Master of Information Technology Half-fee Semester Scholarship

Established in 2004 by the School of Information Technologies. A limited number of Semester 1 half-fee scholarships shall be made to new students commencing full-time studies in the Master of Information Technology. Some semester 2 scholarships shall also be made available for full-time students who commenced the course in Semester 1, and who are continuing their studies on a full-time basis in Semester 2.

Selection criteria

- The scholarships shall be awarded on the basis of academic merit.
- For scholarships awarded in Semester 1 academic merit shall be based on performance in relevant undergraduate studies prior to admission to the Master of Information Technology course.
- For scholarships awarded in Semester 2, academic performance shall be assessed on the basis of full-time performance in the Master of Information Technology course in Semester 1.

Payment schedule

A maximum of 4 scholarships will be offered every year at the rate of 2 per semester.

Conditions of award

Please refer to the terms and conditions of this Scholarship for a full list of the conditions that apply.
TERMS & CONDITIONS
SC0384 - Master of Information Technology Half-fee Semester Scholarship

Established in 2004 by the School of Information Technologies. A limited number of Semester 1 half-fee scholarships shall be made to new students commencing full-time studies in the Master of Information Technology course. Some semester 2 scholarships shall also be made available for full-time students who commenced the course in Semester 1 and who are continuing their studies on a full-time basis in Semester 2. The scholarships shall be awarded on the basis of academic merit on the recommendation of the Head of the School of Information Technologies. For scholarships awarded in Semester 1 academic merit shall be based on performance in relevant undergraduate studies prior to admission to the Master of Information Technology course. For scholarships awarded in Semester 2, academic performance shall be assessed on the basis of full-time performance in the Master of Information Technology course in Semester 1.
Applications shall not be necessary because all students who have accepted an offer of a place in the course prior to the commencement of Semester 1 shall be considered for the award of a scholarship. Value: 50% of the tuition fee for one Semester.
A maximum of 4 scholarships will be offered every year at the rate of 2 per semester.
