Signature: _____ Date: _____

Approval of SCA Graduate School

I approve / reject the above supervisory arrangements.

Comments:

Three horizontal lines for handwritten comments.

Name (Director of SCA Graduate School) Signature (Director of SCA Graduate School) Date

Supervisory Team

The following regulations for supervision arrangements have been determined by the Academic Board. **It may be necessary to re-arrange the supervisory team and/or appoint new supervisors in order to comply with these regulations. Please read these carefully.**

- (a) Co-supervision is no longer permitted.
- (b) All research students must have a Supervisor and at least one Associate Supervisor at all times.
- (c) The Supervisor must have a formal affiliation within the discipline in which the student is enrolled. In addition to this recommendation, at least one of the supervisory team must be a salaried member of staff or have a conjoint appointment. Where supervisors hold clinical titles with the Faculty, an Associate Supervisor who is either a salaried member of staff or a conjoint appointment must be appointed. Where necessary, the Postgraduate Co-ordinator may be appointed as an additional Associate Supervisor to fulfil this requirement.
- (d) Associate supervisors may be anybody relevant to the candidature provided recommendation (b) and (c) above are satisfied.
- (e) Any number of associate supervisors may be appointed provided recommendations (b) and (c) above are satisfied.

Where the number of team members exceeds two, please attach additional copies of this form.

<p>Once the form is complete and signed by all supervisory team members, please forward to the Student Administration Office.</p>
