CSIRO/Data61 Postgraduate Research Scholarship in Digital Agriculture

Terms and Conditions
June 2018

1. Background

a. Funded by the CSIRO through Data61, this Scholarship aims to support students undertaking a PhD within either the Faculty of Science, or Faculty of Engineering and Information Technologies, where the focus of their research is on information science relevant to the agricultural domain.

2. Eligibility

a. Applicants must be Australian citizens or Australian permanent residents that have an unconditional offer of admission for full-time studies in a PhD within the Faculty of Science, or the Faculty of Engineering and Information Technologies at the University of Sydney, and who are willing to undertake research in the field of information science and agriculture.

b. Applicants must also hold an Honours degree (First Class or Second Class upper) or a Master's degree in information science or science (agriculture) with a substantial research component, or equivalent. Applicants with an Honours degree (Second Class Upper) must also have a history of research aptitude such as scholarly publication in either peer reviewed national or international journals.

c. Applicants must not be engaged in full-time employment, or be subject to an obligation with another party to provide that party with any intellectual property rights during the course of their research studies.

3. Selection Criteria

a. The successful applicant will be awarded the Scholarship on the basis of:

   I. academic merit,
   II. area of study and research proposal,
   III. curriculum vitae,
   IV. feedback from two academic referees,
   V. supervisory agreement (both at the University and CSIRO), and
   VI. a personal statement demonstrating interest in the area of research and project.

b. The successful applicant will be awarded the Scholarship by the nomination of the Dean in the Faculty of Science, or Faculty of Engineering and Information Technologies (whichever is relevant), or their nominee, the relevant University project academic supervisor and up to two CSIRO/Data 61 research supervisors (as relevant for each project).

4. Value

a. The Scholarship will provide an annual stipend allowance equivalent to the RTP rate (indexed to the RTP rate on January One each year) for up to three years, subject to satisfactory academic performance. The recipient may apply for an extension of up to 6 months.
b. Scholarship recipients may also be able to access funding for incidental expenses through a separate grant scheme.

c. Periods of study already undertaken towards the degree prior to the commencement of the Scholarship, will be deducted from the maximum duration of the Scholarship excluding the potential extension period.

d. The Scholarship is for commencement in the research period in which it is offered and cannot be deferred or transferred to another area of research.

e. No other amount is payable.

f. The Scholarship will be offered subject to the availability of funding.

5. Eligibility for Progression

a. Progression is subject to passing the annual progress review.

6. Leave Arrangements

a. The Scholarship recipient receives up to 20 working days recreation leave each year of the Scholarship and this may be accrued. However, the student will forfeit any unused leave remaining when the Scholarship is terminated or complete. Recreation leave does not attract a leave loading and the supervisor’s agreement must be obtained before leave is taken.

b. The Scholarship recipient may take up to 10 working days sick leave each year of the Scholarship and this may be accrued over the tenure of the Scholarship. Students with family responsibilities, caring for sick children or relatives, or experiencing domestic violence, may convert up to five days of their annual sick leave entitlement to carers leave on presentation of medical certificate(s). Students taking sick leave must inform their supervisor as soon as practicable.

7. Research Overseas

a. The Scholarship recipient may not normally conduct research overseas within the first six months of award.

b. The Scholarship holder may conduct up to 12 months of their research outside Australia. Approval must be sought from the student’s supervisor, Head of School and the Faculty via application to the Higher Degree by Research Administration Centre (HDRAC), and will only be granted if the research is essential for completion of the degree. All periods of overseas research are cumulative and will be counted towards a student’s candidature. Students must remain enrolled full-time at the University and receive approval to count time away.

8. Suspension

a. The Scholarship recipient cannot suspend their award within their first six months of study, unless a legislative provision applies.

b. The Scholarship recipient may apply for up to 12 months suspension of the Scholarship for any reason during the tenure of their Scholarship. Periods of Scholarship suspension are
CSIRO/Data61 Postgraduate Research Scholarship in Digital Agriculture

cumulative and failure to resume study after suspension will result in the award being terminated. Approval must be sought from the student’s supervisor, Head of School and the Faculty via application to the Higher Degree by Research Administration Centre (HDRAC). Periods of study towards the degree during suspension of the Scholarship will be deducted from the maximum tenure of the Scholarship.

9. Changes in Enrolment

a. The Scholarship recipient must notify HDRAC and their supervisor promptly of any planned changes to their enrolment including but not limited to: attendance pattern, suspension, leave of absence, withdrawal, course transfer, and candidature upgrade or downgrade. If the award holder does not provide notice of the changes identified above, the University may require repayment of any overpaid stipend.

10. Termination

a. Unless terminated earlier under this paragraph, the Scholarship will terminate:
   
   I. on resignation or withdrawal of the student from their PhD,
   II. upon submission of the thesis or at the end of the award,
   III. if the student ceases to be a full-time student and prior approval has not been obtained to hold the Scholarship on a part-time basis,
   I. upon the student having completed 4 years equivalent full-time study for a PhD, or 2 years equivalent full time study for a masters by research,
   II. if the recipient receives an alternative primary scholarship,
   III. if the student does not sign the required Student Agreement with the CSIRO upon accepting the Scholarship, or
   IV. if the student ceases to meet the eligibility requirements specified for this Scholarship, (other than during a period in which the Scholarship has been suspended or during a period of approved leave).

b. The Scholarship may also be terminated by the University before this time if, in the opinion of the University:

   I. the course of study is not being carried out with competence and diligence or in accordance with the terms of this offer,
   II. the student fails to maintain satisfactory progress, or
   III. the student has committed misconduct or other inappropriate conduct.

c. Stipend payments will be suspended throughout the duration of any investigation/appeal process.

d. Once the Scholarship has been terminated, it will not be reinstated unless subject to University error.

11. Misconduct

a. Where during the Scholarship a student engages in misconduct, or other inappropriate conduct (either during the Scholarship or in connection with the student’s application and eligibility for the Scholarship), which in the opinion of the University warrants recovery of funds paid to the student, the University may require the student to repay stipend amounts
and any other payments made to the student in connection with the Scholarship. Examples of such conduct include and without limitation; academic dishonesty, research misconduct within the meaning of the Research Code of Conduct (for example, plagiarism in proposing, carrying out or reporting the results of research, or failure to declare or manage a serious conflict of interests), breach of the Code of Conduct for Students and misrepresentation in the application materials or other documentation associated with the Scholarship.

b. The University may require such repayment at any time during or after the Scholarship period. In addition, by accepting this Scholarship, the student consents to all aspects of any investigation into misconduct in connection with this Scholarship being disclosed by the University to the funding body and/or any relevant professional body.

12. Other

a. The specific Student Agreement will cover the following items:

   I. intellectual property rights,
   II. confidentiality,
   III. publication rights, and
   IV. other matters as required.
