

2011 Thompson Prize

School of Molecular Bioscience
University of Sydney
4 pm, 24th November

Amelia Edington (*University of Sydney*)

Extracellular Loops 2 and 4 of GLYT2 are Required for
N-Arachidonyl-Glycine Inhibition of Glycine Transport

Vanessa Morris (*University of Sydney*)

Structural Insights into the Self-Assembly of
the Fungal Hydrophobins

Arun Dass (*Macquarie University*)

Role of Salivary Sugar Antigens in Innate Immunity

Jason Low (*University of New South Wales*)

Proteome-Scale Analysis of Protein Methylation in
Saccharomyces Cerevisiae

Benjamin Parker (*University of Sydney*)

A Protein Post-Translational Modification Systems
Approach to Quantify Ischemic Signalling Networks

Followed by refreshments and the announcement of the
Lorne Travel Scholarships and Thompson Prize winner
