu.au/ug-entry

Prerequisites, assumed knowledge and bridging courses
Some courses have prerequisites and some expect you to have a certain level of knowledge in particular areas. Refer to relevant course page for course specific prerequisites or assumed knowledge requirements.

Some courses expect you to have a certain level of knowledge in areas such as mathematics, physics, biology or chemistry. If you have not studied these in high school, we offer bridging courses to get you up to speed.

- sydney.edu.au/ug-bridging

3. Explore your entry options
If you’re not sure you’ll reach the ATAR cut-off for your preferred course, check our website to see if you’re eligible to apply for one of our alternative entry pathways.

- sydney.edu.au/access

4. Submit your application
As a domestic student, you need to submit your application online through the Universities Admissions Centre website:

- uac.edu.au

On-time applications are due by 30 September 2017. A late fee applies to applications after this date.

If you’re applying for a Sciences Po dual degree, you will be required to apply directly to the University, even if you are applying through UAC for your other preferences.

*You are a domestic student if you are an Australian or New Zealand citizen (including dual citizens), or an Australian permanent resident or humanitarian visa holder.
HOW TO APPLY
INTERNATIONAL STUDENTS’

1
Choose your course

3
Submit your application
If you are completing:
- a current Australian Year 12 secondary school examination in or outside Australia; or
- a current International Baccalaureate (IB) diploma in Australia or New Zealand; or
- a current New Zealand Certificate of Educational Achievement (NCEA) Level 3 qualification then you need to submit your application online through the Universities Admissions Centre International website:
- uac.edu.au/international

All other applicants need to apply directly to the University. Go to sydney.edu.au/courses to search for your course, then click on the ‘Apply now’ button.

Application deadlines
These vary by course. Check the specific closing date for your course at:
- sydney.edu.au/courses

*An international student is anyone who is not an Australian or New Zealand citizen (or dual citizen of Australia or New Zealand), permanent resident of Australia, or holder of an Australian humanitarian visa. To enrol at university, international students need to hold a visa that allows them to study in Australia.
GLOSSARY OF TERMS

Unit of study
A single subject, usually studied over the course of a single semester, with an alpha-numeric code denoting its discipline and level. Four units per semester make up a normal full-time study load.

Major
A defined sequence, normally of eight units, which develops depth of expertise in a field of study. A major gives you substantial disciplinary training and prepares you for advanced coursework and further study. Most degrees involve a primary major, which must be taken from a specific list.

Minor
A defined sequence, usually of six units, which develops expertise in a second field of study. In most degrees, a minor may be taken from a wide pool offered to students across the University.

Program
A combination of units that develops expertise in a multi-disciplinary domain or specialist field and includes a major as well as additional units.

Stream
A pathway within a nominated degree, separated for admission purposes. Streams involve designated programs of study and will often have a specific ATAR entry requirement.

Open Learning Environment
A pool of units allowing you to build your skills and extend your knowledge according to your own needs. These units cover foundational knowledge, concepts, skills and experiences in a wide range of disciplines and domains of broad interest and applicability.

Elective
These units give further breadth to your degree, allowing you to study subject areas outside your chosen major and minor.

Project
A unit that allows you to apply your skills and disciplinary knowledge to real-world problems. Each major involves some project work, and a more substantial project is a key feature of the Bachelor of Advanced Studies.

Advanced coursework
Units that allow you to further deepen the disciplinary expertise gained in your major.

Honours
A year of full time study in a specialist subject area. Entry requires an average of 70 or above in the relevant major.
August 2017
- The best way to get a feel for the campus is to visit us on Open Day, Saturday 26 August 2017: sydney.edu.au/open-day
- Applications open for Sciences Po dual degrees. Prospective students need to apply directly to the University of Sydney: sydney.edu.au/courses

September 2017
- Submit your on-time application to UAC no later than 30 September: uac.edu.au
- Scholarship applications open: sydney.edu.au/scholarships

October 2017
- Attend Sydney College of the Arts (SCA) Information Session and Portfolio Day on Saturday 7 October 2017. For more information and to register, visit: sydney.edu.au/sca/portfolioday
- Round 1 applications for the Sciences Po dual degrees close on 31 October.

November 2017
- Portfolio submissions for the Bachelor of Visual Arts and Bachelor of Visual Arts and Bachelor of Advanced Studies degrees need to be received by SCA by 5pm on Friday 17 November 2017. Late submissions will be considered on a case-by-case basis.

December 2017 – January 2018
- Year 12 students receive their HSC results and ATAR in mid-December.
- Attend Info Day to experience campus life and get last-minute advice about your course and career options: sydney.edu.au/info-day
- Check the UAC website to confirm the final date by which your main round UAC preferences need to be finalised.
- Main Round offers are made via the UAC website. Accept your offer within one week of receiving it to avoid losing your place.
- Attend Academic Advice Day on Wednesday 17 January to find out more about your next steps after UAC offers have been released. For more information, visit sydney.edu.au/arts/advice_days
- Round 2 applications for the Sciences Po dual degrees close on 31 January.

February 2018
- If you submitted your application late or did not receive an offer in the Main Round, and your preferred course is not already full, you may receive a February Round UAC offer.
- Attend Orientation Week the week before semester starts: sydney.edu.au/orientation

March 2018
- Semester 1 begins.
If you read only one thing, read this.

Your journey to university is as unique as you are.

At the University of Sydney, you have the opportunity to create your own path. You can customise your course, and get involved in extracurricular activities to personalise your uni experience.
