Under the will of Florence Price the residuary estate was left to the University to be invested by it and the income used for the purpose of establishing the Norman I. Price Scholarship in Electrical Engineering to perpetuate the memory of Mrs Price's husband.

The scholarship is awarded under the following conditions:

1. The name of the scholarship shall be the Norman I. Price Scholarship in Electrical Engineering.
2. The object of the scholarship shall be to promote and encourage research in electrical engineering.
3. The scholarship shall be open to graduates of the University of Sydney or to any other person eligible for admission to candidature for a higher degree in the University of Sydney.
4. The scholarship shall normally be tenable either-
   (a) as a Postgraduate Research Scholarship with a stipend equal in value to a Commonwealth Postgraduate Award, or
   (b) as a Postdoctoral Scholarship, or
   (c) as a scholarship supplementing another award or grant. It would not normally be incompatible with the object of the scholarship for a supplementary award under condition 4(c) to be held by a member of the staff of the Department of Electrical Engineering who is proceeding overseas for an approved purpose.
   (d) as a Visiting Scholar appointment which may be for a period of less than one year.

The award of a scholarship may be accompanied by a grant-in-aid to cover such items as technical assistance, equipment, fees, travelling and general expenses.

5. The scholar shall carry out investigations within the School of Electrical Engineering or, on the recommendation of the Head of the School of Electrical Engineering, at any other university or institution within Australia or overseas.

6. The scholarship shall normally be tenable for one year in the first instance, but may be renewed from year to year. In special circumstances the scholarship may be held for a period of less than one year.

7. The scholarship shall be awarded by the Dean of Engineering on the recommendation of a selection committee not containing the Dean and consisting of the Head and at least one other member of the Department of Electrical Engineering who is a Professor, Associate Professor or Reader.
