

The School of Chemistry – Subscriptions - 2011

The Vibrational Spectroscopy Facility is encouraging all internal users to pay for their instrument time through a subscription scheme. The scheme is available at levels to suit individuals or active research groups at substantial discounts (~52%) to standard charge rates. The subscription also covers the cost of attending training courses.

A pay-as-you-go option is also available for users with small projects or occasional needs.

Further details of the scheme are available from the Professional Officer Vibrational/Electronic Spectroscopy, Lauren Clements Ph: 9036 5179, Fax: 9351 3329, Email l.clements@chem.usyd.edu.au

Notes on the Subscription System:

- The subscription includes two places at all Facility courses. Additional places are dependent upon availability.
- The subscriptions are for researchers to use the equipment, not for the P.O. to collect the data.
- Subscriptions are not usually refundable against time not-used.
- Access of the instrumentation by members within a research group is allowed for a given subscription. However, members of this group must be identified at the commencement of the subscription and the Professional Officer must be informed of new members. All members must undergo appropriate training.
- The examples in the above schedule are intended as indicative. Researchers may block time together as required by their project.
