

Biochemistry, Cellular and Molecular Biology

Seminars for Semester 1, 2018

Fridays 12-1 pm
New Law School, Lecture Theatre 024

MARCH	16	Karla Kaun – <i>Brown University</i> To drink or Not(ch) to drink: Neuromolecular mechanisms underlying alcohol seeking
	23	Marcel Dinger – <i>Garvan Institute of Medical Research</i> Genomics in the clinic: Transforming healthcare and medical research
<i>EASTER BREAK: Mar 30 – Apr 9</i>		
APRIL	13	Seth Masters – <i>Walter and Eliza Hall Institute</i> New mechanisms of inflammasome activation and autoinflammation
	20	Linda Lua – <i>University of Queensland</i> Building platform technologies to enable protein production
	27	Toby Passioura – <i>University of Tokyo</i> Genetically reprogrammed peptide synthesis: a unique tool for drug discovery and analysis of protein interactions
MAY	4	Wai-Hong Tham – <i>Walter and Eliza Hall Institute</i> Structural and Molecular Mechanisms of Malaria Parasite Invasion
	11	Elizabeth New – <i>University of Sydney</i> Molecular imaging tools for the study of oxidative stress and metal ions in biology
	18	Nathan Croft – <i>University of Melbourne</i> Immunopeptidomics – antigen presentation in the era of mass spectrometry
	25	Kirill Alexandrov – <i>University of Queensland</i> Topic: Molecular Medicine
JUNE	1	Alice Vrielink – <i>University of Western Australia</i> Topic: Structural Biology
	8	Gregory Moseley – <i>Monash University</i> TBA
