Centenary Scholarship: Digital Futures in Architecture

Background

In the lead up to its centenary in 2018, the Faculty of Architecture, Design and Planning are offering two scholarships for students expected to graduate in 2018. This scholarship has been designed to attract high performing architecture students with a specific interest in digital design to the Master of Architecture program.

Selection criteria

- The scholarship shall be awarded, at the Dean’s (or delegate) discretion based on an assessment of:
  - Academic merit reflected in their transcript of undergraduate studies.
  - The submission of a portfolio of design work from their undergraduate degree or professional work.
  - The submission of a 500 word statement reflecting the applicant’s dedication to using digital solutions to architectural problems.

Ongoing eligibility

- The successful applicant must be enrolled full time for the duration of their degree (minimum of 18 credit points).
- The Scholarship shall be awarded for a maximum of 2 years (4 Semesters).

Payment schedule

- Payment will be paid over two instalments each year after the relevant census dates.

Conditions of award

Please refer to the terms and conditions of this Scholarship for a full list of the conditions that apply.
In the lead up to its centenary in 2018, the Faculty of Architecture, Design and Planning are offering two scholarships for students expected to graduate in 2019. This scholarship has been designed to attract high performing architecture students with a specific interest in digital design to the Master of Architecture program.

The scholarship shall be open to all prospective domestic students who have qualified for entry to the Master of Architecture.

The recipient of the scholarship will hold no other primary scholarship, but may accept from time to time such one off scholarships and prizes as may be eligible/awarded for academic merit. The scholarship cannot be deferred.

The scholarship shall be awarded, at the Dean’s (or delegate) discretion based on an assessment of:
(a) Academic merit reflected in their transcript of undergraduate studies.
(b) The submission of a portfolio of design work from their undergraduate degree or professional work.
(c) The submission of a 500 word statement reflecting the applicant’s dedication to using digital solutions to architectural problems.
(d) The successful applicant must be enrolled full time for the duration of their degree (minimum of 18 credit points).

The continued tenure of the scholarship is dependent on the recipient meeting the requirements outlined below, unless the University otherwise determines:
(a) The recipient must continue to be enrolled full-time in the agreed program;
(b) The recipient must not hold another scholarship of equal or higher value; and
(c) The recipient will be required to pass all units in first year and then maintain an AAM of 65 in subsequent years (the Associate Dean of Education for the Faculty may approve variations to accord with individual students’ circumstances).

The value of the scholarship is $7500 per annum. Payment will be paid over two installments each year after the relevant census dates for a maximum of two calendar years (4 semesters).
